Notes: Percents may not add to 100.0 because of independent rounding.

Dash indicates that percent distributions are not calculated when the base number is less than 50.

¹Numbers represent total number of victims (i.e., entities and individuals), not the number of hate crime events.

²Numbers represent acts directed at entities other than individuals.

Of 2,529 victims of hate crime in 1996,

- Most (2,363) were individuals. Of these,
 - Over one-third (849 or 35.9 percent) became victims at their homes or other residences.
 - Approximately one-third (704 or 29.8 percent) became victims on highways, roads, alleys, or streets.
