CRIS RESP TEAM 1ST RESPONDER	20791 CONTRA COSTA COUNTY SHERIFF'S OFFICE	5590	32 As persons with mental illnesses, intellectual disabilities, substance abuse disorders, and law enforcement become increasingly entangled, the collaboration of police officers and mental health service providers is essential. This course will cover mental health diagnoses, intellectual disabilities, substance abuse disorders, stigma, stigma reduction, mental health law, cross-cultural sensitivity, training in tactical communications, officer safety, de-escalation techniques, and conflict resolution strategies. The goal of this course is to create a context for sustainable change, improving the safety of law enforcement officers, consumers, family members, and citizens within the community. The curriculum and content for this course meet the minimum topics mandated by 13515.28 of the California Penal Code, in which Field Training Officers are required to have 8 hours of crisis intervention behavioral health training.	Active California Law Enforcement and Public Safety Dispatchers	In person
CRIS RESP TEAM 1ST RESPONDER	20791 SANTA BARBARA CO. SHERIFF'S OFFICE	2480	40 This is a 40 hour course for first responders assigned full-time or collaterally to a crisis intervention team. This course addresses stigma reduction, cultural relevance and provides perspective of individuals or families who have experience with persons who have mental illness, intellectual disabilities, and substance use disorders. The course provides officers with effective communication tools to encourage conflict resolution and de-escalation. Officers will be trained to identify indicators of mental illness, intellectual disabilities and substance use disorders. Officers will receive instruction on community and state resources and how these resources can be utilized by law enforcement to serve persons with mental illness and intellectual disabilities.	All law enforcement agencies are encouraged to participate in this training. Law Enforcement agencies within Santa Barbara County have already participated in a related 8 hour CIT course developed by our agency. Participating agencies include Santa Barbara Police, UCPD, Lompoc Police, Santa Maria Police, Santa Barbara Harbor Patrol, State and County Parks. There have been additional personnel from Monterey Police, Grove Beach PD and CAL Fire attend training as well. Targeted audience for this 40 hour class are law enforcement personnel assigned to a Crisis Intervention Team, however training is not limited to team members. Any first responder would benefit from this course.	In person
CRISIS INTERVENTION	20801 AMADOR COUNTY SHERIFF'S OFFICE	2290	8 This course is designed to train law enforcement officers and dispatchers to handle crisis situations involving people of all ages with serious mental illnesses and developmental disabilities. Topics include crisis and suicide intervention, officer and public safety, medications, overview of mental health services, report writing and communication and de-escalation techniques.	Amador County Sheriff's Office Personnel and Other California Law Enforcement Agencies.	In person

CRISIS INTERVENTION	20801 BAKERSFIELD POLICE DEPARTMENT	1080	40	This course will equip deputies with methods to properly interact with persons with behavioral health disabilities or in crisis safely; de-escalate crises and reduce the unnecessary use of force against individuals with behavioral health disabilities or in crisis; minimize arrests; improve the safety of patrol deputies, individuals with behavioral health disabilities or in crisis and their families, and others within the community; refer individuals to the County's behavioral health crisis system; and reduce the inappropriate involvement of individuals with behavioral health disabilities with the criminal justice system.	Local agencies, sworn, non-sworn personnel, dispatchers, police call takers.	In person
CRISIS INTERVENTION	20801 CA HIGHWAY PATROL	1270	16	This training is an instructor led, interactive crisis intervention training course. The flow of the course allows for the student to immediately implement the knowledge and skills learned into practical scenario based exercises. The Force Options Simulator (FOS) system will be utilized to provide the students with realistic and practical experience in everyday encounters with people in crisis. The student will learn about various mental health disorders, crisis intervention communication, legal updates and case law surrounding mental illness, 5150 WIC procedures, report writing, documentation, and officer wellness.	Peace officers and employees who interact with the public.	In person
CRISIS INTERVENTION	20801 CALAVERAS COUNTY SHERIFF'S DEPARTMENT	1210	24	The goal of this course is twofold: First to increase the public safety officer's awareness of the debilitating nature of mental illnesses and how profoundly they affect an individual's life; and second, to promote more positive contacts between law enforcement and those who suffer from mental illness	Calaveras County Department of Alcohol, Drug and Mental Health, field officers, dispatchers, supervisors, 1st responders	In person
CRISIS INTERVENTION	20801 CALEXICO POLICE DEPARTMENT	2070	16	Behavioral Health Crisis Intervention Training (CIT) provides Peace Officers and other first responders an opportunity to develop increased knowledge and understanding about mental illness to effectively coordinate appropriate response/interventions for individuals and families experiencing a mental health crisis.	Imperial County Mental Health Department Calexico Police	In person

CRISIS INTERVENTION	20801 CALIFORNIA PEACE OFFICERS' ASSOCIATION (CPOA)	9100	40 The purpose of this 40 hour training course is to provide public safety personnel with the knowledge and skill to identify signs and symptoms of mental illness, skills to assess and manage an individual's risk for suicide, effective communication strategies, identify and apply key components of the 5150 process as well as relevant case law to write a police report, develop a better understanding of the officer's role, examine officer safety and tactical considerations to improve the effectiveness of field contacts with mentally ill persons, to understand the importance of self-care and identifying signs and symptoms of Post-Traumatic Stress Disorder (PTSD).	Law Enforcement Personnel	In person
CRISIS INTERVENTION	20801 COLLEGE OF THE REDWOODS	2960	40 Provides law enforcement officers with the ability to deal more effectively with mentally ill persons and crisis conditions. The course addresses a variety of mental illnesses and incorporates site visits to local mental health facilities. Content also includes behavioral indicators, incident command considerations, community resources, suicide risk factors, the "suicide by cop" phenomenon, cultural issues, practical aspects of disability awareness and panel presentations along with role playing.	All law enforcement, dispatchers, mental health personnel and any emergency response personnel	In person
CRISIS INTERVENTION	20801 CONTRA COSTA COUNTY SHERIFF'S OFFICE	5590	32 The Crisis Intervention Training Team (CIT) Program is a 32-hour training course which provides participants with an overview of mental illness, developmental disabilities, crisis intervention techniques, communication skills, and other tools, tactics and strategies that law enforcement officers can employ to safely and effectively deescalate individuals who have a mental illness and are in crisis. In addition, information on local community-based mental health facilities and jail diversion programs are also provided. The class is open to and appropriate for Law Enforcement, Dispatchers, Police Chaplains and First Responders. This course meets the mandate of PC 13515.28, FTO 8 Hour.	Active California Law Enforcement and Public Safety Dispatchers	In person

NORMALIZING COMMON MENTAL HEALTH CHALLENGES	10876 LEXIPOL	1476	<p>2 ONLINE/SELF-PACED COURSE - (PAID SUBSCRIPTION. Please click the registration link below.) Public safety personnel are not immune to mental health concerns, but unfortunately, they often try to ignore or mask these challenges due to cultural stigma within many organizations. This course is designed to equip peer supporters with skills & knowledge necessary to better understand these challenges & break down the barriers of receiving necessary support by normalizing conversations surrounding mental health. It also delves into depression & anxiety--two of the most common mental health challenges for public safety personnel, addressing causes, symptoms & various considerations for peer supporters to keep in mind when navigating them. Additionally, the course covers actionable methods for managing anxiety, depression & panic attacks, which are three conditions peer supporters will undoubtedly encounter.</p>	Peace Officers in Basic, In-Service, Supervisory, Management, and Executive positions to include patrol officers.	Online
PRACTICAL DE-ESCALATION & TACTICAL CONDUCT	20811 LOS ANGELES POLICE DEPARTMENT	1850	<p>9 Enhance students' ability to de-escalate volatile situations and focus on reverence for human life. Students will develop understanding and skill in the application of verbal strategies related to de-escalation and strategic disengagement if field-related situations. Additionally, students will review and develop skill in the application of use of force concepts, tactics, and firearms marksmanship. This course provides current 835a content.</p>	LAPD sworn personnel	In person

PRACTICAL DE-ESCALATION & TACTICAL CONDUCT	20811 SAVAGE TRAINING GROUP	1345	16 This is a realistic and practical de-escalation training course for patrol officers and supervisors as well as dispatchers. Students will receive de-escalation training, learn the nuances of California's new use of force laws and learn the specific tactics to be used to avoid unnecessarily violent confrontations while protecting officers from harm and legal liability. The curriculum includes 1) a comprehensive analysis of how AB392 changed PC 835a and provides updated legislative content of Penal Code Section 835a, 2) how to apply the tactical recommendations listed in CA POST's De-Escalation Manual including pre-contact assessment and coordination of responding units, 3) practical, realistic and specific tactics to resolve common critical incidents including the mentally ill in crisis, subjects armed with knives and unconventional weapons, criminal and non-criminal barricades in structures and vehicles and more.	Law enforcement officers, supervisors and dispatchers	In person
PREVENTATIVE MENTAL HEALTH WELLNESS	43157 PSYCHOLOGICAL CONSULTING ASSOCIATES, INC.	1541	24 The supportive environment created by a Peer Support Team is highly beneficial to both employers and employees. Peer Support is an intervention by co-workers to identify a potential high-risk situation before a crisis event occurs. Participants will learn prevention, intervention, and post-vention mental health strategies and they will learn how to create a wellness program using the guidelines set forth by the International Association of Chiefs of Police (IACP) Police Officer Wellness Initiatives.	Gardena Police Department and a variety of other first responder agencies.	In person
SUICIDE BY COP	22642 MONTEREY POLICE DEPARTMENT	1380	16 This Protocol and Training is a tool for police officers to recognize and respond safely to incidents in which a person decides to attempt to die at the hands of a police officer. These encounters are called "Suicide by Cop" (SbC) incidents. Suicide by Cop incidents have been a concern in the policing profession for years, but PERF is unaware of any previous efforts to create training protocols on this topic. Many SbC incidents can be resolved without using lethal force against the suicidal person, and without endangering officers or the public. This Protocol and Training is designed to bring the key elements of SbC training to all officers in departments of any size. This course provides updated legislative content of Penal Code Section 835a.	Police Officers	In person

SUICIDE BY COP	22642 RICK WALL CONSULTING AND INVESTIGATIONS	1417	8 The purpose of this course is to provide relevant training with the objective of reducing incidents of SbC. Focusing on suicidal ideation and early indicators of SbC, students will: 1) Develop an understanding of the need to identify potential acts of SbC and properly communicate critical information to first responders. 2) Have a better understanding of tactics and de-escalation techniques with the goal of reducing violent encounters with suicidal subjects. This course provides updated legislative content of Penal Code Section 835a. THREAT ASSESSMENT/DE-ESCALATION STRATEGIES	20903 FRESNO COUNTY SHERIFF'S OFFICE	1500	8 This 8-hour course is designed to train sworn peace officers to evaluate information provided through dispatch audio, eye witness account and behavioral cues of individuals when confronted with a violent or potentially violent situation. Various scenarios will be presented in which students will demonstrate sound decision making ability to determine an appropriate level of force using the principles of de-escalation including, but not limited to, verbal communication, less-lethal options and the availability of other departmental resources. This course provides updated legislative content of Penal Code Section 835a.	Full-time/reserve peace officers with the Fresno County Sheriff's Office and allied agencies	In person
THREAT ASSESSMENT/DE-ESCALATION STRATEGIES	20903 ROSEVILLE POLICE DEPARTMENT	4440	4 The course is designed to place the officers in stressful, real world conditions requiring the use of crisis intervention techniques to diffuse tense, rapidly evolving situations. The ability to remain calm under stress and treat members of the public with respect under difficult circumstances is paramount. The officers' actions, teamwork, command and control and ability to adapt to dynamic situations in a safe manner will be evaluated.	Roseville Police Department and surrounding law enforcement agencies	In person

THREAT ASSESSMENT/DE-ESCALATION STRATEGIES	20903 SAN FRANCISCO POLICE DEPARTMENT	2420	10 This course covers four different categories (policies and procedures, scene management, the CIT team concept, and tactical de-escalation). The course gives officers a better understanding of current policies and procedures when coming into contact with a person in crisis. Next, officers are taught how to appropriately respond to a scene when there is a person in crisis. Officers are trained on scene management and requesting appropriate resources. Officers then learn how to work as a team when dealing with a person in crisis. Finally, officers cover de-escalation techniques that could be used out in the field when performing their duties. This course provides updated legislative content of Penal Code Section 835a. This course meets Strategic Communications perishable skills program.	Law enforcement personnel	In person
THREAT ASSESSMENT/DE-ESCALATION STRATEGIES	20903 SOCAL ARCON LLC	1355	24 This course includes comprehensive training in Tactical De-escalation Techniques, and a thorough Use of Force Update. The course uses reality-based role-play scenarios, and live drilling of Arrest and Control techniques to provide incredibly realistic Tactical De-escalation training. Students must be full duty and mentally and physically ready to train.	Available to any agency, including underserved law enforcement communities.	In person
