10 AM TO 4 PM

**SATURDAY
APRIL 22, 2023**

777 Casino Way
Blue Lake, CA

This event is being developed in collaboration and partnership between CA DOJ and the Northern California tribal community to bring awareness about the Missing Murdered Indigenous Persons Crisis and provide an opportunity for tribal families to:

1. Report a loved one missing.
2. Receive an update on an active missing person's case.
3. Provide a DNA sample to potentially bring closure for a family and allow for the return of their loved one.

Families are encouraged to bring photos of their loved ones (by themselves and with immediate family member), military records, and medical & dental records, if possible.

Although registration is not required for this public event, to have enough food available for all elders and attendees, it is respectfully request that you register.

SPECIAL THANKS TO OUR PARTNERS IN JUSTICE:
