CARIBBEAN STUD POKER JACKPOT

SUMMARY OF GAME

Village Club proposes to add a progressive jackpot element to the game of Caribbean Stud Poker. Similar to the Jackpot games attached to Poker and Pai Gow Poker. The Player/ Dealer will be assessed a fixed fee, per hand and players will qualify for a prize when a designated second hand is beaten by a designated first hand. Prizes are paid from a prize pool ("Jackpot Fund") funded by a fee paid by participating players. Players may qualify for the full Caribbean Stud Poker Jackpot prize without paying a fee, or other consideration, by participating in free instructional games where there is no live wagering, no Jackpot Collection and no table fees ("No Purchase Necessary").

The rules and standards of play for the Caribbean Stud Poker Jackpots are the same as in Pai Gow Poker Jackpot Games currently been offered in Commerce and The Bicycle Casinos. The number of cards in the deck, the type of deck, the function of the dealer, the number of players, rotation of the player-dealer position, collection of table fees, betting limits and how winners are determined and paid will all be consistent with the approved version of Caribbean Stud Poker.

Since the jackpot element will be added to an existing game, the only change to the equipment will be in the addition of a separate collection box, which will be secured to the table and will be designated for the Jackpot Collection and used only for the collection of the jackpot funds. This will insure that Jackpot Collections are kept separate and apart from the table fee collection.

THE PRIZE

A prize ("Jackpot Prize") will be awarded when one player at a game obtains a specified second hand but loses to a player who obtains a better specified first hand ("Qualifying Hand"). As this is a progressive jackpot, the amount of the Jackpot Prize will vary depending on the volume of play and frequency in which players obtain a Qualifying Hand. Village Club will control the allocation of the Jackpot Collection to Jackpot Prize. The available Jackpot Prize will be posted on either an electronic board or poster centrally located in the California Games section of the casino. The posting will be updated as the prize is increased or decreased so that all players will have ample notice of the current Jackpot Prize.

When players obtain the specified hand combination and claim the Jackpot Prize, the qualifying hands will be verified by the dealer and a floorperson. Surveillance cameras will be utilized to assure all employees and customers followed the required procedures. The winning players' identification will be obtained and necessary paper work completed prior to the payout of the Jackpot Prizes. Village Club will record all

IMAGED

prizes awarded and the names of the winners as part of its Caribbean Stud Poker Jackpot accounting records.

FUNDING

Caribbean Stud Poker Jackpot Prizes will be funded by a separate collection fee paid by players prior to the start of each hand ("Jackpot Collection"). The Jackpot Collection will be either \$1.00 per hand depending on the stakes of the game. The amount of the Jackpot Collection will be posted within view of each participating table.

Jackpot Collections are determined and collected prior to the start of each hand. Jackpot Collections are not calculated based on a percentage of the amount wagered. Village Club will provide the initial seeding of the Jackpot Fund and may from time-to-time provide additional infusions of money to add to the size of the pool and the excitement of the game.

The Jackpot Collection will be posted by the player in the first Player-Dealer position. When there is more than one player participating in the first Player-Dealer position, the player who has the most money in action in the first Player-Dealer position will be responsible for posting the full Jackpot Collection.

JACKPOT COLLECTION & ACCOUNTING PROCEDURES

The Jackpot Collection from all Caribbean Stud Poker will be collected, counted, secured and recorded in the same manner as the table fees paid to Village Club . The dealer will collect this fee (in the form of chips) prior to the start of each hand and deposit the fee in a locked Jackpot Collection Box at the table. The Jackpot Collection Box will be different from the box used for table fees. The locked Jackpot Collection Boxes will be gathered by casino security staff at designated times and transported to the secure Village Club count room. In the count room, the Jackpot Collection Boxes will be unlocked and the contents counted subject to minimum internal control standards similar to those used by Village Club in collecting its table fees and in other United States gaming jurisdictions. In addition, all count team activity is under constant observation of video cameras. The total dollar volume of the chips taken from each Jackpot Collection Box will be recorded on a Daily Jackpot Collection Report (AJackpot Collection Report@) that will be maintained as an accounting record and shall be available to the Division of Gambling Control and the City for audit and inspection. The Jackpot Collection Report will document the amount of Jackpot Collections received at each participating Caribbean Stud Poker gaming table during each shift.

NO PURCHASE NECESSARY PROCEDURES

Caribbean Stud Poker Jackpots will be offered for free, on a "general and indiscriminate" basis, to patrons who wish to participate in a No Purchase Necessary game. Village Club will provide instructional tables for all patrons who request to participate in Caribbean Stud Poker Jackpots without paying a table fee or a Jackpot Collection. There will not be live wagers at these tables. Participants in No Purchase Necessary instructional tables will be eligible to win the full-posted Jackpot Prize if they participate in a game where players obtain the designated Jackpot Hands.

A person(s) that comes to play the jackpot at the "no purchase necessary" table will be dealt the maximum of eight hands. The no purchase necessary player will play only one hand and the casino dealer will play the remaining.

If the player wins the jackpot, only the portion of money that his/her hand qualifies for will be paid. The remainder will remain in the jackpot fund.

This will be done in the interest of fairness and in the spirit of the law, and as to give the no purchase necessary player the maximum opportunity to win the a portion of the jackpot prize. No purchase necessary tables follow the identical rotation procedure as regular player-dealer games. A no purchase necessary player will be offered the opportunity to act as the player dealer for two consecutive hands per round of play. If there are eight live players and everyone accepts the player-dealer position, each player will have the opportunity to act as player-dealer two hands per round.

If there are not eight players, the house dealer will play the hands for the vacant seats according to House Way. The house dealer will accept the opportunity to act as the player-dealer each time the opportunity arises.

Village Club will follow the regular game procedure for no purchase necessary tables. The player-dealer button will rotate around the table after every second hand. Players have the opportunity to decline to act as player-dealer. To the extent that a house dealer is playing the hand for a vacant seat, she will accept the opportunity to act as player-dealer and will play all hands House Way.

Village Club will do everything possible to make a no purchase necessary table available to patrons within fifteen minutes of a request. If no other patrons are available to participate in a no purchase necessary table within fifteen minutes of a request, Village Club will provide a table where the no purchase necessary player will play only one hand and the casino dealer will play the remaining hands according to House Way.

THIRD PARTY PROVIDERS OF PROPOSITION PLAYER SERVICES

Third Party Providers of Proposition Player Services, as defined by Section 19980 of the California Business and Professions Code, their agents and employees ("Prop Player"), are not eligible to win any portion of the Jackpot Prize. If a Prop Player receives a Qualifying Hand, its portion of the Jackpot Prize will not be paid and will remain in the Jackpot Fund. If a Prop Player is a participant in a Qualifying Hand with another player(s), the Prop Player will not be eligible to receive its portion of the Jackpot Prize and the full Jackpot Prize will be paid to the other players.

FLAT ADMINISTRATIVE FEE

Village Club will retain a flat administrative fee from the Jackpot Fund based on the number of table hours that Caribbean Stud Poker Jackpots are offered ("Administrative Fee"). The Administrative Fee will not fluctuate based on the amount of money placed into the Jackpot Fund. Village Club reserves the right to adjust its flat Administrative Fee based on market factors and cost of operating Caribbean Stud Poker Jackpots. Village Club projects that its Administrative Fee will be in the range of \$3.00 to \$6.00 per table hour. Village Club will designate the flat Administrative Fee and will provide advance ample notice of its flat fee to all customers in accordance with Regulations adopted by the California Gambling Control Commission and/or the California Division of Gambling Control Regulations.

ELIGIBILITY FOR THE JACKPOT PRIZE

Only patrons participating in the first Player-Dealer position is eligible to win the Jackpot Prize. If there is more than one player with a wager in the first player-dealer position, the Jackpot Prize will be divided pro-rata based on the amounts of their respective wagers between the players. All players in the player position, who have made a wager and have paid the table fee for any betting circle, regardless the amount wagered, are eligible to win and share the Jackpot Prize. Eligible players in the player position will share the Jackpot Prize in equal shares regardless of the amount of their wagers.

QUALIFYING HAND FOR CARIBBEAN STUD POKER

In all California games, the player-dealer's hand plays against each of the other player's hands. If the player-dealer's hand has a lower ranking than a player's hand, the player-dealer loses the wager. If the player-dealer's hand has a higher ranking than a player's hand, the player-dealer wins the wager. If the player-dealer's hand ties with the other player's hand, the wager is a push. The no purchase necessary game rules are the same as regular rules. By definition, therefore, one of the Qualifying Hands in all California

Game Jackpots must be the player-dealer's hand. The player-dealer's hand must be one of the Qualifying Hands in all California Game Jackpot hands.

The Qualifying Hands for Caribbean Stud Poker Jackpots are:

1. **Bad beat Jackpot** Any flush (Second hand) beaten by higher flush or better ("First hand")

After the winning hands in a Bad Beat Jackpot are confirmed, the player who lost with the designated second hand will receive sixty (60%) percent of the posted Jackpot Prize for that game, the player with the designated first hand will receive twenty (20%) percent of the posted Jackpot Prize and the remaining twenty (20%) percent of the posted Jackpot Prize will be evenly distributed among all other players at the table who have made a wager and paid a table fee collection for that particular hand

2. **Super Jackpot:** A full house ("second hand") beaten by the higher full house or better ("first hand").

After the winning hands in a Super Jackpot are confirmed, the player who lost with the designated second hand will receive sixty (60%) percent of the posted Jackpot Prize for that game, the player with the designated first hand will receive twenty (20%) percent of the posted Jackpot Prize and the remaining twenty (20%) percent of the posted Jackpot Prize will be evenly distributed among all other players at the table who have made a wager and paid a table fee collection for that particular hand.

3. **Royal Jackpot:** A Straight or less ("second hand") beaten by a Royal Flush ("first hand").

After the winning hands in a Royal Jackpot are confirmed, the player who lost with the designated hand will receive twenty (20%) percent of the posted Jackpot Prize for that game, the player with the designated best hand will receive sixty (60%) percent of the posted Jackpot Prize and the remaining twenty (20%) percent of the posted Jackpot Prize will be evenly distributed among all other players at the table who have made a wager and paid a table fee collection for that particular hand.

To increase or decrease the frequency (odds) of the Caribbean Stud Poker Jackpots Qualifying Hands, Village Club reserves the right to adjust, the Qualifying Hands. Village Club will give ample advance notice to all patrons of any changes to the Qualifying Hands once the request to change the Qualifying Hand has been submitted and approved by the Division of Gambling Control. No change in the Qualifying Hand will be effective until a letter of approval by the Division of Gambling Control has been received.

Eligible Controlled Games

The Progressive Drawing Promotion gaming activity shall be attached to all currently Bureau approved controlled games offered at Seven Mile Casino at all times that this gaming activity is being offered for play. All controlled game rules shall be played as previously approved by the Bureau

Object and Summary

The Progressive Drawing Promotion involves a drawing where a bin, basket, lottery ball machine, or other non-electronic randomizer will be used. During pre-determined times and intervals of the promotional period, a casino representative will announce the commencement of the drawing. The drawing to determine a lucky table and lucky seat using cards, balls, or lammers, which are pre-printed, equally sized and colored. For the lucky table drawing, a card, ball or lammer that represents each active table will be mixed within the randomizer. A casino representative will then select one to determine the winning table. Once the eligible table is determined, the lucky seat will be determined by placing cards, balls, or lammers into the randomizer and selecting one. The number of seats at the winning table determines the amount of cards, balls, or lammers that will be placed into the randomizer (e.g. if the table has 7 seats, then 7 cards, balls, or lammers would be placed into the randomizer). If no one is sitting at the selected seat, another card, ball, or lammer will be drawn until a winner is chosen. Once the table number and seat number are determined, the player sitting at the selected seat will spin a wheel to determine their prize.

The prize will be awarded when the player spins the prize wheel and it stops on a spot on the wheel.

- The wheel contains between 10 and 100 spots. One or more of the spots on the wheel will have progressive prize amounts (described below).
- Each spot on the prize wheel will have a designated cash prize value or other eligible prizes between \$1 and \$500,000. Prize amounts will be predetermined prior to the guest spinning the wheel.

Progressive Drawing Promotion

- Other eligible prizes will have words representing the prize, such as double spin, triple spin, or other eligible prizes listed in the prize section below.

In the event that any prize other than the progressive is won, the progressive prize amount will increase between \$50 and \$10,000 until the progressive prize reaches the predetermined and posted cap valued between \$2,000 and \$50,000. Regardless, the updated progressive amount will be displayed prior to the table and seat number drawing.

The final drawing of the promotional period will be a “must go” and all the advertised progressive prize money will be distributed. If the player that spins the wheel for the last promotional time does not win the progressive prize the progressive prize pool will be awarded by drawing a predetermined number of table and seat numbers, between 1 and 50 table/seat numbers will be drawn and split evenly between the players that are in those seats.

Example: *The final progressive spin is at 11:00 pm on Tuesday and the progressive prize amount is \$3,500. The 11:00 pm winner spins the wheel and does not win the progressive amount.
