Object and Summary

Patrons are awarded Match Play Coupons via advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, or winning or signing up for a Bureau approved tournament (GETR-000127). The player-dealer will then have a casino representative sign the coupon verifying that it has been used by the player. The exchanged value, in live casino chips, is then brought back to the player-dealer as reimbursement for the coupon.

All applicable collection fees shall be paid when using a Promo Chip. Promo Chips may not be used to pay collection fees or jackpot fees.

Squares are issued on a first come, first serve basis. One square per person shall be chosen by the player once a player has earned it. Players can qualify to receive more than one square by playing more hours or achieving a qualifying hand multiple times. The numbers on the board shall correspond to the score of the game. Only the last digit of each team's score shall be applied to the numbers on the board. **For example:** *Player A selected the box that has Denver 0 and San Diego 4. For example, a football or basketball game has a prize given away at the end of the 1st, 2nd, and 3rd quarters and final score. In a baseball game, if there is a prize given away at the end of every third inning, the same format shall be used, 3rd and 6th innings and final score. - No Bust 21st Century Blackjack (GEGA-001426)
- Pure 21.5 Blackjack (GEGA-003642)
- Pure Spanish 21.5 (GEGA-004186)

Object and Summary

With the G3 Buster Blackjack Progressive Jackpot, a player that wishes to be eligible for the jackpot will provide the house dealer with live casino chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter and when a player chooses to participate to the Jackpot Game, \$1.00 jackpot fee will be deducted from the player's bankroll meter.

- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, will be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.
- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

The jackpot game aide system adds a player funded progressive jackpot element to a Blackjack style game played in California Card rooms. The base Blackjack style game that this jackpot will be appended to must be approved by the Bureau to be eligible to add the Buster Blackjack Progressive.

G3 Buster Blackjack Progressive Jackpot

1. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1.00) on their own hand. To limit the fee to \$1.00, DEQ will program the software so that the fee amount can only be \$1.00 by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
2. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate to the Jackpot Game by pressing the “Player” button on the Jackpot Tracking Bet Manager.
3. Once all players have placed their base game wager and jackpot fee, the house dealer will press “Start” on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the dealer presses the “Stop” button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
4. The house dealer then follows standard approved procedures for dealing the base games, as listed above. After all players and the player-dealer have been dealt their hands, the play of the base games continues per the approved rules of the game.
 - a. A qualifying hand refers to the combination of the player-dealer’s cards. To be eligible to win on the G3 Buster Blackjack Progressive Jackpot, the player-dealer must receive a final score of more than 21 (a “busted hand”). The amount won on the gaming activity will be based on the number of cards in the player-dealer’s busted hand. The amount won will increase with the total number of cards in the player/dealer’s busted hand.

- In the case of multiple eligible tables, winners are paid in the order in which the wins occur.

G3 Buster Blackjack Progressive Jackpot

Funding

The G3 Buster Blackjack Progressive Jackpot is a player funded jackpot which features fixed and progressive prize elements. The Casino will initially seed the jackpot at a minimum of \$1000. Once there are sufficient monies in the G3 Buster Blackjack Progressive jackpot reserve fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. There shall be a cap of \$500,000 for the progressive prize pool. Any monies collected after the cap has been reached shall go into the reserve fund. After the progressive jackpot is hit, it will be reseeded by the reserve fund at a minimum of \$1000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall. The Casino will be reimbursed from the reserve fund once monies are available.

Each jackpot fee paid by a player will be broken down as follows:

- \$0.80 will be immediately posted on the meter.
- \$0.20 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.

Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on their bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on their bankroll meter, the house dealer will call over a casino representative and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino representative for reconciliation purposes at the end of their shift. The casino representative will then reimburse the player in live casino chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Administrative Fees

500 Club Casino shall retain an administrative fee of \$16 to \$30 per table per hour from each jackpot collection fee placed and collected. The administrative fee shall be utilized to cover expenses incurred by the Casino for administering the G3 Buster Blackjack G3 Progressive Jackpot gaming activity.

All controlled game rules shall be played as previously approved by the Bureau.

- EZ Baccarat Panda 8 (BGC ID: GEGR-002039)

Object and Summary

With the EZ Baccarat Panda 8 G3 Progressive Jackpot, a player that wishes to be eligible for the jackpot will provide the house dealer with live casino chips or cash not to exceed \$100. This prepaid money will be credited to the individual meter in front of that player's seated position. A \$1 jackpot fee is equal to one credit on the player's bankroll meter and when a player chooses to participate to the Jackpot Game, \$1 jackpot fee will be deducted from the player's bankroll meter.

- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, will be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.
- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

The jackpot game aide system adds a player funded progressive jackpot element to the game of EZ Baccarat played in California Card rooms. The base game of EZ Baccarat that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 progressive jackpot.

EZ Baccarat Panda 8 G3 Progressive Jackpot

1. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1 (1 credit = \$1) on their own hand. To limit the value of 1 credit to \$1, DEQ will program the software so that the credit amount can only be \$1 by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
2. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on their bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the “Player” button on the Jackpot Tracking Bet Manager.
3. Once all players have placed their base game wager and jackpot fee, the house dealer will press “Start” on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the house dealer presses the “Stop” button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
4. The house dealer then follows standard approved procedures for dealing the base game. Then, if the round results in a Dragon 7 or a Panda 8 hand, the Dealer will resolve the progressive wagers according to the pay table below. A Dragon 7 hand is when a Banker’s point count equals 7 with a total of three cards and Player’s point count is lower than 7. In the case where Player’s point count equals 8 with a total of three cards and Banker’s point count is lower than 8, the house dealer declares the hand a “Panda 8”.
5. If the cards dealt during the round result in a winning hand for the optional progressive wagers, the electronic Baccarat shoe (Hawk, Angel and Bee shoes) and G3 system will automatically recognize the winning hand and the system will ask for the casino employee’s confirmation that the hand was in fact the recognized hand. Once the hand has been verified, the casino employee will press F1 or enter the appropriate Key to confirm the displayed prize (as required by the system’s setup)

Funding

The EZ Baccarat Panda 8 G3 Progressive Jackpot is a player funded jackpot which features fixed and progressive prize elements. The Casino will initially seed the jackpot at a minimum of \$1,000. Once there are sufficient monies in the EZ Baccarat Panda 8 G3 Progressive Jackpot reserve fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. There shall be a cap of \$500,000 for the progressive prize pool. Any monies collected after the cap has been reached shall go into the reserve fund. After the progressive jackpot is hit it will be re-seeded by the reserve fund at a minimum of \$1,000 and a maximum of \$100,000. At any time, should the amount accumulated in the reserve fund reach \$100,000 then the G3 system will automatically generate a 2nd reserve and the portion of the jackpot fee (\$0.05) in excess of that \$100,000 will now be sent to that 2nd reserve fund. If that 2nd reserve fund reaches \$100,000, then any excess monies (\$0.05) will all be sent to the meter. In the event, the reserve fund does not have enough to cover the seed amount; the Casino will make up any shortfall. The Casino will be reimbursed from the reserve fund once monies are available.

Each jackpot fee paid by a player will be broken down as follows:

- \$0.80 will be immediately posted on the meter.
- \$0.20 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.

Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on their bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on their bankroll meter, the house dealer will call over a casino representative and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino representative for reconciliation purposes at the end of their shift. The casino representative will then reimburse the player in live casino chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.
