Description & Method of Play

DESCRIPTION

Seven-Card Stud Hi/Low Split (8Qualifier) Poker uses a standard 52 card deck, generally without the Joker and the rules and methods of play are identical to 7-Card Stud Hi poker, except at showdown. If there is a “qualifying hand” for Low, that hand will split the pot evenly with the winning High hand. A qualifying hand for low is one that is an “Eight-or-Better”, using traditional LoBall rankings. Players do not “declare”. Should there be no player holding an “Eight-or-Better”, the entire pot is awarded to the highest exposed High hand. Traditional rankings of hand apply.

- Players ante, the size of which is relative to the stake of the game.
- Players are dealt three cards in-turn, in rotation, two facedown, and one face-up.

- Showdown. Active players expose all of their cards. The best High hand and the best Low hand, providing it is an “Eight-or-Better”, split the pot. Otherwise the High hand wins all.

Showdown Rules

INITIAL THREE CARDS

1. If the Dealer accidentally turns up a player's first or second hole card, the third card is dealt facedown.
2. If both a player's first two hole cards are turned-up accidentally by the Dealer, that will constitute a misdeal and the hand will be redealt. If a play's first and

- third cards are turned up, the bet will be the amount of the force only-no completion or raise-if that seat continues play, otherwise play resumes as normal.
3. Should the player be responsible for one of his first two hole cards being turned over, the third card shall be dealt up as in normal conditions. The exposed card plays, as one of the players's three down cards.
 4. If the Dealer deals a card to an empty seat (first or second card) and the error cannot be corrected, it is dead, put into the discards, and the deal continues. If it occurs on an up card, it will be corrected by moving the cards to the proper order. If it occurs on the final down card, and it cannot be corrected, the hand plays as dealt.
 5. If a player is dealt more than two hole cards and it is discovered before he acts on his hand, the extra card will be retrieved and used as a burn card. A player dealt less than two hole cards will receive a card(s) from the top of the deck. If it is not discovered until after that player takes action, he has a fouled hand and any money wagered is forfeited.

THIRD -SIXTH STREET ACTION

1. A card dealt off the table is a dead card and will be replaced after the last player has received his card for that round. The dead card will be used for the next round's burn card, if necessary.
2. Check and raise is permitted.
3. If a player folds his hand after making a forced bet, his seat will continue to receive subsequent card(s) until there is a bet.
4. If a player folds his hand on 4th, 5th, or 6th Street and there has been no bet, the player's (seat) will continue to receive card(s) until there is a bet.
5. The above-mentioned card(s) will be dealt facedown.
6. If a dealer burns and deals a card(s) before around of betting has been completed, that card(s) will be eliminated from play, along with an additional card for each remaining players in the hand. Dealer will then burn a card and deal normally. After that round of betting has concluded, play resumes in a normal fashion.
7. If the Dealer burns two cards, or fails to burn a card, the cards will be moved to the proper position if possible. If this happens on a down card and there is no way to tell which card was received, then all players will accept the cards given to them.
8. If there is an open pair on "Fourth Street" in any player's up cards, the player initiating a bet has the option of betting the lower or upper limit. Should he bet the lower limit, any other active player may raise in increments of the lower or higher limit. Once the higher limit has been bet or raised, the higher limit will continue to be the bet (or raise) for that round. This rule applies in High only.

SEVENTH STREET ACTION

1. If the High (Low in Razz) hand on board is “all-in” before the betting starts on any round, the next High hand will initiate the action.
2. If the Dealer turns the last card face-up to any player(s), all remaining players will receive their last card facedown. The player(s) whose card(s) was exposed has the option of declaring himself all-in, and all subsequent betting will be on the side. If the player chooses not to be all-in, the betting continues as normal with the player who was high on the sixth card initiating the action.
3. If there are not enough cards left in the deck to burn and deal the remaining players a seventh card, the Dealer shall: a) scramble the stub with the burn card; b) cut the stub; c) burn a card; d) deal the remaining cards using the last card if necessary.
4. If there are not enough remaining cards for the above procedure, the Dealer: a) will not deal any cards to the active players; b) declare that there are not enough cards for all active players; c) burn a card; d) turn a community card up in the center of the table. That card plays in each active player’s hand.

SHOWDOWN RULES

1. At showdown, the player initiating action (either by checking or betting) must turn his hand over first.
2. When a player turns any of his up card facedown after a bet has been made, he concedes all rights to the pot.
3. A player who calls a bet and is beaten “onboard” is not entitled to be bet back.
4. A player must have seven cards in order to win at showdown, except as provided in Rule 4 of Seventh Street Action Rules. Any other number of cards constitutes a dead hand.
5. At showdown, using traditional hand rankings, the active player with the best five carded High hand (Low in Razz) out of his seven cards is the winner. In Hi/Low Split, the Low hand must qualify to win half the pot. All seven cards must be exposed at showdown.
6. In the case of a split pot: a) when playing 7-Card Stud, any odd chip goes to the player with the Highest card according to suit (Spades, Hearts, Diamonds, Clubs); b) when playing Razz the Lowest card, suits reversed, gets the odd chip; c) when playing Hi/Low Split, the High hand gets the odd chip.

OBJECT OF THE GAME

The object of No Bust-21st Century Blackjack is for the players and the Player/Dealer to add the numerical value of their cards and:

- Achieve the best possible point total, two Jokers or a "Natural 22". (This hand pays 2 to 1.)
- A "Natural 22" beats all other hands.
- A Joker is a "wild" card and combined with any other card is the second best hand.
- Draw additional cards if needed.

VALUE OF CARDS

A plural standard deck of cards with one Joker added per deck is used in the play of the game. The game can be played with a minimum of one (1) and a maximum of eight (8) decks.

- Two Jokers dealt as the first two cards is the best possible hand and is also known as a "Natural 22".
- One Joker dealt with any other card regardless of values is the second best hand. The Joker in this case is "wild".
- An Ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- Picture or face cards have a value of 10.

ROUND OF PLAY

1. No Bust-21st Century Blackjack is played on a raised gaming table. The table seats eight players who face the dealer in a 180 degree seating arrangement. The tables are commonly used in the casino industry. The casino dealer stands opposite of the players, and in the center of the table. The casino dealer's chip tray is set in front of him/her. The play starts from the right of the dealer and proceeds in a clock-wise fashion.
2. The game utilizes a standard 52 card deck, with the addition of one Joker per deck for a total of 53 cards. The game can be played with a minimum of a single deck, totaling 53 cards and to a maximum of eight decks totaling 424 cards.
3. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed, and collection fee for the players and Player/Dealer. A maximum of three collection rates are allowed in compliance with the California Penal Code.
4. A standard round of play begins when a Player/Dealer is designated. The Player/Dealer will place an amount of money (casino chips) in front of their seat in a betting circle and that money will be used to pay the winners and will also set the amount that he/she can collect from the loser. The casino will place a "button" in front of the Player/Dealer which designates that they are taking the "bank" position and further designate whether it is the first or second turn for the Player/Dealer in the banking position. The Player/Dealer will place the collection fee in front of his betting circle.
5. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the posted collection for the wager they placed in any betting circle where they have money or "action".
6. Once the Player/Dealer has posted the amount of money he/she will wager against the other players, and once the players have placed their wagers, the casino dealer will collect all of the fees. This will always be accomplished prior to the start of the game in accordance with the California Penal Code. The casino dealer will take the

collection fees and drop them into a locked collection box affixed to the gaming table.

7. After the fees have been collected, the dealer will deal the cards to the players and the Player/Dealer. All cards dealt throughout the game are always dealt face up. The casino dealer is the only person on the table to touch the cards. The players will signal to the dealer by hand gesture if they wish to hit or stand. These hand signals will be consistent with industry standard signals such as moving their hand in a sweeping motion towards their body indicating they want an additional card and in moving their hands in a side to side manner, indicating they wish to stay with their cards on the table. The casino dealer deals the first card to the player seated to the left of the designated Player/Dealer, in a clock-wise fashion. Each player will be dealt one card face up and the Player/Dealer will receive his/her first card also. The Player/Dealer's dealer first card will be placed in front of the casino dealer rather than in front of the Player/Dealer's seat position.

8. The casino dealer will deal a second face up card to the players, again starting at the player to the first seated position to the left of the Player/Dealer, in a clock-wise fashion. The Player/Dealer does not get dealt a second card until all players have been given the opportunity to be dealt additional cards to make the best possible hand. (Rules and procedures for hands that can be split, double-down, and surrendered are outlined on page 11.)

9. Players must follow the below listed charts in deciding whether to hit or stand on a particular hand.

Rules for Players

		<u>12</u>
	<u>11 or Less</u>	<u>13</u>
<u>Soft & Hard 20</u>		<u>14</u>
<u>Soft & Hard 21</u>		<u>15</u>

		<u>17</u>
		<u>18</u>
		<u>19</u>

10. After all players have made their best hands by indicating to the casino dealer that they do not wish to have additional cards dealt to them, the Player/Dealer will receive his/her second card. This card will determine where the "action button" will be placed.
11. The action button determines where the action starts or who will be first to be paid for their winning hand or lose their wager. The action button is placed based on its numerical value and in comparison to the players seated at the table. (Please see the chart below for an example of how the card's value is used to determine the placement of the action button).

12. Once the hand is played to the end, the pay-out or collection of the wagers will begin at the seat where the action button is placed. The settling of the wagers will proceed in a clock-wise manner until all wagers have been acted upon.

13. In the event that the Player/Dealer does not have enough money on the table to cover all the wagers on the table, there will be no free collection button, refund, or other conciliatory action give to the affected players by the casino or the Player/Dealer.
14. If the Player/Dealer's first up card is a Joker, all hands are frozen on the table. The Player/Dealer will be dealt the next card and the action button will be placed. Winning and losing wagers will be determined and all pay-offs made. Players have no options on their hands if this occurs.
15. The Player/Dealer's cards will always be dealt and placed in front of the casino dealer's tray. The placement of the Player/Dealer's cards is standard in all games and is depicted in the chart below:

16. The casino dealer continues to draw cards for the Player/Dealer, if necessary until a Hard 17 or higher number is reached. The Player/Dealer does not have an option of hitting a Hard 17 or higher nor staying on a Soft 17 or lower. See the chart below for details:

Rules for Player/Dealer

Must Stand on	Must Hit on	Have Option on
HARD 17 AND ABOVE	SOFT 17 OR LESS	NONE

17. Once the Player/Dealer's hand has been made, all winners and losers are determined when their card's numerical value are compared to the Player/Dealer's. The Player/Dealer is never required to cover all opposing player's wagers. A Player/Dealer can only win or lose as much as they have placed on the table to cover a portion or all of the wagers. If there is not enough money from the Player/Dealer position to cover all winning wagers, there will be no refund, free collection, or other form of rebate given to the affected players.

18. After all wagers are settled, the cards are collected and discarded. The bank button is changed and after every two hands, the Player/Dealer position is rotated in a clock-wise fashion around the table.

19. The next round of play begins once the casino dealer collects all cards from the table and places them in the discard tray. The casino dealer will also change the bank button, and if necessary (if the same person has already held the Player/Dealer position twice) rotate the Player/Dealer position clock-wise to the next position on the table. If there is no person that intervenes on the Player/Dealer's position, the game will be "broken" or stopped, as required by the California Penal Code.

GAME RULES

1. A "Natural 22" (the first two cards dealt are Jokers) is the best possible hand. If the player and the Player/Dealer's hands are both a "Natural 22", the hand is a push or tie, and no action is taken on the wager.

2. The second best hand is a Joker (wild card) with any other card.
3. If a player's total is less than a "Natural 22" and the Player/Dealer's total is more than a "Natural 22", the player wins the hand.
4. If a player's total is less than a "Natural 22" and the Player/Dealer's hand is less than a "Natural 22", the hand closest to a "Natural 22" wins.
5. If a player and the Player/Dealer have the same total and it is less than a "Natural 22, the hand is a push or tie, and no action is taken on the wager.
6. If a player's and the Player/Dealer's totals are more than a "Natural 22", the following will apply:
 - A) If the Player/Dealer is closer to a "Natural 22", the Player/Dealer wins the hand.
 - B) If the player is closer to a "Natural 22", the result is a push or tie and no action is taken on the wager.
8. The Player/Dealer wins all ties or pushes over a "Natural 22".
9. If a player has more than a "Natural 22" and the Player/Dealer has less than a "Natural 22", the Player/Dealer wins. The player would win if they had less than a "Natural 22" and the Player/Dealer had more than a "Natural 22".
10. If the Player/Dealer's first up card is a Joker, all hands are frozen on the table. The Player/Dealer will draw the next card and the action button will be placed. Winning and losing wagers will be determined and pay-offs made.
11. No player may double-down, surrender, or split when the Player/Dealer is dealt a Joker as their first up card.
12. If the Player/Dealer's first up card is not a Joker, the casino dealer will draw as many card as needed (after all player's have made their hands) up to the a Hard 17 or higher.
13. Players with a non-Joker hand have the option to draw additional cards to make their best hand.
14. A Joker with any card is a hard 21 and a player cannot draw an additional card.

15. The game is played on an industry standard Blackjack table where up to eight primary players can be seated.
16. All collection fees are collected by the casino dealer prior to the start of play. Collection fees are pre-determined by the casino and can be up to three separate rates per game. All collection rates and wagering limits for the game will be posted at each gaming table and will not be based on a percentage or other factors.
17. Backline betting is allowed; subject to local ordinance or code.
18. Third Party Providers of Proposition Player Services, as defined in Section 19984 of the California Business and Professions Code (the Gambling Control Act), are permitted to play.

No Bust – 21st Century Blackjack

DOUBLE-DOWN, SPLIT, SURRENDER & ODDS

Players can double-down on their first two cards dealt to them. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game. The player will only receive one card regardless of the total.

Players can split any pair or two cards with a value of 10 each, originally dealt to them. The exception is two Aces. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game. A player may draw as many cards as the desire per split card to make the best hand.

Players can split any two Aces originally dealt to them but can only receive one extra card per Ace. The player must place a second wager equal to the wager he/she originally placed prior to the start of the game.

Multiple splitting of cards is permitted up to a maximum of three (3) splits per hand.

Players can surrender after their first two cards are dealt to them. If they choose to surrender, half of their wager will be forfeited. The player must indicate they wish to surrender before the Player/Dealer's second card is dealt. Their (the player's) play for that hand will cease.

Players cannot double-down, split, or surrender when the Player/Dealer's first card dealt is a Joker.

There is no extra collection fee taken by the casino on any double-down or split executed by a player, nor is there any extra collection fee charged to the Player/Dealer.

Player's Joker-Joker or "Natural 22" pays 2 to 1. All other hands pay 1 to 1.

All pay-offs are to the extent that the Player/Dealer's money covers the action on the table. A Player/Dealer cannot win or lose more than the entire amount of money placed on the table prior to the start of the hand.

DESCRIPTION

Asian Stud Poker is played with a 32-card deck, that is, a standard 52-card deck with the Twos, Threes, Fours, Fives, and Sixes removed, and without Jacks. It is played similar to Five-Card Stud Poker, one of the oldest forms of Poker; however because of the missing cards two significant variations apply, at the discretion of the Casino's House Rules.

These differences are:

1. An Ace can be used as a Six or after a King when forming a Straight, and
2. A Flush is of higher ranking than a Full House.

Other than these variations, traditional Poker hand rankings apply. Asian Stud is played as a High only game.

METHOD OF PLAY

- Players ante or post blinds according to House policy, the size of which is determined by the limit of the game being played
- Players are each dealt two cards, in-turn, one at a time. One up and one down. (Second Street).

4. After the first two cards have been dealt (Second Street), the player with the first "highest" exposed card is forced to make an opening bet, the size of which is determined by the limits being played. This is a live bet, with the option to raise. High hand initiates action on subsequent rounds.
5. An exposed card is one, which is dealt face-up. If a player exposes a card, it is not considered an "exposed" card and will play as is.
6. Check and raise is permitted.
7. Starting with Third Street, the Dealer will "burn" a card before dealing the Third, Fourth, and Fifth card to the active players.
8. English only will be spoken while a hand is in play.

OMAHA HI/LO SPLIT (8 QUALIFIER) POKER

Omaha Hi/Lo Split (8 Qualifier) Poker uses a standard 52-card deck, generally without the Joker. At showdown time, the Low hand, the best Low hand, providing it is an "Eight-Or-Better", will split the pot with the best High hand. Should there be no player holding an "Eight-Or-Better to qualify", the entire pot is awarded to the best-exposed High hand. As in Omaha Poker, players must use two of their four personal cards along with three of the common five to form traditional Poker hand, High and/or Low. They may use a different set of two cards to form each hand.

LOBALL POKER

Contents:

- Description**
- Method of Play**
- Rules**

DESCRIPTION

LoBall poker is a Draw Poker game played with the standard 52-card deck and one Joker added, making 53.

The object is to make the best hand among completing players. The main difference in LoBall Poker is that the traditional ranking of Poker hands is reversed, that is the lowest combination of cards exposed at the showdown between active players is the winner.

METHOD OF PLAY

- Typically, the first two or three players post “blinds”, which is a portion of the opening bet. The purpose of the blinds is similar to antes in other forms of Poker, in that they represent seed money to attract prospective contenders for the pot. The size of the blinds is determined by the limit of the game being played.
- Players are each dealt five cards, one at a time, in rotation, in turn.
- A round of betting ensues for players who wish to continue and contend for the pot.
- Active players may elect to discard any number of their original cards if they choose and have a like number replaced in an effort to improve their final hand.
- At the option of the active player, there may be another round of betting. Players posting any additional bets, if made remain active for the final showdown.
- Active players now expose their cards. The best hand (in reverse standard order) is declared the winner.

LOBALL GENERAL RULES

1. It is the player's responsibility to protect his hand at all times. Dealers will assist in reading hands to the best of their ability, although it is the player's responsibility to protect his or her hand at all time. Dealers will assist in reading hands to the best of their ability, although it is the player's responsibility to protect his or her hand at all times. The dealer will assume that any unprotected, abandoned, or discarded hands are dead or have been folded. Neither the House nor the Dealer can be held accountable of the player's failure to protect his hand. At Management's discretion, a hand may be considered retrievable.
2. Before the draw, the first player to act is the player to the left of the big blind. After the draw, it is the player to left of the Dealer button.
3. Initial buy-in for games through 20 limit is five times the minimum bet. Initial buy-in for 30 limit and above is ten times the minimum bet, however after the initial buy-in, subsequent buy-ins will be five times the minimum bet. Thereafter, only one bet of the lesser amount (short-buy) is allowed. Add-on buys, which bring you up to the minimum buy-in, will not be considered a short-buy.
4. The "limit" of the game indicates the amount of each bet. There is no restriction on the number of bets or raises, except as imposed by table stakes rules.
5. Any new game employing a Dealer-button will have the button positioned for the initial deal based on a random draw-low card receiving the button among the players in the new game, after the deck has been shuffled and spread face-down on the table by the Dealer. If two or more players draw the same Low card, the deal will be determined by suit rank: Clubs, Diamonds, Hearts, and Spades.

DEALING RULES

1. Five cards constitute a playing hand. More or less than five cards after the draw is a foul hand. Before the draw, if a player is dealt more cards than is called for and it is discovered before he acts on his hand, the extra card will be retrieved and placed on the top of the deck as the burn card. The player receiving less than the required number of cards will receive a card(s) from the top of the deck. Any player whose hand is fouled will forfeit all moneys, antes, and blinds for that hand.
2. Before dealing the draw, the top card from the stub of the deck must be discarded (burned). A player can draw up to five cards.
3. Until the first action after the draw is taken, the Dealer must correctly state the number of cards drawn by the players
4. A card placed face-up in the deck (boxed card) is dead and is dealt into the discards. A boxed card is replaced by the next card below it in the deck.
5. Before the draw, an exposed card of five and under must be taken. After the draw, exposed cards cannot be taken. Player must accept a substitute card for an exposed card in order to act in-turn. To replace an exposed card on the deal, the Dealer will exchange the exposed card with the top card on the deck and place the exposed card face-up on top of the deck to act as the burn card. To replace a card exposed on the draw, the Dealer will complete the draw and replace the card from the top of the deck

RULES OF PLAY

1. A knock in turn usually constitutes a “pass”, but a knock on the table may also mean the declaration of a pat hand. A player indicating a pat hand, not knowing the pot has been raised may still play his hand, despite action taking place behind him.
2. A player who posts a regular sized blind may only put up the amount required by the structure of a particular game. Oversize blinds are prohibited.
3. When a new player enters a game he must wait for the big blind or “kill” the pot.
4. A player transferred by the House from a broken game, or game where the limit was changed, is dealt in immediately and does not have to post any money in order to receive a hand. If the player allows the blinds to pass, he will be considered a new player and will not be entitled to any fee hands.
5. Players entering a new game are entitled to a free hand(s), if the blind has not passed that position on the initial round.
6. A player who allows substantial action to occur behind him risks forfeiting his right to initiate action on his hand and in certain circumstances may have his hand nullified.

RULES OF PLAY-BLINDS

1. All blinds will be arranged in clockwise order from the button. A player should pass through all the blind positions each round. Players departing the game and creating open seats may force the Dealer button to skip ahead and in-turn, save a player at the table a blind position on any given round. Players in games where the seat rental fee is collected on the half hour are responsible for putting in the total amount of the blinds each round even though the big blind may skip ahead.
2. An established player who misses all or part of the blind(s) will be given a “missed blind” button. To receive a hand when he returns, a player with a missed blind button must do the following: a) wait and come in on his big blind; b) “kill” the pot. A player who makes up his blind is still required to take the blind in normal rotation.
3. An established player who misses all or part of his blinds on a round can make them up by “killing” the pot. A “kill” is always twice the size of the big blind. The rules governing “kills” are as follows a) only one “kill” is permitted on a deal. (However, if the Dealer breaks the House rule and allows an additional player to “kill” and substantial action takes place, the “kill” bet must stand). b) A specific “kill” is set for each game. A “kill” of larger size than regulation is not permitted.
4. An established player who misses any part of the blind or the Dealer position (button) in any game with a per hand time charge can receive a hand by waiting for the big blind or posting a “kill” in addition to the per and collection free. For

example: In a 4 limit game a player will be required to post \$6, the total of the blinds in addition to the per hand collection fee. The amount over and above the total for the blinds will be treated as "dead money".

5. Any player "taking it in the middle" in LoBall will post a "kill" blind. The Dealer button will skip over him on the next hand without any further obligation. In a game with a per hand time collection, an established player will be required to post the amount of the "kill" in addition to the per hand collection fee.
6. Any player who chooses to forego the Dealer position "button" in any game with a "drop" will be issued a missed blind button.
7. A player who moves to a new seat and in the process moves away from the big blind must wait out the appropriate number of hands or "kill" the pot. This rule prevents a player from continually changing seats to unfairly get several extra hands before taking a blind.
8. A player who has fulfilled all his blind obligations by taking all required blinds, then immediately moves to a new seat, has the option of letting the blinds pas by one time without penalty. He has not unfairly received any hand because his relative position to the blinds has not improved.
9. A player, who needs to make up a blind and looks at any of his cards before posting the blind money has a dead hand, provided the error is caught before the player acts on his hand. If he acts before the mistake is caught, the hand is live and may be played, and the player makes up the blind on a subsequent deal.
10. If a big blind is less than a required amount because that player is all-in, all subsequent betting action is taken as if the full amount had been posted and the blind plays short. If the player who was short wins the pot or buys chips the next hand, he is not required to make up the short.

BETTING RULES

1. Only a full bet constitutes a bet or a raise. Anything less than a full bet is considered to be action only. After the pot has been opened and the player has gone all in for an amount less than a full bet or raise, the next player can call the equivalent amount or put in an amount equal to a full bet or raise. For example: in a \$20 limit game, the first player bets \$20. The next player calls the \$20 bet and goes all-in for an additional \$5. The next player may call the initial bet and all-in wager by placing \$25 in the pot or he may raise the initial bet by placing \$40 in the pot.
2. String bets or raises are not allowed. A player must put in an amount at least equal to one half a bet to be allowed to return to his stack to complete the bet or raise. A verbal declaration, i.e. I bet, I raise, before action is started, clarifies the action and allows the player to return to his stack to fulfill his bet or raise
3. Check and raise is permitted.
4. Anyone who checks out of turn may not initiate any action.
5. A player who puts a single chip into the pot that is larger than the bet to him is assured to have called the bet, unless he announces, "raise".

SHOWDOWN RULES

1. **CARDS SPEAK.** Winning hand must show all cards prior to pot being awarded. Cards read for themselves. The player instituting the action (either by betting or checking) must turn his hand over first upon completion of all action and best hand wins.
2. Although verbal declarations with regard to the content of a player's hand are no longer binding, a player miscalling a hand and causing another player to discard their hand may, at the discretion of Management, risk forfeiting the pot and further disciplinary action.
3. If a bet has been made and called or Check-and-Check after the draw, any player may see any of the hands in play at the showdown.
4. If a "seven" or better is passed and is the best hand, all bets after the draw are returned.
5. The winning hand must show all cards face-up on the table prior to the pot being awarded unless all other active hands have been discarded and only one intact hand remains.
6. No pot may be awarded until all losing hands have been killed. The winning hand should remain face-up until the pot is awarded.

PANGUINGUE

1. PANGUINGUE (pan-ginn'-gay), popularly known as "PAN" has been played in California since the early 1900s. The following are simple-to-understand rules.
2. The Object of the Game is to have combinations of three or more cards in sets or runs (known as melds) laid on the table in front of you using eleven cards. The first player doing so is the winner and receives chips from other players that still have chips and cards remaining in their hands. The winner of the hand will win chips from the other players in different ways that will be described below
3. Number of Players: At Casino Real two to seven players may play.
4. The Deck: Eight decks of regular playing cards are used to play the game; 8's, 9's, 10's and the Jokers are omitted leaving a total 320 cards. (Sometimes a set of spades is deleted from the deck.)
5. Cards in each suit rank as follows: King being the highest. Queen, Jack, 7, 6, 5, 4, 3, 2, Ace. The Jack and the seven can be used in sequence. There is no rank of suits except that spades pay double.
6. The Deal: The dealer will shuffle and cut the cards before each deal. Players are dealt 10 cards, five at a time in a counter-clockwise direction. The dealer will start with: (a) the player who is dealt the lowest card face up at the beginning of a new game. (b) The winner of the last hand. (c) The player to the right of the seat where the last hand was won when the winner elects to change seats, leaves the game or passes.
7. The Draw: Once the player has touched the deck to draw, holding the wrong number of cards fouls his hand.
8. The draw should not begin until all players have declared. The first player to draw is the declared winner of the previous hand, or, if he is out, the first player to his right.
9. Each drawn card will be displayed face up. All players in action have the right to see all drawn cards. Pan rules forbid a player from putting the option card or draw card in his hand. Putting a card in the hand makes it foul. The player would have to return all pay he has collected and continue to pay the other players all earned pay for the remainder of the hand.
10. A drawn card is discarded when it is released toward the dealer.

11. Once a player has touched the deck, he may not change his mind and use the option card. He has lost his right to the option card unless another player forces it on him.
12. A player overlooking or ignoring an option card which can be used in one of his board melds and touching the deck to draw, may, by choice of any player in action, be forced to either use the option card or to continue the draw. The exception to this is the player who drew and discarded the option card without forcing it; he may not subsequently decide to force it.
13. If the rotation of the draw becomes confused, the dealer will attempt to reconstruct the proper order whenever possible. When unable to do so, the dealer will follow these guidelines: (a) Once three or more players have, for whatever reason, drawn out of order, the draw stands and continues from there; (b) Once three or more players have drawn out of turn, cards used and pay collected as a direct or indirect result of their plays out of turn will stand so long as the meld is valid; (c) When the draw can be reconstructed, such efforts will be made for the benefit of players who have not drawn.
14. The Play: Each player draws one card from the top of the deck or uses the option card. If the player takes the top card off the deck, he must use it immediately in a meld or discard it.
15. After drawing and before discarding, the player may meld as many sets or runs as he holds or may add to his existing melds.
16. Set: Three cards or more of the same rank but all of different suits would be considered a meld. Three or more cards of the same rank, all being the same suit, also would be considered a meld. The only exception would be three Aces or three Kings. Regardless of suit, they would also be considered a meld. Aces and Kings are commonly called non-comoquers.
17. Forcing Cards: if the option card can be added to a meld of the player to whom it is available, any other player may, if he desires to, require the player to take that card. The purpose in forcing this draw on the player is to compel him to make a discard, thereby possibly breaking up a prospective combination in the cards he holds.
18. A player may not give the out card to another player with ten (1-) cards melded on the board if the card can be used in the first player's hand. Any player in action has the right to see the first hand and to force back the card if it can be used in any way.
19. A player may not be forced to take an out card unless that card would put the next player out for a greater amount of pay.

20. Any player in action may choose to end the hand for lower pay by forcing the out card.
21. Foul Hands: A foul is a hand successfully called foul by a player in action as a result of one or more violations of rules.
22. Irregularities: If, before the player has made his draw, he finds he has nine cards, the dealer will deal the player an additional card. If the player has eleven cards, the dealer withdraws the excess card from the player's hand, putting it among the discarded hands of passing players. If the player has been dealt less than eight cards or more than eleven cards, the hand is dead and the player's passing ante will be returned.
23. If a player's hand is found incorrect after he has made his first draw, he must discard his hand, retire from that deal and return all collections he made for conditions. In addition he must continue to make due payments to others for their winnings.
24. Going Out: When a player shows eleven cards in melds, he collects two chips from every player. A player also collects for each valid condition.
25. When a player has all ten cards spread, the player at his left may not discard an option card, if he can possibly use it that puts the opponent to his right out.
26. Incorrect Meld: If a player lays down any spread not conforming to the rules, he must make it valid on demand. If he cannot do so, he must return any collections made for the improper spread and legally proceed with the turn. If he has already discarded, he must return all collections made on that hand, discard the hand, and retire from play until the next deal, but must continue to make payments to others for conditions and winnings. However, if the player makes the meld valid before attention is called to it, there is no penalty.
27. Pays and Collections: All collections must be called for before discarding. A player who neglects to do so may not ask for the pay until his hand is hit again.
28. The same amount of pay must be collected from each player in action. A player may ask for short pay, but all players will pay the same amount.
29. A player penalized for a foul hand is required to repay all chips collected during the hand, but he does not have to repay any opponent who has gone broke and/or previously fouled his hand.
30. On the outs, a player having to collect and then cut off a collection must be specific in his statement or action. Simply stating "out on a good one" is not sufficient.

31. A player may ask the dealer for help in calculating the value of a collection or of the outs.
32. No pot may be awarded until all losing hands have been killed. The winning hand should remain face up until the pot is awarded.
33. Dealer Enforcement: Pan rules are usually enforced only at the specific request of a player in action. The House cannot always intervene on behalf of an injured player unless he promptly calls the problem to the dealer's attention. Players must protect their hands and enforce their rights according to the rules.
34. The dealer may not assist or advise players except to calculate the value of collections or of the outs when any active player asks. The out must be read as the hand lies.
35. The dealer will intervene when unearned pay is requested.
36. The dealer will enforce payment of all earned collections. The outs will be paid in front of each player's position (no splashing).
37. The dealer will foul a player's hand at the request of another player in action when justified by the rules.
38. General: The minimum buy-in is twenty (20) chips of equal value for the condition of the game.
39. There is to be no playing for Tops. A player without one chip of the appropriate value has a dead hand and may not continue playing for Tops.
40. A player who causes a game to break up by leaving the table or refusing to play will lose his place on the change board, and his name will be put at the bottom of the waiting list.
41. On the deal, foreign cards (8's, 9's, 10's, Joker) appearing in a player's hand will be replaced from the center. On the draw, the foreign card will be removed and the player will draw again.
42. Each player is responsible for counting the cards before picking them up. If a player discovers he has the wrong number of cards after the player touched the deck to draw, his hand is foul and he must return all pay he has collected and pay for the remainder of the hand.
43. The Floor person's decision is final in all disputes and in the interpretation of all rules.

Casino Real Cardroom

TAHOE HI/LOW SPLIT PINEAPPLE POKER

In Lazy Pineapple each player receives three cards down as their initial hand. There is a round of betting after these cards have been dealt. Three board-cards are turned simultaneously (which is called "The flop") and another round of betting occurs. The next two cards are turned one at a time with a round of betting after each one. These board-cards are community cards and after the final round of betting has been completed a player may use any combination of five cards (one in their hand, four from the board, etc) to determine their best hand, a player may use all of the board cards which is termed playing the board. In order to have a low hand there must be at least three cards which are eight or lower on the board. A player may use one-two- or no cards in his hand for low or high. A player may use one card to high and one card for low if board permits, A player may use only 0,1, or 2 of his pocket cards for low or high and the board for high or low or visa-versa.

Lazy Pineapple uses a flat disc called a dealer button to indicate the player who in theory dealt the cards for the pot. The button (player with the dealer button) is last to receive cards on the initial deal and has the right of last action on all betting rounds except the first. One or more blind bets are used to stimulate action and initiate play. Blinds count as part of that player's bet.

Blinds are posted by players who sit in consecutive clockwise order from the button. Action initiated on the first betting round by the player on the immediate left of the person who posted the furthest blind clockwise from the button. On all subsequent betting rounds the action is begun by the first active player clockwise from the button.

1. CARDS SPEAK. Winning hand must show all cards prior to pot being awarded. Cards read for themselves. Dealer will assist in reading hands to the best of their ability, although it is the player's responsibility to protect his or her hand at all times. The player instituting the action, (either by betting or checking) must turn their hand over first upon completion of all action and best hand wins.

Although verbal declarations with regard to the content of a players hand are no longer binding a player miscalling a hand with intent to cause another play to discard their hand may, at the discretion of management, risk forfeiting the pot and/or expulsion from the club,

2. Checks and raises are permitted.
3. A bet and three raises are allowed.
4. No limit of raises with only two players remaining.
5. String bets or raises are not allowed. A player must put in the full amount of monies at one time or announce his action.
6. No pot may be awarded until all losing hands have been killed. The winning hand should remain face up until the pot is awarded.
7. A card placed face up in the deck (boxed card) shall be treated as a scrap of paper. A Joker when playing in game that does not use a Joker, is also a scrap of paper. A card being treated as a scrap of paper is replaced by the next card below it in the deck, except when it is dealt to a player as a down card. In this situation, it will be replaced after the round of cards has been dealt. If a player does not call attention to the Joker among his live cards before acting on his hand, then he has a foul and forfeits all rights to the pot and all monies involved.
8. If a player's hole card is exposed due to a dealer error, he may not keep the exposed card. After completing the deal, the dealer will exchange the exposed card with the top card on the deck and place the exposed card face up on the top of the deck. The exposed card will be used as the burn card after all action, before the flop is completed. If two or more cards are exposed on the deal, it is a misdeal.
9. If a player is dealt more or less cards than the game he is playing in calls for, and it is discovered before two (2) players act on their hands, it is a misdeal. If it is discovered after two (2) players have acted, all monies ante and blinds are forfeited by the player.
10. If the flop has too many cards, it will be taken back and reshuffled except the burn card which will remain burned. No new burn card will be used.
11. If cards are flopped by dealer before all betting is complete; the entire flop is taken back and reshuffled.

5. Backline betting is not permitted on any wagers.

Dealing procedures:

1. Immediately prior to the commencement of play and after each round of play has been completed, the house dealer shall shuffle the cards by use of a shuffle machine so that the cards are randomly intermixed. Upon completion of the shuffle, the device shall dispense cards in stacks of three.
2. The house dealer shall wait for each player to place their Ante wagers as well as any bonus wagers. After each player has had the opportunity to place his/her bonus wager, the house dealer will announce, "no more bets."
 - a. The house dealer shall deliver the first stack of cards dealt by the shuffler to the player to the left of the player-dealer position. As the remaining stacks are dispensed by the shuffler, the house dealer shall deliver a stack in turn to each of the other players, including the player-dealer, moving clockwise around the table. The house dealer shall deliver each stack face-down. The stack given to the player-dealer shall be delivered face-down after which the bottom card will be turned face-up.
3. After the stacks have been delivered to each player and the player-dealer, the house dealer shall unload the remaining cards in the shuffler and place them into the discard rack without exposing the cards.

Round of Play

1. After the dealing procedures above have been completed, each player shall examine his/ her cards.
2. Each player who wagers in Three Card Poker shall be responsible for his/ her own hand and no person other than the player or the house dealer may touch the cards of that player. Each player shall be required to keep his/ her three cards in full view of the house dealer at all times.
3. After examination of the cards, each player who has placed an Ante wager shall have the option to either make a Play wager in an amount **equal** to the player's Ante wager or forfeit the Ante wager and end his or her participation in the round of play. The house dealer shall offer this option to each player, starting with the player to the left of the player-dealer and moving clockwise around the table in order.
 - a. If a player has placed a Pair Plus wager, but does not make a Play wager, the player shall forfeit the wager, as well as, the Ante wager.
4. After each player has either placed a wager on the table in the Play wager area or forfeited his/ her wager and hand, the house dealer shall collect all forfeited wagers and associated cards, placing them in the discard rack.

5. The house dealer shall then reveal the remaining player-dealer's cards and place the cards so as to form the highest possible ranking hand. The player-dealer must qualify to play with a **minimum of queen-high**.
 - a. If the player-dealer does NOT qualify, the Play wager receives no action. The house dealer shall immediately refund these wagers to players.
 - b. If the player-dealer's hand did NOT qualify, the Ante wager receives action. If the player did not fold and their hand ranks higher than the player-dealer's hand, the player shall be paid even money. If the player-dealer's hand ranks higher than the player's hand, the Ante wager shall lose and be collected by the player-dealer.
 - c. If the player-dealer's hand qualifies, the house dealer shall immediately stack each player's Play wager atop the Ante.
 - i. If the player's hand beats the player-dealer's hand, the player wins even money on the Ante and the Play wagers.
 - ii. If the player-dealer's hand beats the player's hand, the player loses both the Ante and the Play wagers.
 - d. If the player's hand and the player-dealer's hand are equal in rank and value, the hand is considered a tie and the Ante and Play wagers shall push and be returned to the player.
6. The house dealer shall then reveal the three card hand of each active player, starting with the player to the left of the player-dealer position.
7. All cards collected by the house dealer shall be picked up in order and placed in the discard rack in such a way that they can be readily arranged to reconstruct each hand in the event of a question or dispute.
8. The game utilizes an action button to determine which player receives first action on their wager. The player-dealer's third card, which is dealt face-up, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face down card. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen. Wagers shall be settled in the following order from player to player: Ante wager, then the Play wager, and then the Pair Plus wager.
9. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
10. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to

Buster Blackjack

PURE 21.5 BLACKJACK

OBJECT OF THE GAME

The object of Pure 21.5 Blackjack is for the players and the player-dealer to add the numerical value of their cards and:

- Achieve the best possible point total of 21.5 by getting a King, Queen, Jack, or Ten Bonus Card and an ace on the initial two cards dealt (Example King Bonus Card below). This hand pays 6 to 5.

- Get as close to 21.5 as possible, without going over.
- Draw additional cards if needed.

VALUE OF THE CARDS

The game uses a modified 52-card deck with aces through nines (the standard spades, hearts, clubs and diamonds) and 16 Bonus cards (four of each "king", "queen", "jack", and "ten" card). The game is played with a minimum of six decks to a maximum of eight decks.

- A King, Queen, Jack or Ten Bonus card and an Ace, on the initial deal, is the best possible hand. It is known as a "Pure 21.5 Blackjack" and pays 6 to 5.
- A King, Queen, Jack, or Ten Bonus card dealt with any other card is worth 10 and is added to the other card(s) point total.
- An ace has a value of either 1 or 11.
- All cards from 2-9 have their face value.
- King, Queen, Jack, or Ten Bonus cards have a value of 10 unless dealt with an Ace on the initial deal, and then they have a value of 10.5.

Ranking Chart	
Card	Value

ROUND OF PLAY

1. Pure 21.5 Blackjack is played on a raised gaming table. The table seats eight players who face the house dealer in a 180-degree seating arrangement. The tables are the standard blackjack tables commonly used in the casino industry. The house dealer stands opposite the players, and in the center of the table. The house dealer's chip tray is set in front of the dealer.
2. All tables will have some type of signage where the name of the game is displayed, along with the minimum and maximum wager allowed. The collection fee for the players and player-dealer will also be displayed. A maximum of five collection rates is allowed in compliance with the California Penal Code.

PURE 21.5 BLACKJACK

3. A standard round of play begins when a player-dealer is designated. The player-dealer will place a wager in a betting circle in front of their seat. That wager will be used to pay the winners and will set the amount that he/she can collect for the losers. The casino will place a button in front of the player-dealer, which designates that they are taking the "bank" position and further designates whether it is the first or second turn for the player-dealer in the banking position. The player-dealer will place the appropriate collection fee in front of his/her betting circle.
4. Players at a table then place their wagers in designated betting circles. The players may place a wager at his/her seat along with other unoccupied betting circles. Each player must pay the appropriate collection fee based on the posted schedule for the cardroom. Prior to the start of play the house dealer will take collection fees and drop them into a locked collection box affixed to the gaming table.
5. After the fees have been collected, the house dealer will deal the cards to the players and the player-dealer. All cards dealt throughout the game are face up, with the exception of the player-dealer's second card, which will remain face-down until all players have acted on their hands. The house dealer is the only person on the table allowed to touch the cards. The players will signal the dealer with hand gestures that indicate whether they wish to hit or stand. The hand signals will be consistent with the industry standard signals of a sweeping motion towards a player's body, indicating a hit, or a side to side hand motion, indicating the desire to stand. The house dealer deals the first card to the player seated to the left of the player-dealer, and continues in a clock-wise manner. Each player will be dealt one card face up with the player-dealer receiving the last card. The player-dealer's cards will be placed in front of the house dealer.
6. The house dealer will deal a second card to the players in the same order noted above and the last card will go to the player-dealer and will be dealt face down. The players are given an opportunity, starting with the player seated to the left of the player-dealer, to be dealt additional cards to make the best possible hand. (Rules and procedures for splitting, doubling down and surrender will be outlined later).
7. Players must follow the below listed **Chart 1A** in deciding whether to hit or stand on a particular hand.
8. After all players have acted on their hands and indicated to the house dealer that they do not want or cannot receive additional cards, the player-dealer's down card will be turned up. This down card will determine where the "action button" is placed.
9. The game utilizes an action button to determine which player receives first action on their wager. The player-dealer's second card, which is dealt face-down, determines the position of the action button. The player-dealer position is not counted when determining where the action button shall be placed. The other seats, in clockwise rotation, starting with the player to the left of the house dealer and continuing left to right, respectively represent the numbers of the player-dealer's face down card. When determining where the action button will be placed, cards will hold the following values: Ace is one, 2 through 9 have their face value, jack is eleven, queen is twelve, and king is thirteen.
10. The player-dealer's hand will then be completed according to the rules listed on **Chart 1B**. Once the player-dealer's hand is completed, the payoff and/or collection of wagers will begin in the seat designated by the action button and continue in a clockwise manner until all wagers have been acted on.
11. Player-dealers are never required to cover all opposing players' wagers. Payoffs of wagers are limited to the amount of the player-dealer wager. The house shall not participate as the player-dealer. The house shall not take a percentage of wagers placed in the game. There is no maximum on the player-dealer's wager.
12. The player-dealer's cards will always be dealt and placed in front of the house dealer's tray. The placement of the player-dealer's cards is standard in all games and is depicted below. See **Diagram #1**

PURE 21.5 BLACKJACK

13. The next round of play begins when the house dealer collects all the cards from the table and places them in the discard tray. The player-dealer position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. The player-dealer shall collect all losing wagers, pay all winning wagers, and may not win or lose more than the original amount wagered. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

Insurance wagers may be equal to no more than ½ of a player's original wager.

BUSTER BLACKJACK BONUS BET

Wagers will be settled in the following order from player to player: the Ante wager, then the Play wager, then the Pair Plus wager (if placed), and then the 6 Card Bonus wager (if placed). Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Dealing Procedures and Round of Play

At the start of a game a player is offered the player-dealer position. Once accomplished, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player has the following options when placing their wager(s):

- The player line which pays 1 to 1;
- The banker line which pays 1 to 1;
- The Tie Bet, which pays **9 to 1**;
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Dragon 7 Bonus Bet, which pays 40 to 1.
- If a player placed a wager on either the player line or the banker line, that player may place a wager on the Panda 8, which pays 25 to 1.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a bet on the banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a bet on the player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player's hand stands, then the dealer hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

Banker's Score	Player's Third Card									
	0	1	2	3	4	5	6	7	8	9
7	S	S	S	S	S	S	S	S	S	S
6	S	S	S	S	S	S	H	H	S	S
5	S	S	S	S	H	H	H	H	S	S
4	S	S	H	H	H	H	H	H	S	S

1	H	H	H	H	H	H	H	H	H	H
0	H	H	H	H	H	H	H	H	H	H

The house dealer must use the "house way" when a player requests the house dealer to play an additional wager. House way hands shall be set as follows: player hand hits on five or below and stands on six or more

Dealing procedures:

- ❖ The casino dealer will complete the deal of seven piles of seven cards face down in front of the casino dealer. When dealing the seven piles of seven cards, the casino dealer shall deal one card at a time to in front of them until there are seven cards, starting from left to right. Once there are seven cards laid out, the casino dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed in the discard pile.
- ❖ Once the cards have been stacked, the player-dealer randomly selects which pile will be distributed to the first player who receives the “Action” button. The casino dealer identifies the hand by placing a button marked "Action" on this pile by pushing it forward and turning the pile behind it side ways.
- ❖ To determine the placement of the “Action” button, the player-dealer shakes a Dice Cup containing three standard dice. The sum of the dice indicates to which seat the first pile of seven cards will be distributed. The player-dealer’s position is always one, eight, and fifteen. Other seats, in clockwise rotation, respectively represent the other numbers. If the numerical total of the dice are one, eight, or fifteen, the player-dealer shall receive the first set of cards and the player to the left of the player-dealer shall receive the “Action” button. Wagers shall be settled in a clockwise manner around the table, starting with the player

with the “Action” button. Furthermore, all wagers shall be settled from seat to seat in the following order: the Fortune Pai Gow Poker game wager, then the Fortune Bonus Bet wager, and then the Envy Bonus. Once the player-dealer’s wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players.

- ❖ Once the “Action” button position is determined, the casino dealer shall distribute the seven piles of cards, starting with the pile that has the “Action” button and continuing clockwise around the table. All seven piles of cards will be distributed to all seats at the table, regardless of whether a player is seated at each position or a wager has been placed. Once all of the piles of cards have been distributed, the casino dealer will collect the cards distributed to seats without a wager and place them in the discard pile.

The five card hand must rank higher than the two card hand, according to the ranking of hands, as shown above.

- ❖ Once the player-dealer's hands are set according to the "House Way," each player's hand is exposed, in turn, and compared to the player-dealer's hands to determine the winners, losers, or tie hands.
- ❖ Each player's five card hand will be compared to the player-dealer's five card hand, and each player's two card hand will be compared to the player-dealer's two card hand, in turn, starting with the "Action" button, to determine the winner according to the following criteria:
 - a. The Fortune Pai Gow Poker game wager wins if the two card hand and the five card hand held by the player ranks higher than the player-dealer's two card hand and the five card hand. Winning Fortune Pai Gow Poker game wagers are paid 1 to 1.
 - b. The Fortune Pai Gow Poker game wager loses if the two card hand and the five card hand held by the player ranks lower than the player-dealer's two card hand and the five card hand.
 - c. The Fortune Pai Gow Poker game wager "pushes" if one of the hands held by the player ranks higher than the player-dealer's corresponding hand, and the player's other hand ranks lower than the player-dealer's corresponding hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a "push" and is returned to the player.
 - d. If one hand is identical in rank to the player-dealer's hand, it is a "copy hand." The player-dealer wins all "copy hands."
- ❖ Once the standard Pai Gow Poker wagers are settled (win, lose, tie/push) the casino dealer will determine if the player's hand qualifies for the Fortune Bonus Bet and/or the Envy Bonus.
- ❖ The Fortune Bonus bet considers the best hand possible among the player's seven cards.
- ❖ If the player's hand qualifies for payouts, the player is paid according to the posted pay table.

- The casino dealer leaves the “Envy” button, if applicable, next to the player’s original wager and payouts. The casino dealer will not pick up “Envy” buttons until all wagers are reconciled.
- ❖ If the player’s hand does not qualify for payouts, the player-dealer collects the Fortune Bonus Bet wager.
 - The casino dealer leaves the “Envy” button, if applicable, next to the player’s Fortune Pai Gow Poker game wager and payouts. The casino dealer will not pick up “Envy” buttons until all wagers are reconciled.
- ❖ The player-dealer pays any Envy Bonuses at the end of the round.
 - If at least one player has a Four of a Kind or higher, all players with “Envy” buttons win (see pay table).

 - A player cannot win an Envy Bonus for their own hand or for the player-dealer’s hand.
- ❖ The player-dealer collects all losing Fortune Bonus Bet wagers and pays all winning Fortune Bonus Bet wagers.
- ❖ The cards are collected, shuffled, and a new round begins.
- ❖ The Player-dealer position rotates in a systematic and continuous way among the seated players, and no one player may serve as the player-dealer for more than two consecutive hands. The player-dealer position rotates clockwise around the table.

Natural 8	A two card hand that has a value of eight. A Natural 8 shall only be achieved when the first two cards dealt to a hand is valued at eight, according to the rules above.
Nine or Eight	A three card hand that has a value of nine or eight.
Seven through Zero	A two or three card hand that has a value of seven, six, five, four, three, two, one or zero.

Description of Table Used and Total Number of Seated Positions

The game shall be played on either a standard blackjack table that accommodates up to seven players and a player-dealer position for a total of eight seated positions or a standard baccarat table that accommodates up to thirteen players and a player-dealer position for a total of fourteen seated positions. Within each betting area for each seated player, there shall be five separate betting spaces specifically designated for five separate wagers; the Player line, the Banker line, the Tie Bet, the Player Dragon Bonus Bet, and the Banker Dragon Bonus Bet. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum. Back-line betting is permitted on the Player line, Banker line, and Tie Bet.

Method used to Determine Action and Distribution of Cards

The game does not utilize an "action" button or any other marker to determine which player receives first action on their wager. Wagers shall be settled starting with the player to the left of the player-dealer and shall continue in a clockwise manner around the table until all wagers have received action to the extent of the player-dealer's wager. Wagers will be settled in the following order from player to player: all Player line wagers, then all Banker line wagers, then all Tie Bet wagers, then all Player Dragon Bonus Bet wagers, then all Banker Dragon Bonus Bet wagers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players.

Dealing Procedures and Round of Play

At the start of a game, a player is offered the player-dealer position. Once a player-dealer position has been established for that game, the house dealer shall wait for each player to make their wager in accordance with the table limits.

Each player then has the following option(s) when placing their wager(s):

- The Player line which pays 1 to 1;
- The Banker line which pays 1 to 1 on all wins except 6, which shall pay 1 to 2;
- Place a wager on the Tie Bet which pays 9 to 1;
- If a player placed a wager on the player line or the banker line, that player may place a wager on the Player Dragon Bonus Bet and/or the Banker Dragon Bonus Bet, which pays according to the appropriate pay table below.

Once all wagers are placed, the house dealer deals one card to the right and one card to the left, one by one in rotation, until each hand has a total of two cards each. All cards are dealt face-up. The hand to the left of the house dealer is a community hand that belongs to those that placed a wager on the Banker line. The hand to the right of the house dealer is a community hand that belongs to those that placed a wager on the Player line. The player's hand is resolved first and then the banker's hand is resolved. The hand that is closest to nine wins. After the house dealer delivers the first two cards to both the Player line and Banker line, the following Baccarat rules are followed.

- The player's hand must stand when the hand is valued at 6 through 9, and must hit when the hand is valued at 5 or less.
- If the player's hand stands, then the dealer hand hits on a total of 5 or less.
- If the player's hand hits for a complete hand then the banker's hand hits using the following rules:
 - If the banker's hand total is 3, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was an 8.
 - If the banker's hand total is 4, then the banker's hand is dealt a third card unless the third card dealt to the player's hand was a 0, 1, 8, or 9.
 - If the banker's hand total is 5, then the banker's hand is dealt a third card if the third card dealt to the player's hand was 4, 5, 6, or 7.
 - If the banker's hand total is 6, then the banker's hand is dealt a third card if the third card dealt to the player's hand was a 6 or 7.

The following chart shows when the banker hits (H) or stands (S) according to the rules above:

Banker's Score	Player's Third Card									
	0	1	2	3	4	5	6	7	8	9
7	S	S	S	S	S	S	S	S	S	S

How Wagers are Paid, Collected and Pushed

Once both hands have been completed, according to the guidelines above, the player's wagers are settled. The following shall apply for each possible outcome when determining the winner. The player-dealer shall pay and collect all wagers accordingly:

Commission-Free Baccarat Dragon Bonus

- The player-dealer shall pay all winning Player line wagers made by players when the player's hand is closer to nine than the banker's hand.
- The player-dealer shall pay all winning Banker line wagers made by players when the banker's hand is closer to nine than the player's hand. If the banker's hand wins with a total of six, the wager shall only receive half pay (1 to 2).
- The player-dealer shall collect all losing Player line wagers when the banker's hand is closer to nine than the player's hand.
- The player-dealer shall collect all losing Banker line wagers when the player's hand is closer to nine than the banker's hand.
- If the first two cards dealt to the player hand equal a natural, the banker hand shall not be allowed to draw any additional cards and the hands shall be settled as-is.
- If the first two cards dealt to the banker hand equal a natural, the player hand shall not be allowed to draw any additional cards and the hands shall be settled as-is.

Tie Bet

- For each seated position, there shall be one separate and specifically designated area for the placement of a Tie Bet wager. A player may place a Tie Bet wager even if he/she has not also placed either a Player line wager or a Banker line wager prior to the initial deal.
- The player-dealer shall pay all winning Tie Bet wagers when the total of the player's hand and the total of the banker's hand are equal.
- The player-dealer shall collect all losing Tie Bet wagers when the total of the player's hand and the total of the banker's hand are not equal.
- A wager placed on the Tie Bet must be within the posted table limits.
- The Tie Bet takes into account the total value of the player's hand and the banker's hand after each hand has been completed according to the rules above. In the event of a tie (0 - 9) between the player's hand and the banker's hand, the Tie Bet wager shall win. In the event that the player's hand and the banker's hand are different, the Tie Bet wager loses.
- Winning Tie Bet wagers shall be paid 9 to 1.
- Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.

Player Dragon Bonus Bet and Banker Dragon Bonus Bet

- For each seated position, there shall be two separate and specifically designated areas for the placement of two separate wagers; the Player Dragon Bonus Bet and the Banker Dragon Bonus Bet. A player may only place a Player Dragon Bonus Bet or a Banker Dragon Bonus Bet wager if they have also placed either a player line wager or a banker line wager prior to the initial deal.
- Regardless of what hand a player wagered on, a player may wager on the Player Dragon Bonus Bet, the Banker Dragon Bonus Bet, or both.
- The wager placed on the Player Dragon Bonus Bet and the Banker Dragon Bonus Bet must be within the posted table limits.
- The Player Dragon Bonus Bet wager takes into account the final value of the player's hand and the final value of the banker's hand. If a player wagers on the Player Dragon Bonus Bet and the player's hand beats the banker's hand by a spread of four points or greater, the Player Dragon Bonus Bet wager wins. Additionally, if the player's hand is a natural and the hand wins, the Player Dragon Bonus Bet wager shall win. If the player's hand beats the banker's hand by a spread of three points or less, loses to the banker's hand, or the player and the banker hands are of the same value (tie) but the hands are not naturals, the Player Dragon Bonus Bet wager shall lose. In the event that the player's hand and the banker's hand are of the same value (tie) and are natural hands, the Player Dragon Bonus Bet wager shall push.
- The Banker Dragon Bonus Bet takes into account the final value of the banker's hand and the final value of the player's hand. If a player wagers on the Banker Dragon Bonus Bet and the banker's

hand beats the player's hand by a spread of four points or greater, the Banker Dragon Bonus Bet wager wins. Additionally, if the banker's hand is a natural and the hand wins, the Banker Dragon Bonus Bet wager shall win. If the banker's hand beats the player's hand by a spread of three points or less, loses to the player's hand, or the banker and the player's hands are of the same value (tie) but the hands are not naturals, the Banker Dragon Bonus Bet wager shall lose. In the event that the banker's hand and the player's hand are of the same value (tie) and are natural hands, the Banker Dragon Bonus Bet wager shall push.

- The player-dealer shall pay all winning Player Dragon Bonus Bet and Banker Dragon Bonus Bet wagers and shall collect all losing Player Dragon Bonus Bet and Banker Dragon Bonus Bet wagers. Wagers are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the players.
- Winning Player Dragon Bonus Bet and Banker Dragon Bonus Bet wagers shall be paid according to the pay table, as shown below:

Mexican Poker

Type of Game

The players of Mexican Poker play against each other for “the pot” of money on the table. The game does not utilize a player-dealer position, it is a Poker game. The gambling enterprise does not participate in the actual play of the game and has no interest in the outcome of the play.

Object of the Game

The object of Mexican Poker is for the players to form a five-card poker hand that ranks higher than the other players' five-card poker hands, according to the rankings of hands shown below. Mexican Poker is a “stud poker” game that can be played in either “Limit” or “No Limit” form.

Description of the Deck and Number of Decks Used

The game shall be played using a modified deck of 41 cards. It is a standard deck of 52 cards with one joker and is stripped of 8s, 9s, and 10s. The cards are hand shuffled and the deck will be cut by the house dealer.

Card Values and Hand Rankings

The rank of each card used in Mexican Poker, in order of highest to lowest rank shall be: ace, king, queen, jack, 7, 6, 5, 4, 3, and 2. The ace may also be used as the lowest card in a low straight flush or straight (5, 4, 3, 2, ace). Each of the four suits shall be considered equal in rank during the play of the hand. The joker shall rank according to whether it is dealt face-up or face-down. If the player is dealt a joker card face-up during any round, then the joker card shall be considered as “partially wild” and may be used as an ace, or to complete a straight, a flush, or a straight flush. If the player is dealt a joker card face-down during any round, then it shall be considered as “wild” and may be used as any card needed. If the player who was dealt the joker card face-down later turns it up, the joker shall remain “wild”.

Description of Table Used and Total Number of Seated Positions

The game shall be played on a standard poker table, which shall accommodate up to seven seated positions for the players. Each seated position shall have the same minimum and maximum wagering limits during each betting round, as specified by the game limits.

Dealing Procedures and Round of Play

The game utilizes a dealer button to visually designate which player is in the dealer position for that hand. The dealer button rotates clockwise to the next player after each hand. The dealer position is the last to receive cards on the initial deal, but does not determine where action begins. The player with the highest card will make a mandatory opening bet. If the highest card is tied, the first player to receive their high card will open the betting. When the joker is dealt face-up on the initial round, it will be considered an ace for the sole purpose of the initial bet. The opening bettor has the option of opening for either the minimum or maximum bet in limit games, or opening for at least the minimum in no-limit games.

- When starting a new game the dealer button will be in seat seven. All players are required to place an ante. Antes are posted before players receive cards and are gathered to the center of the table.
- The house dealer then deals each player one card face-down, starting with seat one, dealing clockwise. The house dealer then deals each player a second card which is face-up. At this point all players should have two cards, one card face-down and one card face-up.
- The first betting round now occurs. The player dealt the highest card face-up, (in the case of a tie, the first player to receive their card) is required to place a bet at least equal to the lower limit of the game. All other players then have the following options, starting with the next player clockwise from the player who made the initial bet:
 - Fold their hand by turning their face-up card, face-down and have it collected by the house dealer.
 - Call the initial bet by placing an equal wager.
 - Raise the bet by placing an amount double the initial bet.
 - In no-limit games, the raise must be at least double the initial bet, but may be up to the entire chip count of the raising player. Remaining players may fold their hand, call the raise, or re raise by an amount at least double the previous raise.

Mexican Poker

- In limit games, when more than two players remain, there is a limit of three raises. With two players remaining, there is no limit to the number of raises.
- In no-limit games, there is no limit to the number of raises regardless of how many players remain in the hand.
- After all players have acted and either called all bets or folded their hand for the round of betting, the house dealer will move all bets into the pot.
- Remaining players are now given the opportunity to reveal their face-down card, beginning with the player left of the dealer button and continuing clockwise. If a player chooses to reveal their face-down card, their next card will be dealt face-down. If they do not choose to reveal their face-down card, their next card will be dealt face-up.
- After all players have determined whether their next card shall be dealt face-up, or face-down, the house dealer will burn the top card by placing it face-down partially under the pot. Beginning with the player left of the dealer button, the house dealer will then deal one card face-up, or face-down, to each player based on their decision to reveal their hole card or not. All remaining players should now have three cards, two face-up and one face-down and the second round of betting will now occur.
- All remaining players shall now have the following options, starting with the player who has the highest ranked revealed hand:
 - Players may check, if they are not facing a wager.
 - Bet at least the minimum bet as explained on the previous betting round.
 - Call any bet by making an equal wager.
 - Raise or re-raise the pot as explained on the previous betting round.
 - Fold when facing a wager, as explained on the previous betting round.
- When all players have acted and either called all bets or folded their hand from the round of betting, the house dealer will move all bets into the pot.
- Remaining players are now given the opportunity to reveal their face-down card, or not, in the same manner as the previous round. After the house dealer has burned a card and dealt all remaining players another card, either up, or down, players should now have four cards, three revealed cards and one face-down card and the third round of betting will occur.
- All remaining players shall now have the following options, starting with the player who has the highest ranked revealed hand:
 - Players may check, if they are not facing a wager.
 - Bet at least the minimum bet as explained on the previous betting round.
 - Call any bet by making an equal wager.
 - Raise or re-raise the pot as explained on the previous betting round.
 - Fold when facing a wager, as explained on the previous betting round.
- The fourth betting round is the final betting round of the hand. When all players have acted and either called all bets or folded their hand, the house dealer will move all bets into the pot. Remaining players are now given the opportunity to reveal their face-down card, or not in the same manner as the previous rounds. After the house dealer has burned a card and dealt all remaining players another card, either up, or down, players should now have five-cards, four revealed cards and one face-down card.
- All remaining players shall now have the following options, starting with the player who has the highest ranked revealed hand:
 - Players may check, if they are not facing a wager.
 - Bet at least the minimum bet as explained on the previous betting round.
 - Call any bet by making an equal wager.
 - Raise or re-raise the pot as explained on the previous betting round.

Mexican Poker

- Fold when facing a wager, as explained on the previous betting round.

How Winners are Determined and Paid

After the final betting round is complete, the house dealer shall move all of the player's bets into the pot. The remaining players will reveal their face-down card and all hands will be compared. The pot will be awarded to the player with the highest ranking five-card Mexican Poker hand, according to the hand ranking chart above. If two or more hands are tied as the highest ranking hands, the pot will be split equally among them. Any odd chips will go to the winner who is closest to the dealer button, clockwise.

Collection Rates Schedule

The Regular Table Fee shall be taken from the pot after the first round of face-up cards have been dealt to each player. The Late Fee shall be taken after the last card has been dealt to each player from the pot. The Late Fee will not be taken if the round of play has not progressed to the point of the last cards being dealt. The collection fees shall be predetermined and conspicuously posted on the table prior to any cards being dealt. Only one collection schedule, which utilizes one table limit and the specified collection fees for that table limit, as listed below, shall be used at a table at any one time. Fees may not be calculated as a fraction or percentage of wagers made or winnings earned. The amount of fees charged for all wagers shall be determined prior to the start of play of any hand or round. Each betting space at the table has a fixed amount for wagering limits defining the minimum and maximum amounts that may be wagered. Players must bet at least the table minimum.

Dealing Procedures and Round of Play

All wagers in Ace Up Pai Gow Poker will be made by placing casino chips on the appropriate betting areas of the table layout keeping in mind the table minimum and maximum wagering limits.

1. At the start of a game a player is offered the player-dealer position. Once the player-dealer position is accepted, the house dealer shall wait for each player to make their wager(s) in accordance with the table limits.
 - a. Each player then has the following option(s) when placing their wager(s): the base game wager, the Lucky Bonus Bet, and/or the Ace Up Bonus Bet.
2. Third-Party Providers of Proposition Player Services (TPPPS), as defined in Section 19984 of the California Business and Professions Code, are permitted to play.
3. Backline betting is permitted on all wagers.
4. Once all wagers have been placed, the cards will be shuffled and dealt to players in the following way:
 - a. If the cards are hand shuffled then the house dealer will shuffle, cut, and complete the deal of seven piles of seven cards face-down in front of them. When dealing the seven piles of seven cards, the house dealer shall deal one card at a time in front of the house dealer position until there are seven cards, starting from left to right. Once there are seven cards laid out, the house dealer shall deal each pile another card, from right to left, giving each pile a total of two cards. This process of dealing cards left to right, then right to left, shall be completed until each pile has seven cards. The remaining four cards shall be placed in the discard pile.
 - i. The player-dealer then selects one of the seven piles.
 - ii. The action button, which determines the first player to receive first action from the player-dealer, is placed on the selected pile and will be the first hand distributed once the placement of the action button has been determined.

Ace Up Pai Gow Poker

- iii. To determine who receives the action button, the player-dealer shakes a dice cup, which contains three dice, and the numerical total of the three dice determines the position of the action button. The player-dealer's position is always one, eight, and fifteen.
 - iv. Once the position of the action button has been determined, the house dealer then distributes the seven piles of cards, starting with the action button and continuing clockwise.
 - v. The player-dealer receives their cards in turn according to the action.
 - vi. All seven piles of cards will be distributed to all seats at the table, regardless of whether a player is seated at each position or a wager has been placed.
 - b. If a machine shuffler is used, the house dealer will use the shuffle machine to randomly intermix and deliver seven cards to each seat.
 - i. The action button, which determines the first player to receive first action from the player-dealer, is placed on the selected pile and will be the first hand distributed once the placement of the action button has been determined.
 - ii. To determine who receives the action button, the player-dealer shakes a dice cup, which contains three dice, and the numerical total of the three dice determines the position of the action button. The player-dealer's position is always one, eight, and fifteen.
 - iii. Once action is determined, the house dealer will deliver the first seven cards to the action seat and continue clockwise around the table.
 - iv. Each seven-card hand will be distributed by the shuffle machine and placed on the table by the house dealer, one at a time, from the house dealer's left to right, until all seven hands are dealt. The house dealer will then spread the remaining cards to verify there are four cards remaining and placed in the discard pile.
5. The player-dealer's hand will then be exposed and set before the players set their hands.
 - a. The player-dealer has the option to ask the house dealer to set their hand according to the Ace Up Pai Gow Poker House Way Hand Set chart below.
 - b. If the player-dealer has an ace-high seven-card hand, all player's wagers shall automatically push and any Ace Up Bonus Bets will win.
 - i. If the player-dealer's hand does not contain a seven-card ace-high hand, each player shall then set their hand.
6. Once the player-dealer's hand is set, each player sets their hands by arranging the seven cards into a two-card hand in front, and a five-card hand in back.
 - a. The five-card hand must rank higher than the two-card hand, according to the hand rankings, as shown above.
 - b. The player has the option to ask the house dealer to set their hand according to the Ace Up Pai Gow Poker House Way Hand Set chart below.
 - c. Players do not have to set their hand the "House Way", they are free to set the hand in any fashion they choose as long as it is not a foul hand. If a player arranges the two-card hand so it out-ranks the five-card hand, this will be considered a foul and the player will automatically lose their wager.
7. Once the player's hands are set, each player's hand is exposed, in turn, and compared to the player-dealer's hands to determine the winners, losers, or push hands; and wagers will be settled.
 - a. Each player's five-card hand will be compared to the player-dealer's five-card hand, and each player's two-card hand will be compared to the player-dealer's two-card hand, in turn.
8. After all wagers have been settled, as described below, the cards will be collected, shuffled, and a new round begins.

How Winners are Determined and Paid

Once the hands have been completed, according to the guidelines above, the player's wagers are settled. The settling of wagers will start with the player with the Action Button, and continue in a clockwise manner, in the following order: the base game wager, then the Lucky Bonus Bet, and then the Ace Up Bonus Bet. The following shall apply when determining whether the player wins, loses, or pushes:

- The base game wager wins if the two-card hand and the five-card hand, held by the player, ranks higher than the player-dealer's two-card hand and five-card hand.
- The base game wager loses if the two-card hand and the five-card hand held by the player, ranks lower than the player-dealer's two-card hand and five-card hand.
- The base game wager "pushes" if one of the hands held by the player ranks higher than the player-dealer's corresponding hand, and the player's other hand ranks lower than the player-dealer's corresponding hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a push and is returned to the player.
 - The base game wager also "pushes" if the ranking of the player-dealer's shown hand is a seven-card ace-high hand. Neither the player nor the player-dealer wins or loses; the wager is a push and is returned to the player.
- If either the two-card hand or the five-card hand is identical in rank to the player-dealer's two-card hand or five-card hand, it is a "copy hand." The player-dealer wins all copy hands.
- The Lucky Bonus Bet wins if the first seven cards dealt to a player are a pre-determined and designated qualifying hand as described in the Lucky Bonus Bet Paytable below.
- The Ace Up Bonus Bet wins the first seven cards dealt to a player and the first seven cards dealt to the player-dealer are a pre-determined and designated qualifying hand as described in the Ace Up Bonus Bet Paytable below.

2. If they bet on the flop, they may bet two times their Ante.
3. If they wait until the river, when all community cards are out, they may only bet the same amount as their Ante.

Description of the Deck and Number of Decks Used

Pai Gow Tiles is played with 32 Chinese dominoes or 'tiles', which form 16 possible pairs.

Tile Values and Rankings

The value of a hand is based on both the numeric and symbolic ranking of the tiles. To find the numeric value of a tile, count the total number of the dots on each tile. Use only the right hand digit value if the total is over 9.

- *Example: A 12-dot tile has a value of 2.*

The color of the dots have no significance and does not change the value of any tile. As noted below, the numerical value of a tile does not represent the actual ranking of each tile.

- *Example: A Gor Tile (4-dots) is higher ranking than a Foo Tile (11-dots).*

Rank 1	Rank 2	Rank 3	Rank 4	Rank 5	Rank 6
 Teen	 Dey	 Yun	 Gor	 Mooy	 Chong
Rank 7	Rank 8	Rank 9	Rank 10	Rank 11	Rank 12

Rank 13	Rank 14	Rank 15	Rank 16		
 Chop Bot	 Chop Chit	 Chop Ng	 Gee Joon		

Pai Gow Tiles

- The above tiles ranked 1 through 11 have an exact copy, representing 22 of the 32 total tiles.
- The above tiles ranked 12 through 16 have different dot representations but share the same name, numerical value, and ranking.
- The above tile ranked 16, Gee Joon is wild and can be played with a numerical value of either 3 or 6 depending on what the player wants to achieve.
 - *Example: a Gee Joon (3-Dot) tile can be used as a Gee Joon (6-Dot) tile.*

Hand Rankings

Each player will use their 4 tiles to create a two-tile high hand and a two-tile low hand. When a player sets their hands, the player will attempt to arrange them by the rankings below.

Description of Table Used and Total Number of Seated Positions

The game shall be played on a standard Pai Gow table that accommodates up to seven players and a player-dealer position for a total of eight seated positions. Within each betting area for each seated player, there shall be one separate betting space specifically designated for one separate base game wager. Backline betting is permitted for all wagers; also players may wager on available betting spaces.

Pai Gow Tiles

Dealing Procedures and Round of Play

All wagers for Pai Gow Tiles will be made by placing gaming chips in the appropriate betting areas of the table layout, keeping in mind the table minimum and maximum wagering limits.

1. The house dealer shuffles or mixes the tiles and stacks them in rows, with four tiles facing down in each row.
2. The player-dealer will then shake a dice cup, which contains three standard dice the numerical total of the three dice determines the position of the Action Button.
 - a. Before revealing the value of the die, all players post wagers in the betting circles in front of their position before the dice cup is opened.
 - b. The value of the three die indicates which seat the first pile of tiles will be distributed to. The player-dealer's position is always one, nine, and seventeen. Other seats (occupied and unoccupied), in counterclockwise rotation, respectively represent the other numbers.
 - c. If the total of the three die is nine or seventeen, the player-dealer shall receive the first set of tiles and the player to the left of the player-dealer shall receive the Action Button.
3. The house dealer shall distribute the eight sets of tiles in order to each seat, starting with the hand that has the Action Button and continuing counterclockwise around the table. All eight sets will be distributed to all seats at the table, regardless of whether a player is seated at each position or a wager has been placed.
4. Once all of the tiles have been distributed, the house dealer will collect the tiles distributed to seats without a wager and place them in the discard pile. The house dealer will leave these tiles unexposed until the completion of the round of play.
5. Each player shall then set their hands according to the rankings above by arranging the four tile set into a two-tile high hand and a two-tile low hand. The two stacks do not have to be placed in a specific position.
 - a. Players may ask the house dealer set their hands in the "House Way."
6. Once all players have set their hands, the player-dealer will set their hand.
7. Once the player-dealer's hands are set, each player's hand is exposed, in turn, and compared to the player-dealer's hands to determine the winners, losers, or pushes.
 - a. Each two-tile stack will be exposed one tile at a time to avoid any chance of a low hand and a high hand becoming mixed up.

House Way

If one setting results in an equal or higher high and low hand than all alternatives, then play it. For example, with 12-dot tile, 12-dot tile, 3-dot tile, and 4-dot tile, playing 7/teen pair is the obvious best play. This supersedes the rule to split a 12-dot tile pair to make 6/8 or better.

Pai Gow Tiles House Way Chart

Hand Dealt: Pair	Hand Setting
Gee Joon	Split only with 12-dot, 11-dot, or 10-dot tiles.
2, 12 Pair	Split to make 6/8 or better, or with 9-dot and 11-dot tile.
6 Pair	Split with any combination of 2, 11, and 12-dot tiles.
7 Pair	Split with any combination of 2, 10, 11, or 12-dot tiles.
8 Pair	Split with any combination of 2, 10, 11, or 12-dot tiles. Also split with a 9-dot tile and an 11-dot tile.
9 Pair	Split with any combination of 2, 10, and 12-dot tiles.

Pai Gow Tiles

If a pair is not possible, the house dealer will score the maximum number of points between both pairs of tiles as follows. Pairs of 0 to 9 count according to the number of points. A Gong shall count as 10 points, and a Wong shall count as 11 points. For example, 12-dot tile, 8-dot tile, 9-dot tile, and a 5-dot tile could be arranged as 4/Gong (4+10=14 points), 3/Wong (3+11=14 points), or 7/7 (7+7=14 points). It is thus a 14-point hand.

After scoring the hand, the house dealer will play it according to the number of points. The highest play listed is the one the house dealer will play. For example, of the three possible plays in the 14-point hand above, 7/7 is listed highest, and is thus what a player should play.

When given the choice whether to play the 2-dot tile or 12-dot tile in a Wong, Gong, or High 9, the house dealer will play the 12-dot tile.

How Winners are Determined and Paid

Once all hands have been completed according to the guidelines above, the player's wagers are settled. The setting of wagers will start with the player with the Action Button, followed by the backline bettor for that seat, and will continue in a clockwise manner around the table in this order. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer will be returned to the players. The following shall apply for each possible outcome when determining which hand wins, loses, or if there is a push.

- The Pai Gow Tiles base game wager wins if the player's two-tile high hand and two-tile low hand ranks higher than the player-dealer's two-tile high hand and two-tile low hand.

Pai Gow Tiles

- The Pai Gow Tiles base game wager loses if the player's two-tile high hand and the two-tile low hand ranks lower than the player-dealer's two-tile high hand and two-tile low hand.
- The Pai Gow Tiles base game wager 'pushes' if one of the hands held by the player ranks higher than the player-dealer's hands and the other hand ranks lower than the player-dealer's hand. In this case, neither the player nor the player-dealer wins or loses; the wager is a 'push' and is returned to the player.
- If both hands are identical in rank to the player-dealer's hands the player-dealer wins.
- The player-dealer will pay all winning base game wagers.
- The player-dealer will collect all losing base game wagers.

California Games Collection Rates

Collection Procedures

California Games - California games utilize a player-dealer position. The position shall be offered systematically and continuously in a clockwise manner around the table after every two hands. All controlled game wagers, including bonus bets, are collected or paid, to the extent that the player-dealer's wager covers. Once the player-dealer's wager has been exhausted, the wagers not covered by the player-dealer shall be returned to the respective players. The gambling establishment does not participate in the actual play of the game and has no interest in the outcome of the play.

- Only one collection schedule option, which utilizes one table limit and the specified collection fees for that table limit, as listed above, shall be used at a gaming table at any one time.
- Collection rates and fees shall be determined prior to the start of play of any hand or round. Rates shall not be calculated as a fraction or percentage of wagers made or winnings earned. Flat fees on wagers may be assessed at different collection rates; however, no more than five collection rates may be established per table limit.
- The Parkwest Casino Manteca shall provide ample notice to patrons regarding the collection rates and fees, as well as the procedure for collecting them. Collection fees shall be conspicuously posted on or within view of every gaming table.
