CARIBBEAN STUD POKER JACKPOTS

SUMMARY OF GAME

California Grand Casino proposes to add progressive Jackpot elements to the game of Caribbean Stud Poker. Under this innovation, a prize is awarded to players in games where a predetermined minimum qualifying hand is beaten by a predetermined minimum qualifying hand. Prizes are paid from a prize pool (Jackpot Fund) funded by a fee paid by participating players.

With the exception of the rules related to the funding and distribution of the Jackpot element (discussed herein), the rules and standards of play for the Caribbean Stud Poker Jackpot Games are the same as Caribbean Stud Poker. The number of cards in the deck, the type of deck, the function of the dealer, the number of players, rotation of the Player/dealer position, collection of table fees, betting limits and how winners are determined and paid will all be consistent with existing procedures.

Since the Jackpot elements will be added to an existing game, there will be no new tables utilized for the play of this game.

THE PRIZE

A prize (Jackpot Prize) will be awarded when one player at a game gets a predetermined minimum qualifying hand beaten by another player with a predetermined minimum qualifying hand. As these are progressive Jackpots, the amounts of the Jackpot prizes will vary depending on the volume of play and frequency of which players win the prize. California Grand Casino will control the allocation of the Jackpot Collections to Jackpot prizes. The available Jackpot Prizes will be posted on a board on the wall near the Caribbean Stud Poker game. The board will be updated daily as the prizes increases so that all players will have notice of the current Jackpot Prizes. The amounts that the prizes increases will vary depending on: the volume of play (amount collected on the tables on a daily basis) and whether or not the Jackpot owes the California Grand Casino money for the initial prize. When someone qualifies for a prize the board will be adjusted immediately.

The California Grand Casino may cap the amount for an individual Jackpot Prize. If this were done, a backup prize would be started. As long as no Jackpot Prize has been capped, each Jackpot Prize would be increased an equal amount daily.

When players obtain the specified hand combination and claim a Jackpot Prize, the qualifying hands will be verified by the dealer and a floor-person. Surveillance cameras will be utilized to assure all employees and customers followed the required procedures. The winning player's identification will be obtained and necessary paperwork completed prior to the payout of a Jackpot Prize. The California Grand Casino will record all prizes awarded and the names of the winners as part of its Caribbean Stud Poker Jackpot accounting records.

For any and all promotions, the owner, manager or designated employee may review the proper records, videotapes and deck, and interview employees and players, prior to authorizing the payment of any prize. Once California Grand Casino management has determined that the award of the prize is appropriate, the posted Jackpot Prize will be paid out. The percentages, that players or the Player/dealer win, are discussed under **QUALIFYING HANDS FOR CARIBBEAN STUD POKER.**

FUNDING

Caribbean Stud Poker Jackpot Prizes will be funded by a separate collection fee paid by the Player/dealer position prior to the start of each hand (Jackpot Collection). The Jackpot Collection will be between \$.50 and \$2.00 per hand depending on the rules of the promotion. The Jackpot collection fee will not be collected if there are not at least three hands (the five cards that each seated-position, with a bet on it, receives), which had been wagered upon, in play against the Player/dealer. In the event that there were fewer than three hands wagered upon, the game would not be recognized as an official Jackpot game and a Jackpot fee would not be collected. If a Jackpot fee is not collected, the participants would not be eligible for the Jackpot prize. The amount of the Jackpot Collection and predetermined number of participants with playing hands will be posted within view of each participating table. The California Grand Casino reserves the right to change the number of hands required to be played against the Player/dealer when determining Jackpot eligibility.

The California Grand Casino will lend the Jackpot Prizes a minimum of \$100 to establish an initial prize. Each time the prize is paid out the California Grand Casino will start the prize off at a minimum of \$100 using California Grand Casino funds; unless there is a backup prize (initially the prizes will each be seeded at \$500). The Jackpot Prizes will not be increased until the Jackpot collections have paid back the California Grand Casino for the initial seeding of the prize. The California Grand Casino may from time-to-time provide additional infusions of money to add to the size of the pool and the excitement of the game. The California Grand Casino reserves the right to increase the minimum starting amounts at its discretion.

Jackpot Collections are determined prior to the start of the hand and collected before the Player/dealer's hand is exposed. Jackpot Collections are not calculated based on a percentage of the amount wagered.

The Jackpot Collection will be posted by the player in the Player/dealer position. When there is more than one player participating in the Player/dealer position, the player who has the most money in action in the first Player/dealer position will be responsible for posting the full Jackpot Collection.

JACKPOT COLLECTION & ACCOUNTING PROCEDURES

The Jackpot Collection from all Caribbean Stud Poker games will be collected, counted, secured and recorded in the same manner as the table fees paid to California Grand Casino. The dealer will collect this fee (in the form of chips) prior to the Player/dealer's hand being exposed. This collection will be traded for a special Jackpot Chip which is different from any other chip used at the California Grand Casino. The dealer will then drop the chip(s) into the same box that the rest of the collections are dropped into. The locked collection boxes will be gathered by an employee of the California Grand Casino at designated times and transported to the cashier's cage. The collection boxes will be unlocked and the contents counted subject to minimum internal control standards similar to those used by California Grand Casino in collecting its table fees. The total dollar volume of the Jackpot Chips taken from each collection box will be recorded on a Daily Jackpot Collection Report (Jackpot Collection Report) that will be maintained as an accounting record and shall be available to the Division of Gambling Control for audit and inspection. The Jackpot Collection Report will document the amount of Jackpot Collections received at each participating Caribbean Stud Poker gaming table during each shift.

NO PURCHASE NECESSARY PROCEDURES

Caribbean Stud Poker Jackpot Games will be offered for free to all persons who wish to participate in a No Purchase Necessary game. California Grand Casino will provide an No Purchase Necessary table for all patrons who request to participate in Caribbean Stud Poker Jackpot games without paying a table fee or a Jackpot Collection. There will not be live wagers at these tables.

The Player/dealer position will rotate to each seated position so that the deal does not remain with a single seated position for more than two hands in a row. Each No Purchase Necessary participant may only be the player/dealer for two hands per round. Eight hands will be given out and be in play. There will always be a hand designated to be the Player/dealer and seven hands designated to be players' hands.

All hands will be in play to the end. In other words, no hand will be folded before the hand is compared against the Player/Dealer. Once the house dealer has dealt each seated position 5 cards, the house dealer will begin comparing individual hands to the Player/dealer's hand to determine if the hand qualifies to win the Jackpot prize.

Participants in a No Purchase Necessary table will be eligible to win their portion of the posted Jackpot Prize, if they participate in a game where a qualifying hand in the Player/dealer's position is beaten by a qualifying hand in a player position or vice versa. No Purchase Necessary Game will be available on a general and indiscriminate basis.

THIRD PARTY PROVIDERS OF PROPOSITIONAL PLAYER SERVICES

Third Party Providers of Propositional Player Services, as defined by Section 19980 of the California Business and Professions Code, their agents and employees (Prop Player), are not eligible to win any portion of the Jackpot Prize. If a Prop Player receives a Qualifying Hand, his/her portion of the Jackpot Prize will not be paid and will remain in the Jackpot Fund. If a Prop Player is a participant in a Qualifying Hand with another player(s), the prop player will not be eligible to receive his/her portion of the Jackpot Prize and the full Jackpot Prize will be paid to the other players.

FLAT ADMINISTRATIVE FEE

California Grand Casino may retain a flat administrative fee from the Jackpot Fund based on the number of table hours that Caribbean Stud Poker Jackpot Games are offered (Administrative Fee). The Administrative Fee will not fluctuate based on the amount of money placed into the Jackpot Fund. California Grand Casino reserves the right to adjust its flat Administrative Fee based on market factors and cost of operating Caribbean Stud Poker Jackpot Games. Eligible players in the player position will share the Jackpot Prize in equal shares regardless of the amount of their wagers.

QUALIFYING HAND FOR CARIBBEAN STUD POKER

QUALIFYING HAND FOR CARIBBEAN STUD POKER

In order to win the Jackpot, one hand (**the Losing Hand**) with a predetermined hand must be beaten by another hand (**the Winning Hand**) with a predetermined hand. The house will choose a minimum qualifying losing hand from the QUALIFYING LOSING HANDS column (shown below) and a minimum qualifying winning hand from the QUALIFYING WINNING HANDS column (shown below) for each of the Caribbean Stud Jackpots. All Qualifying Hand requirements will be posted for patrons before the play of the game. If a hand that qualifies as the Losing Hand is beaten by a hand that qualifies as the Winning Hand, the table will win the appropriate Jackpot Prize. One of the hands involved in making the Jackpot (either the hand beaten or the hand that beats the qualifying hand) must be the Player/dealer.

The California Grand Casino may choose to have more than one Jackpot Prize with differing requirements to win each Jackpot. The rules and procedures for each Jackpot will follow the rules and procedures listed herein.

When the promotion begins we will have three different Jackpots:

1. **Bad Beat Jackpot:** The Losing Hand's qualifying hand will be any flush and the Winning Hand's qualifying hand will be any flush or better. A qualifying losing hand must be beaten by a qualifying winning hand.

After the losing and winning hands in a Bad Beat Jackpot are confirmed and the house is satisfied that no irregularities exist, the player who lost with the qualifying losing hand will receive sixty (60%) percent of the posted Jackpot Prize for that game, the player with the qualifying winning hand will receive twenty (20%) percent of the posted Jackpot Prize and the remaining twenty (20%) percent of the posted Jackpot Prize will be evenly distributed among all other players at the table who have made a wager and paid a collection for that particular hand.

2. **Super Jackpot:** The Losing Hand's qualifying hand will be any full house or better and the Winning Hand's qualifying hand will be deuces full or better. A qualifying losing hand must be beaten by a qualifying winning hand.

After the losing and winning hands in the Super Jackpot are confirmed and the house is satisfied that no irregularities exist, the player who lost with the qualifying losing hand will receive sixty (60%) percent of the posted Jackpot Prize for that game, the player with the qualifying winning hand will receive twenty (20%) percent of the posted Jackpot Prize and the remaining twenty (20%) percent of the posted Jackpot Prize will be evenly distributed among all other players at the table who have made a wager and paid a collection for that particular hand.

3. **Royal Jackpot:** The Losing Hand's qualifying hand will be a straight or less and the Winning Hand's qualifying hand will be a royal flush. A qualifying losing hand must be beaten by a qualifying winning hand.

After the losing and winning hands in the Royal Jackpot are confirmed and the house is satisfied that no irregularities exist, the player who lost with the qualifying losing hand will receive sixty (60%) percent of the posted Jackpot Prize for that game, the player with the qualifying winning hand will receive twenty (20%) percent of the posted Jackpot Prize and the remaining twenty (20%) percent of the posted Jackpot Prize will be evenly distributed among all other players at the table who have made a wager and paid a collection for that particular hand.

To increase or decrease the frequency (odds) of the Caribbean Stud Poker Jackpot Prize being awarded, the California Grand Casino reserves the right to adjust the minimum qualifying hands. California Grand Casino will give ample advanced notice to all patrons of any changes to the minimum qualifying hands and will notify The Division of any adjustment.

Rules of Play

The player who obtains the highest ranking five-card poker hand, during a pre-determined and posted time period, for the specified game as noted above, shall win a pre-determined and posted prize ranging in value from \$10 to \$20,000. The player with the High Hand must meet all of the eligibility requirements and have their hand verified by an authorized representative. The CGC may award a multiple amount of any pre-determined winning High Hand promotion prize amount during designated hours, with prior notice to players posted on the gambling floor, as long as it doesn't exceed the maximum payout of \$20,000. With prior notice to patrons, the CGC may award portions of the designated prize, during a designated time period, to a second and third place best qualifying hand.

Qualifying Hands

A player is eligible to win this promotion by making the highest ranking hand that meets or exceeds the minimum designated hand, during the posted time period. In the event that two or more players tie for the same prize, the prize will be evenly distributed between each tying player.

During the designated time periods the High Hands will be recorded by an authorized casino employee. Just after the end of every period, the cashier records the winning High Hand for the last designated High Hand period. The hand, the time, the date, and the customer's name, are recorded on the log.

High Hand

By house rule, the Casino shall determine whether the player must use two hole cards to make the player's highest possible five-card hand. To win the designated prize, the players must have a hand that is at least as high as the minimum designated hand, as noted in the Qualifying Hands Chart below for all Bureau approved games.

Option	Qualifying Hand	Prize Payout

2	Designated Four of a Kind	\$10 - 20,000
3	Straight Flush or Better	\$10 - 20,000

Prize Amount

The prizes shall be paid at the discretion of the casino in the form of casino chips, cash or check. If there is no qualifying hand for an entire period, the prize will carry over until there is a winner. Each designated time period the prize is not won, the CGC may increase the prize pool from \$0 - \$500 until there is a winner. The entire accumulated prize would then be awarded at the end of the next designated period in which someone had a qualifying High Hand. The qualifying player does not need to be present at the end of the High Hand period in order to win.

The prize pool(s) shall be an amount ranging in value from \$10 to \$20,000. The CGC may award a multiple of any prize during designated hours, up to \$20,000. Controlled Games.

The Match Play promotion will be attached to Bureau approved player-dealer games offered at the Casino. All base game rules will be played as approved by the Bureau of Gambling Control. This includes Pai Gow Tiles (GEGA- 001332), Hot Action Blackjack (GEGA-001334, GEGA-000589), Pai Gow Poker (GEGA-001336), Three Card Poker (GEGA-002616, GEGA-002592), Pai Bac (GEGA-003529, GEGA-003715), EZ Baccarat (GEGA-003619, GEGA-003994), and Baccarat (GEGA-003748).

Rules of Play.

Patrons are awarded or provided match play coupons that will be exchanged for Match Play chips. Players may receive coupons at the Casino, or via advertisements in magazines, websites, mail, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament, etc. Players who receive a match play coupon will be eligible to win the specific amount printed on the coupon if he/she places a wager on an eligible game equal to or greater than the amount listed on the match play coupon. The coupon or advertisement will be redeemed at the cage for a match play chip prior to play. The cage will record and cancel the coupon and provide the patron with a match play chip. The match play chip will be wagered in conjunction with a real

money wager by the player. The match play chip will be easily distinguishable from casino chips purchased by customers.

Prizes.

The match play coupons and chips shall have a value ranging from \$5 to \$500 for each coupon and corresponding match play chip. The amount will be clearly stated on the chip and coupon. The player's real money wager must be equal to or greater than the amount of the match play chip.

When the player uses a match play chip and the hand loses, the player will only lose his/her original wager. The match play chip is collected by the player-dealer, who shall redeem the chip from the house dealer for a gambling chip. The player-dealer cannot use the match play chip for making or paying wagers. If a player loses, the real money part of the player wager is collected by the player-dealer.

If the player receives no action for any reason, including that the hand pushes, there is a mis-deal or the player dealer does not cover, the match play chip may be played again until the player wins or loses a hand.

If the player wins, the player collects, from the player-dealer, the winning amount on his or her match play chip, the winning amount on his or her matching real money wager, and receives back his or her real money wager. But the match play chip is collected by the player-dealer who shall redeem the chip from the house dealer for a gambling chip.

EXAMPLE: *A person receives a match play chip with a value of \$10.00 that may be used in any player-dealer game. The person would place the chip on the gaming table; place a bet that matches or is greater than the amount on the chip, and pay the posted collection (if applicable) for a single hand of play. If the player wins the hand, he/she will receive \$10.00 on the match play wager, \$10 on the real money wager, and will receive back the real money wager. The player-dealer dealer will collect the match play chip.*

Pai Gow Poker Bonanza Promotion
California Grand Casino
July 29, 2003

SUMMARY OF GAME

The California Grand Casino proposes to add a progressive jackpot element to our existing Pai Gow Poker games. Under this innovation, a prize is awarded to players in games where a predetermined minimum qualifying hand is beaten by a predetermined minimum qualifying hand. Prizes are paid from a prize pool (Jackpot Fund) funded by a fee paid by participating players.

With the exception of the rules related to the funding and distribution of the jackpot element, the rules and standards of play for the Pai Gow Poker Jackpot Games are the same as Pai Gow Poker. The number of cards in the deck, the type of deck, the function of the dealer, the number of players, rotation of the player/dealer position, collection of table fees, betting limits and how winners are determined and paid will all be consistent with existing procedures.

Since the jackpot element will be added to an existing game, there will be no new tables utilized for the play of this game.

THE PRIZE

A prize (Jackpot Prize) will be awarded when one player at a game gets a predetermined minimum qualifying hand beaten by another player with a predetermined minimum qualifying hand. As this is a progressive jackpot, the amount of the Jackpot prize will vary depending on the volume of play and frequency of which players win the prize. California Grand Casino will control the allocation of the Jackpot Collection to Jackpot prizes. The available Jackpot Prize will be posted on a board on the wall in the Pai Gow Poker section of the casino. The board will be updated daily as the prize increases or decreases so that all players will have notice of the current Jackpot Prize. When someone qualifies for the prize the board will be adjusted immediately.

When players obtain the specified hand combination and claim the Jackpot Prize, the qualifying hands will be verified by the dealer and a floor-person. Surveillance cameras will be utilized to assure all employees and customers followed the required procedures. The winning player's identification will be obtained and necessary paperwork completed prior to the payout of the Jackpot Prizes. The California Grand Casino will record all prizes awarded and the names of the winners as part of its Pai Gow Poker Jackpot accounting records.

For any and all promotions, the owner, manager or designated employee may review the proper records, videotapes and deck, and interview employees and players, prior to authorizing the payment of any prize. Once California Grand Casino management has determined that the award of the prize is appropriate, the posted Jackpot Prize will be paid out to the players. The player who lost the hand will receive sixty (60%) percent of the posted Jackpot Prize for that game, and the remaining forty (40%) percent of the prize will evenly distributed among all the other players at the table who made a wager and paid a table fee collection for that particular hand.

FUNDING

Pai Gow Poker Jackpot Prizes will be funded by a separate collection fee paid by players prior to the start of each hand (Jackpot Collection). The Jackpot Collection will be either \$1.00 or

California Grand Casino

\$2.00 per hand depending on the rules of the promotion. The Jackpot collection fee will not be collected if there are not at least three hands, which had been wagered upon, in play against the Player/dealer. In the event that there were fewer than three hands wagered upon, the game would not be recognized as an official Jackpot game and a Jackpot fee would not be collected. If a Jackpot fee is not collected, the participants would not be eligible for the Jackpot prize. The amount of the Jackpot Collection and predetermined number of participants with playing hands will be posted within view of each participating table. The California Grand Casino reserves the right to change the number of hands required to be played against the Player/dealer when determining Jackpot eligibility.

Jackpot Collections are determined and collected before the player/dealer's hand is exposed. Jackpot Collections are not calculated based on a percentage of the amount wagered. California Grand Casino will provide the initial seeding of the Jackpot Fund and may from time-to-time provide additional infusions of money to add to the size of the pool and the excitement of the game.

The Jackpot Collection will be posted by the player in the Player/Dealer position. When there is more than one player participating in the Player/Dealer position, the player who has the most money in action in the first Player/Dealer position will be responsible for posting the full Jackpot Collection.

JACKPOT COLLECTION & ACCOUNTING PROCEDURES

The Jackpot Collection from all Pai Gow Poker games will be collected, counted, secured and recorded in the same manner as the table fees paid to California Grand Casino. The dealer will collect this fee (in the form of chips) prior to the player/dealer's hand being exposed. This collection will be traded for a special Jackpot Chip which is different from any other chip used at the California Grand Casino. The dealer will then drop the chip(s) into the same box that the rest of the collections are dropped into. The locked collection boxes will be gathered by an employee of the California Grand Casino at designated times and transported to the cashier's cage. The collection boxes will be unlocked and the contents counted subject to minimum internal control standards similar to those used by California Grand Casino in collecting its table fees. The total dollar volume of the Jackpot Chips taken from each collection box will be recorded on a Daily Jackpot Collection Report (Jackpot Collection Report) that will be maintained as an accounting record and shall be available to the Division of Gambling Control for audit and inspection. The Jackpot Collection Report will document the amount of Jackpot Collections received at each participating Pai Gow Poker gaming table during each shift.

NO PURCHASE NECESSARY PROCEDURES

Pai Gow Poker Jackpot Games will be offered for free to all persons who wish to participate in a No Purchase Necessary game. California Grand Casino will provide instructional tables for all patrons who request to participate in Pai Gow Poker Jackpot games without paying a table fee or a Jackpot Collection. There will not be live wagers at these tables. Participants in No Purchase Necessary instructional tables will be eligible to win their portion of the posted Jackpot Prize, if they participate in a game where a player obtains the designated Jackpot hand. No Purchase Necessary Game will be available on a general and indiscriminate basis.

THIRD PARTY PROVIDERS OF PROPOSITIONAL PLAYER SERVICES

Third Party Providers of Propositional Player Services, as defined by Section 19980 of the California Business and Professions Code, their agents and employees (Prop Player), are not eligible to win any portion of the Jackpot Prize. If a Prop Player receives a Qualifying Hand, his/her portion of the Jackpot Prize will not be paid and will remain in the Jackpot Fund. If a Prop Player is a participant in a Qualifying Hand with another player(s), the prop player will not be eligible to receive his/her portion of the Jackpot Prize and the full Jackpot Prize will be paid to the other players.

FLAT ADMINISTRATIVE FEE

California Grand Casino may retain a flat administrative fee from the Jackpot Fund based on the number of table hours that Pai Gow Poker Jackpot Games are offered (Administrative Fee). The Administrative Fee will not fluctuate based on the amount of money placed into the Jackpot Fund. California Grand Casino reserves the right to adjust its flat Administrative Fee based on market factors and cost of operating Pai Gow Poker Jackpot Games. California Grand Casino projects that its Administrative Fee will be in the range of \$4.00 to \$6.00 per table hour. California Grand Casino will designate the flat Administrative Fee and will provide advance ample notice of its flat fee to all customers in accordance with Regulations adopted by the Gambling control Regulations.

ELIGIBILITY FOR THE JACKPOT PRIZE

Only the first Player/Dealer position is eligible to win the Jackpot Prize. If there is more than one player with a wager in the first Player/Dealer, the Jackpot Prize will be divided equally between the players. All players in the player position, who have made a wager and have paid the table fee for any betting circle, regardless of the amount wagered, are eligible to win the Jackpot. Eligible players in the player position will share the Jackpot Prize in equal shares regardless of the amount of their wagers.

QUALIFYING HAND FOR PAI GOW POKER

A hand with a pair in the two-card (front) hand and a flush or better in the five-card (back) hand is beaten by a higher ranked pair in the two card (front) hand and a higher ranked flush or better in the five-card (back) hand.

QUALIFYING HAND OPTION FOR PAI GOW POKER

To increase or decrease the frequency (odds) of the Pai Gow Poker Jackpot Prize being awarded, the California Grand Casino reserves the right to adjust the minimum qualifying hands. California Grand Casino will give ample advanced notice to all patrons of any changes to the minimum qualifying hands and will notify the division of said adjustment.

CALIFORNIA GRAND POKER TOURNAMENT STRUCTURES

Under all circumstances, the tournament structure chosen will be written out on a tournament information sheet available to customers before sign-ups begin for any tournament.

Re-buy and No Re-buy Tournaments

Sign-ups

Tournament sign-ups are available to the general public (anyone 21 years of age or older). However, the California Grand Casino reserves the right, at the California Grand Casino's discretion, to refuse tournament entry to anyone.

Sign-ups begin at a designated time prior to the posted start time. Players should call or come in and ask the cashier for details. Due to limited space, players in live games may be given preference over those players that are not playing in live games at the designated sign-up time.

Except for the possibility that preference will be given to players in live games (specifically, the live game that has been going to longest), Sign-ups will generally be based on a first come, first served basis. However, if there is limited space, we may use a lottery system to determine who will be allowed to participate.

Alternates

Due to limited space, the tournament director may take sign-ups for alternates. These alternates may be allowed to enter the tournament if an additional table is used for tournament play, after play has begun and someone busts out, or to take a player's place if s/he cancels.

In an emergency, an alternate(s) may be put in at management's discretion.

Alternates must enter the tournament before the blinds/limits have been raised to a predetermined amount that will be posted in the tournament rules for all entrants to see before the start of the tournament.

Buy-ins

Buy-in amounts will be determined before the start of the tournament. Buy-ins will cost from \$0 (free) to \$10,000. Players may be allowed to buy in to the tournament a second time (once

they've busted out) but they will be treated as an alternate and must be put back on the bottom of the alternate list (if there is one) in order to do so.

Starting Chip Amounts

All tournament players start with the same, predetermined number of tournament chips. Tournament players will start with an amount from \$500 to \$100,000 in tournament chips.

Administrative Fees

A predetermined administrative fee may be charged for each buy-in. This fee is in addition to the buy-in. The California Grand may charge from 0 to \$2,000 as an administrative fee. This fee will not be included in the prize pool.

Re-buys (Re-buy Tournaments only)

Players may re-buy anytime they have less than a predetermined number of tournament chips. Players will receive a predetermined number of tournament chips for each re-buy. Re-buys will cost a set amount from \$5 to \$10,000. Re-buys continue until a predetermined limit is reached, up to a certain time (i.e. one hour into the tournament), or until the first table breaks, after which, no re-buys will be allowed.

Add-on (Re-buy Tournaments only)

Add-ons may or may not be offered on a tournament.

If they are offered, at a predetermined point in the tournament (generally, at the moment that the blinds will be raised to a specified amount), the tournament will be paused. The dealers offer an Add-on to anyone that wishes to purchase one. Add-ons are available to all remaining players (regardless of how many chips a player has). The Add-on costs a predetermined amount from \$5 to \$10,000 for which the player receives a predetermined amount in tournament chips.

Generally, the Add-on is offered at the last opportunity to re-buy.

Tournament wager structures may change to No-Limit at the final table.

Games

Any of the following games may be played in a tournament:

1. Texas Hold'em (Hold'em) High, Low, or High/Low Split
2. Omaha High, Low, or High/Low Split
3. 7-Card Stud High, Low, or High/Low Split (Razz)

Tournaments may be structured so that one approved game is played from beginning to end or a combination of approved games are played (i.e. Omaha is played until the blinds are raised, then Hold'em is played and they alternate back and forth).

Except where specifically stated in tournament rules, rules of play for the tournaments will be the same as in the live games.

Rounds

Blinds and limits get raised at a predetermined interval (i.e. every 12 minutes)

Minimum and Maximum number of tables

The minimum number of tables for a tournament is one. The minimum number of tables for a “Guaranteed” Prize Pool (see Prize Pool Structures below) is three. The maximum number of tables is limited by the number of tables available (not in use by live games) and ultimately by the number of gaming tables authorized for play at the California Grand Casino. At management’s discretion, live games may be broken to accommodate tournament tables. Also, the number of tournament tables may be limited by management, even when open tables are available.

Minimum and Maximum number of players

The minimum number of players for any tournament is 2. The minimum number of players required to hold a “Guaranteed” Prize Pool (see below) tournament is 21 players. If, before the scheduled tournament start time, less than 21 players are signed-up for a tournament that is scheduled to be a “Guaranteed” Prize Pool structure, the tournament structure will be changed from a “Guaranteed” Prize Pool structure to a “Regular” or an “Added” Prize Pool structure or the tournament may be cancelled.

The maximum number of players will depend upon the number of tables that will be used for the tournament. No more than 10 players will be put on any table.

The California Grand Casino reserves the right to increase the minimum number of players required for any tournament Prize Pool structure.

Prize Pool Structures

There are three types of prize pool structures for tournaments:

1. “Guaranteed” Prize Pools

In a tournament with a guaranteed prize pool, the California Grand Casino will guarantee that the prize pool will be at least a certain amount. The amount of the “Guaranteed” Prize Pool will range from \$500 to \$1,000,000. If the total of the buy-ins plus the re-buys and the add-ons does not equal the amount guaranteed, the California Grand will pay out the amount that was guaranteed before the beginning of the tournament or cancel the tournament. If the total of the buy-ins plus the re-buys and the add-ons is greater than the amount guaranteed, the prize pool will be increased to match the total amount collected (not including any administrative fees).

2. “Regular” Prize Pools

Under this structure, the tournament prize pool will be equal to the sum of all the buy-ins, the re-buys, and the add-ons. Nothing will be taken from the prize pool and nothing more will be added.

3. “Added” Prize Pools

Under this structure, the tournament prize pool will be equal to the sum of all the buy-ins, the re-buys, and the add-ons plus whatever predetermined amount the “House” is adding to the tournament. . The amount of the “Added” Prize Pool will range from \$500 to \$1,000,000.

Merging Tables

There are two ways to handle players busting out of the tournament and subsequently balancing out/breaking tables:

1. The tournament director will go around and select players to move from a table with more players to a table that is short of players. When enough players have gone busted, the tournament director will merge players from one table into the remaining tables.
2. The players will play down until there are a predetermined number of players on each table. The players that are left will then be merged together on one table where they will play for the prize pool or the players left on each table will win a prize.

End of the Tournament

If the game played on the final table of the tournament is a High/Low split game, the tournament ends when three players are left with chips. The three players then count down their chips and the player with the most chips wins first place, the player with the second most chips wins second place, and the player with the least chips wins third place.

Otherwise, tournaments end when there is only one player left with chips or the players have arranged a split.

Bounties

In any type of tournament, before the tournament begins, the house may put a “bounty” on a designated player or players’ heads. This means that whoever wins the pot when the designated player(s) go/goes busted win(s) the bounty. The house may put up the bounty(s); sort of like an add-on to the tournament prize pool or it may take a certain portion of the prize pool and allocate it toward bounties. . The amount of the bounty will range from \$10 to \$100,000.

Problem Players

The California Grand Casino reserves the right to remove (eject) anyone from the tournament at any time if the California Grand management feels that it is in the best interest of our staff, our customers, or the business in general. Any player removed from the tournament may lose their rights to all prizes and in most cases, will not be given a full or partial refund.

The California Grand Casino may also impose penalties on players. Among other things, penalties may include sitting out a number of hands. If a player is told to sit out a number of hands, even though the player is not allowed to play during the penalty period, the player’s chips will be forfeited for the blinds.

Under certain circumstances, if a player’s behavior warrants or the behavior persists after penalties and warnings are given, a player may be barred from playing tournaments in the future or may be barred from entering the casino in the future.

Bureau Advertisement Requirements

The Casino may advertise various and other names for this gaming activity. Should the Casino advertise a different name, the BGC ID (GEGA-004295) shall be referenced on all advertisements relating to this Promotion.

Furthermore, all rules and procedures for this promotion, including but not limited to the following, shall be prominently displayed in the Casino, at all times the promotion is being offered:

- Eligible games and time periods.
- Prize amounts.
- Procedures for “Splashing the Pot”
- Method used to determine the table chosen
- Availability of No Purchase Necessary.
- Any other applicable eligibility restrictions or conditions.

Controlled Games

The Splash the Pot promotion shall be attached to all limits and versions of all approved Poker games offered at California Grand Casino.

All base game rules shall be played as previously approved by the Bureau of Gambling Control.

Rules

During pre-determined times and intervals of the promotional period, a casino employee shall “Splash the Pot” by adding a pre-determined and posted prize to the pot at the start of the next hand. Betting procedures and play shall proceed as a normal round of play would. The player with the winning hand shall win the pot, including the added prize amount. In the event of a tie, the winning players shall split the pot evenly if the prize is cash or chips. In the event that more than one person wins a pot that is splashed with a prize other than cash or chips, in order to determine a winner of the “splash the pot prize”, the dealer shall shuffle the deck of cards, burn one card, then deal one card face up to each player that tied for the pot, and award the prize to the player with the highest ranking card. If while determining a winner of a “splashed pot” prize from two or more players that have tied for the pot, two or more players are given initial cards that are equal in rank, each player that tied would be given another card until the winner of the prize has been determined. The pot will still be split equally.

At a designated time, the Casino shall choose the table using a random means, as described below:

Drawing Bingo Balls with Table Numbers

The bingo balls are all of the same size and shape. Each has a table number. They are placed in a cage like device and the balls are mixed up. One ball is drawn or ejected at random by a designated employee with another employee observing the draw.

Drawing Tickets with Table Numbers

Each table is represented by a raffle ticket, stiff paper or plaque, which are all of the same size and shape and have a table number on them. They are placed in a cage like device or cylinder and mixed up. One object is drawn at random by a designated employee with another employee observing the draw.

Splash Pot Promotion

Method of Dealing a Card

Each table is represented by a different playing card. Only the number of playing cards are used as tables in use. If there are 14 tables in use, then 14 cards are used. Each card is assigned to that table number with cards 2-10 assigned to tables 2-10. Aces = table one, jacks equal table 11, queens equal table 12, kings equal table 13. If more cards are needed then different color jacks, queens and kings are used for table 14-16. The cards are shuffled. One card is burned and the second card from the top is the winning table. The cards are shuffled and dealt by a designated employee with another employee observing.

If while using any of these methods, the selected table is not in action, then the ball or card is set aside and another selection takes place until an active table is selected. Alternatively, the club may exclude tables not in use from the bingo balls, tickets or cards before the random selection occurs.

Prize Amount

The prize amount shall be added to the pot of the selected table. The prize shall be a fixed amount ranging from \$10 to \$2,000 in the form of casino chips or merchandise equaling the same amount such as gift cards, electronics, tournament entries and clothing. The prize will be awarded to the player winning the hand immediately following the funds being delivered to the table.

EXAMPLE 3: *The Casino awards a \$5 Free Play chip to any person that makes a base game wager of \$200 or more.*

Free Play Promotion

- Free Play chips shall be used as the player's bet in the player or player-dealer position until they are lost by the patron using them. The Casino may restrict the use of Free Play Chips to certain wagers (base game wagers, bonus bets, etc).
 - The Casino will take the same collection amount on wagers using Free Play chips as on any other wagers with redeemable chips.
- If the patron (in the player or player-dealer position) using the Free Play chips wins the hand, they will be paid in live casino chips by the other player (or player-dealer) just as if they had placed a wager with live casino chips. The Free Play chip(s) will be retained to be used again until the player loses the chip(s) in a wager.
- If the patron (in the player or player-dealer position) using the Free Play chips loses the hand, the Free Play chip is forfeited and will be exchanged by the house dealer for live casino chips to be given to the participant who won the wager. The Free Play chips will be taken to the cage by a casino representative and redeemed or turned in at the cage.
- If the player pushes (receives no action), the chip may be played again until the player loses a hand.
- Free Play chips may be wagered with live casino chips.
- Free Play chips are not redeemable for live casino chips except by the patron who won the free play chips after they were played.
- Free Play chips may expire, per the posted notice at the Casino at the time the chips are awarded.
- By posted notice, the Casino may have rules that Free Play chips are non-transferable between players.
- By posted notice, the Casino may have a rule where Free Play chips are awarded based on the amount of a chip purchase, some or all of the purchased chips may also be Free Play Chips.
- The Free Play chip procedures shall be the same for the player and player-dealer position.
