Controlled Game

The Bonus Chips Promotion may be attached to all limits and versions of the currently Bureau approved California games offered at the Tavern at Stones Gambling Hall. All base game rules will be played as previously approved by the Bureau of Gambling Control.

Rules of Play

Patrons are awarded a predetermined amount of bonus chips when they buy-in for a predetermined amount to any California game and play for a predetermined amount of time. If the player loses all of his/her chips before the required playing time has elapsed, the player owes nothing to the casino. If the player leaves before the required time has passed, they will owe the full amount of bonus chips awarded, or the remainder of their chips if they have less than the amount of bonuses received remaining. In these instances, the casino will incur all losses, and the player will not be responsible to make up the difference. A patron will never owe money at a future date.

Prize

The bonus chips shall have a value ranging from \$1 to \$10,000 for each chip and will be a fixed amount based on the buy-in. The buy-in amounts may range from \$1-\$100,000.

Eligibility Requirements

The promotion will be open to all players who buy-in for the predetermined and specified amount of money and play a game for a predetermined specified amount of time.

- There is no minimum amount of players required to be dealt into a game in order to qualify for this promotion.
- Casino employees are eligible for this promotion when off-duty and out of uniform.

Bonus Chips Promotion

Option A

The amount of required time that a player must play in order to earn bonus chips is between 1/2 hour-3 hours

Option B

A player must play between one and ten hands in order to qualify for the promotion.

- If the player busts before the required playing time has elapsed, the player will not owe anything to the Gambling Hall.
- Players shall be required to fulfill the pre-determined and designated time in order to keep the bonus chips. If the player has lost all of his/her chips before he/she has fulfilled the required amount of time, including the bonus casino chips, then he/she has fulfilled the time requirement. In the event that a player has to leave before the required amount of playing time has been fulfilled, then that player shall return the entire bonus casino chip amount, or any remaining amount of chips up to the bonus casino chip amount, as long as he/she has enough left in play. If the amount of chips left in play does not equal the amount of bonus casino chips given, the Tavern at Stones Gambling Hall shall not require the player to pay the difference.

Eligible Controlled Games

The CA Games Coupon shall be attached to all Bureau approved California games offered at The Tavern at Stones Gambling Hall at all times the gaming activity is being offered for play. All controlled game rules shall be played as approved by the Bureau.

Object and Summary

Patrons are awarded match play, free play or one-time free play coupons or chips via hand-outs, advertisements in magazines, websites, mailing advertisements, winning a Bureau approved promotion, winning or signing up for a Bureau approved tournament.

Patrons may also purchase match play, free play or one-time free play coupons or chips from the cashier cage at face value. The match play, free play or one-time free play coupons or chips can be purchased with cash or with live casino chips. Once the match play, free play or one-time free play coupons or chips are purchased, they cannot be exchanged for cash or live casino chips; they must be used for wagering.

When a patron receives a match play coupon, they will take the coupon to the cage for verification, logging, and redemption. The casino cage representative will then exchange the coupon for the corresponding promotional chip used for play. Players who receive a match play chip will be eligible to win the specific amount printed on the chip if they place a wager on an eligible game equal to or greater than the amount listed on the match play chip.

When a patron receives a free play or one-time free play coupon, they will take the coupon to the cage for verification, logging, and redemption. The casino cage representative will then exchange the coupon for the corresponding promotional chip used for play. Players who receive a free play or one-time free play chip will be eligible to win the specific amount printed on the chip on an eligible game equal to the amount listed on the free play or one-time free play chip.

When a player uses the match play, free play or one-time free play chips to place a wager, the posted collection fees are still required and taken by the house dealer.

Match Play Chip

When a player wagers with a match play chip, the player's wager must be equal to or greater than the amount of the match play chip and the player's winning hand will be paid on their wager as well as the listed amount on the match play chip. The match play chip cannot be exchanged for cash or live casino chips. The match play chip is a one-time use chip with the exception of a push.

When the player wagers with a match play chip and the hand wins, the monetary part of the wager and the match play chip(s) are paid by the player-dealer. The match play chip is forfeited and will be collected by the house dealer and dropped in the drop box for accounting purposes.

When the player wagers with a match play chip and the hand loses, the player will only lose their original wager and the match play chip is collected by the player-dealer; the match play chip is then given to a casino representative. The casino representative then takes the chip to the cage where it is given to a casino cage representative for the chip to be logged and exchanged for the value listed on the chip with the equivalent in live casino chips. The casino representative then takes the live casino chips back to the appropriate player-dealer.

When the player wagers with a match play chip and the hand pushes (receives no action), the chip may be played again until the player wins or loses a hand.

EXAMPLE: *A person receives a match play coupon with a value of \$5.00. The player would take the coupon to the cage. A casino cage representative would log the redemption code of the coupon and exchange the coupon for a promotional match play chip. The person would place the chip on the gaming table; place a bet equal to or greater than the amount on the chip, and pay the posted collection (if applicable) for a single hand of play. If the player wins the hand, they will receive \$10.00 just as if they had placed a \$10.00 bet. If the player loses the hand, they will lose the match play chip.*

Free Play Chip

The free play chip is used in live games exactly like live casino chips, the difference being the free play chips cannot be exchanged for cash.

When a player wagers with a free play chip and the hand wins, the free play chip is paid by the player-dealer and the free play chip may be played again until the player loses a hand.

When the player wagers with a free play chip and the hand loses, the free play chip is collected by the player-dealer; the free play chip is then given to a casino representative. The casino representative then takes the chip to the cage where it is given to a casino cage representative for the chip to be logged and exchanged for the value listed on the chip with the equivalent in live casino chips. The casino representative then takes the live casino chips back to the appropriate player-dealer.

When the player wagers with a free play chip and the hand pushes (receives no action), the free play chip may be played again until the player loses a hand.

EXAMPLE: *A person receives a free play coupon for \$10.00. The player would take the coupon to the cage. A casino cage representative would log the redemption code of the coupon and exchange the coupon for a promotional free play chip. The player would then place the free play chip on the gaming table in a wagering spot, pay the posted collection and the game would play.*

One-Time Free Play Chip

The one-time free play chip is used in the live games exactly like live casino chips, the two differences being:

1. The one-time free play chip may only be used for one bet (similar to match play).
2. The one-time free play chip cannot be exchanged for cash.

When the player wagers with a one-time free play chip and the hand wins, the one-time free play chip is paid by the player-dealer. The one-time free play chip will be collected by the house dealer and dropped in the drop box for accounting purposes.

When the player wagers with a one-time free play chip and the hand loses, the one-time free play chip is collected by the player-dealer; the one-time free play chip is then given to a casino representative. The casino representative then takes the chip to the cage where it is given to a casino cage representative for the chip to be logged and exchanged for the value listed on the chip with the equivalent in live casino chips. The casino representative then takes the live casino chips back to the appropriate player-dealer.

When the player wagers with a one-time free play chip and the hand pushes (receives no action), the one-time free play chip(s) may be played again until the player loses a hand.

EXAMPLE: *A person receives a one-time free play coupon with a value of \$10.00. The player would take the coupon to the cage. A casino cage representative would log the redemption code of the coupon and exchange the coupon for a promotional one-time free play chip. The player would then place the one-time free play chip on the gaming table, pay the posted collection and the game would play.*

All controlled game rules shall be played as previously approved by the Bureau.

- EZ Baccarat Panda 8 (BGC ID: GEGA-003774)

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand and/or the dealer hand for the progressive jackpot. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter. The credits will be deducted from the player's bankroll meter depending on the hand(s) the player chooses. If the player chooses both the player and the dealer hand, then two credits will be deducted from the bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be accessed and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.

EZ Baccarat Panda 8 G3 Progressive Jackpot

- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play

1. The jackpot game aide system adds a player funded progressive jackpot element to the game of EZ Baccarat played in California Card rooms. The base game of EZ Baccarat that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 progressive jackpot.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 (1 credit = \$1) on their own hand. To limit the value of 1 credit to \$1, DEQ will program the software so that the credit amount can only be \$1 by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the house dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game. Then, if the round results in a Dragon 7 or a Panda 8 hand, the Dealer will resolve the progressive wagers according to the pay table below. A Dragon 7 hand is when a Banker's point count equals 7 with a total of three cards and Player's point count is lower than 7. In the case where Player's point count equals 8 with a total of three cards and Banker's point count is lower than 8, the house dealer declares the hand a "Panda 8".
6. If the cards dealt during the round result in a winning hand for the optional progressive wagers, the electronic Baccarat shoe (Hawk, Angel and Bee shoes) and G3 system will automatically recognize the winning hand and the system will ask for the casino employee's confirmation that the hand was in fact the recognized hand. Once the hand has been verified, the casino employee will press F1 or enter the appropriate Key to confirm the displayed prize (as required by the system's setup)
7. EZ Baccarat G3 Progressive Jackpot Pay Table:

All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive jackpot amount will be instantly updated to reflect the change.
- c. All fixed payouts will be paid by a casino employee. Once the proper verification has been done (in accordance with the casino's internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prizes:

- a. A Heavenly Dragon 7 pays 100% of the progressive jackpot amount shown on the progressive meter.
- b. A Mighty Panda 8 pays 10% of the progressive jackpot amount shown on the progressive meter.
- c. If the hand qualifies for a progressive prize, the amount of the progressive jackpot prize will be divided among all players who placed a fee for the progressive wager.
- d. Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.
- e. In the case of multiple linked tables, winners are paid in order in which the authorized personnel (supervisor or manager) authorize the wins. It is recommended to process tables in the order that the wins occur. **Note:** Left to the casino's internal controls discretion.
- f. At the end of the hand, the house dealer presses "STOP." This unlocks the G3 Progressive Jackpot Tracking Bet Managers so the next hand may begin.

Funding

1. All monies collected and paid out shall be tracked electronically and on a hand written log (for Progressive Prizes) that shall be maintained by the gambling enterprise, for examination by regulatory and law enforcement personnel. A sample log is attached.
2. The Casino will initially seed the jackpot at a minimum of \$1,000. Once there are sufficient monies in the G3 Progressive jackpot fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. After the progressive jackpot is hit it will be re-seeded by the reserve fund at a minimum of \$1,000 and a maximum of \$100,000. At any time, should the amount accumulated in the reserve fund reach \$100,000 then the G3 system will automatically generate a 2nd reserve and the portion of the jackpot fee (\$0.05) in excess of that \$100,000 will now be sent to that 2nd reserve fund. If that 2nd reserve fund reaches \$100,000, then any excess monies (\$0.05) will all be sent to the meter. In the event, the reserve fund does not have enough to cover the seed amount; the Casino will make up any shortfall.

 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- § With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- § With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter and when a player chooses to participate to the Jackpot Game, \$1.00 jackpot fee will be deducted from the player's bankroll meter.
- § The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.

G3 Buster Blackjack Progressive Jackpot

§ Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

Rules of Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to a Blackjack style game played in California Card rooms. The base Blackjack style game that this jackpot will be appended to must be approved by the Bureau to be eligible to add the Buster Blackjack Progressive.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1.00) on their own hand. To limit the fee to \$1.00, DEQ will program the software so that the fee amount can only be \$1.00 by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate to the Jackpot Game by pressing the "Player" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game.

G3 Progressive Jackpot Pay table:

Pay Table:

Hand	Pay table
"Progressive Prize"	
Player-Dealer busts with 8 or more cards	100% of Posted Prize
"Fixed Prizes"	
Player-Dealer busts with 7 cards	\$500
Player-Dealer busts with 6 cards	\$50
Player-Dealer busts with 5 cards	\$10
Player-Dealer busts with 4 cards	\$3
Associated Breakdown of a Collection Fee	
Progressive Meter	\$0.80
Reserve Fund	\$0.05
Administrative Fee	\$0.15

With these Pay Tables of the Buster Blackjack Progressive game, a "Hand" refers to the combination of the player/dealer's cards. To be eligible to win on the G3 Progressive Jackpot game, the player/dealer must receive a final score of more than 21 (a "busted hand"). The amount won on the G3 Progressive Jackpot game will be based on the

G3 Buster Blackjack Progressive Jackpot

number of cards in the player/dealer's busted hand. The amount won will increase with the total number of cards in the player/dealer's busted hand.

6. If the house dealer enters the wrong information, authorized personnel must resolve the situation using the Game Server features (see Figure 6 in Appendix 1).
7. If the house dealer makes a mistake while dealing the cards, he should declare the hand a misdeal, and re-deal the cards. Caution: the dealer must not press STOP. Each player's optional jackpot fee will remain the same during the re-dealt hand.

1. Fixed Prize:

- a. All fixed prizes can be paid directly to the winning players.
- b. All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive prize will be instantly updated to reflect the change
- c. All fixed payouts will be paid by a casino employee. Once the proper verification has been done (in accordance with the casino internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prize:

- a. A hand where the player/dealer gets a final score of more than 21 by using nine (8) or more cards is paid 100% of the progressive jackpot amount shown on the progressive meter.
- b. In the event that more than one player qualifies for the progressive prize during the same round, the posted prize will be split equally among those that qualified for a payout.
- c. Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.
- d. In the case of multiple linked tables, winners are paid in the order in which the wins occur.
- e. At the end of the hand, the dealer presses "STOP." This unlocks the G3 Progressive Jackpot Tracking Bet Managers so the next hand may begin.

3. All fixed prizes at a table will be paid first and all progressive prizes will be paid after all fixed prizes have been paid.

After the progressive jackpot is hit, it will be re-seeded by the reserve fund at a minimum of \$1000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.
3. Each jackpot fee paid by a player will be broken down as follows
 - a. \$0.80 will be immediately posted on the meter.
 - b. \$0.05 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize. When the reserve fund reaches \$100,000, a second reserve fund is started.
 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. Bureau Requirements

Advertising

The Tavern at Stones Gambling Hall may advertise various names for this gaming activity. Should The Tavern at Stones Gambling Hall advertise a different name, the BGC ID (GEGA-003786) listed below will be referenced on all advertisements relating to the Lucky Seat Promotion.

Furthermore, all rules and procedures for this promotion, including but not limited to the following, will be prominently displayed in The Tavern at Stones Gambling Hall at all times the promotion is being offered:

- Eligible games and time periods
- Eligible Dates and Times
- Specific Prize Amounts
- Only open to Player's Club Card members (GEGA-003790)
- Opportunity for No Purchase Necessary
- Any other restrictions that apply to this gaming activity

Eligible Controlled Games

The Lucky Seat Promotion shall be attached to all Bureau approved games for The Tavern at Stones Gambling Hall. All base game rules will be played as previously approved by the Bureau of Gambling Control.

Object and Summary

The Lucky Seat Promotion is a house funded fixed bonus prize promotion that awards players who are dealt in a card game a chance for their seat to be drawn and for that person to win a predetermined prize. The Tavern at Stones Gambling Hall will choose one of the two predetermined qualifying options, listed below, as the method to qualify for the prize. This promotion is restricted to Player's Club Members (GEGA-003790). Only one option will be used at any given time.

Option 1 – Pick a Seat/Pick a Table

Lucky Seat placards or balls corresponding to a seat will be placed in a drum or similar device by a casino representative. The placards or balls will be mixed blindly by hand in a drawing box or manually spun around in a drawing drum or manual bingo cage. After mixing, the numbered placards or balls will be drawn manually from a drum, or a similar non-electronic device, and the eligible "Lucky Seat" number and will be announced.

Once a Lucky Seat has been determined, it will be announced on the casino floor followed by a drawing for a table number. Table number placards or balls corresponding to the table numbers for all active live tables will be placed in a drum or similar device. The placards or balls will be mixed blindly by hand in a drawing box or manually spun around in a drawing drum or manual bingo cage. After mixing, a table number will be randomly drawn and announced on the casino floor. The patron occupying the Lucky Seat wins the prize if they are in their seat, if they are being tracked with their Player's Club Card (GEGA-003790), and if they played a hand before the announcement of the drawing. If the selected Lucky Seat number for the selected table is empty, the patron is not being tracked with their Player's Club Card, or the patron did not play a hand before the announcement of the draw, another table will be drawn until a winner is selected.

Lucky Seat Promotion

Option 2 – Pick a Seat/All Tables Win

Lucky Seat placards or balls corresponding to a seat will be placed in a drum or similar device by a casino representative. The placards or balls will be mixed blindly by hand in a drawing box or manually spun around in a drawing drum or manual bingo cage. After mixing, the numbered placards or balls will be drawn manually from a drum, or a similar non-electronic device, and a casino representative will announce the eligible Lucky Seat number. All patrons occupying those Lucky Seats at every eligible live gambling table will win the prize if they are in their seat, they are being tracked with their Player's Club Card (GEGA-003790) and they played a hand before the announcement of the draw. If the selected Lucky Seat number is empty, the patron is not being tracked with their Player's Club Card (GEGA-003790), or the patron did not play a hand before the announcement of the draw, no prize will be awarded to that specific seat.

Eligibility Requirements

This gaming activity will be open to all players who are seated and playing at any of the above listed controlled games during the pre-determined specified hours designated and posted for the gaming activity.

- To avoid differences in seat limitations between California and Poker games, the Casino will offer two separate Lucky Seat Promotions, one for California games and one for Poker games if the Casino wishes to offer all Bureau approved games at the same time (Poker tables may have more seats than some California Games).
- After a placard or ball is drawn to select a Lucky Seat, it will be placed back into the bin with the possibility to be drawn again.
- After a placard or ball is drawn to select a winning table, it will be placed back into the bin with the possibility to be drawn again.
- Players have up to 2 minutes to claim their prize. If no one claims the prize in the allotted time frame, another table will be drawn until a winner is selected.
- Casino representatives/employees will not be eligible to participate in this promotion at any time.

Lucky Seat Promotion

There shall be no additional promotion fees, jackpot fees, or collection fees taken in order to fund this gaming activity or for players to participate. Any shortfall will be funded by The Tavern at Stones Gambling Hall.

Administrative Fees

The Tavern at Stones Gambling Hall will not retain an administrative fee, as this gaming activity is house funded.

No Purchase Necessary Procedures

The Lucky Seat Promotion will be offered to customers who wish to participate for free, on a general and indiscriminate basis, with **no restrictions**. The Casino shall provide No Purchase Necessary tables for all patrons who request to participate in the gaming activity without paying a table fee or placing a live wager. The patrons who wish to participate in The Lucky Seat Promotion will pick an active seat number and an active table number and will fill out a form with the Casino Shift Manager with this information. If active seat number and active table number are selected, the patron will win the same prize. All advertisement material will state "No Purchase Necessary" when referencing the Lucky Seat Promotion. Furthermore, all rules and procedures for this gaming activity, including but not limited to the following, shall be displayed conspicuously and prominently in The Tavern at Stones Gambling Hall at all times that the gaming activity is being offered for play:

- Eligible games and time periods.
- Qualifying hands and their corresponding progressive and fixed prize amounts.
- Amount of jackpot collection fees.
- Availability of No Purchase Necessary.
- Any other restrictions that apply to this gaming activity.

Controlled Game

The Pai Gow Poker G3 Progressive Jackpot gaming activity shall be attached to all limits and versions of the currently approved games offered at The Tavern at Stones Gambling Hall, as listed below.

- Fortune Pai Gow Poker (BGC ID: GEGA-003773)
- EZ Pai Gow (BGC ID: GEGA-003771)

All controlled game rules shall be played as previously approved by the Bureau.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand or the player/banker hand for the progressive jackpot. A \$1.00 jackpot fee will be deducted from the player's bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.

Pai Gow Poker G3 Progressive Jackpot

Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to the game of Fortune Pai Gow Poker or EZ Pai Gow played in California Card rooms. The Pai Gow Poker style base game that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 Progressive jackpot.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 on their own hand and/or the player/banker hand. To limit the bet to \$1, DEQ will deactivate the option for the casino to have the bet amount more than \$1 by making an entry on the XML File. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" and/or "Dealer" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the house dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game.
6. G3 Progressive Jackpot Pay Table (used for both the Player's and Player/Banker's hands): Each of the qualifying hands listed below takes into account all seven cards dealt as a player's hand. If a player's seven cards can be made into multiple qualifying hands, only the highest paid hand qualifies for a prize.

Hand	Pay table
"Progressive Prizes"	
5 Aces	100% of Posted Prize
"Fixed Prizes"	
Five of a Kind	\$1,000
Royal Flush	\$500
Straight Flush	\$100
Four of a Kind	\$50
Full House	\$4
Associated Breakdown of \$1.00 Collection Fee	
Progressive Meter	\$0.80
Reserve Fund	\$0.05
Administrative Fee	\$0.15

Pai Gow Poker G3 Progressive Jackpot

Prizes:

1. Fixed Prizes:

- a. All fixed prizes won on either a player's or the player/banker's hand will be paid directly to the winning players.
- b. If the player-dealer's hand qualifies for a fixed prize, each player that has placed a jackpot fee on the player-dealer's hand will be awarded the full amount of the fixed prize. All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive jackpot amount will be instantly updated to reflect the change.
- c. All fixed payouts will be paid by a Casino employee. Once the proper verification has been done (in accordance with the Casino's internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prizes:

- a. Five Aces pays 100% of the progressive jackpot amount shown on the progressive meter.
- b. If the player-dealer hand qualifies for a progressive prize, the amount of the progressive jackpot prize will be divided among all players who placed a fee for the player-dealer's hand.
- c. If a player's hand qualifies for a progressive prize, the full amount of the progressive jackpot prize, according to the pay table, will be paid to the player that qualified.
- d. In the event that more than one progressive prize hits during the same round, the jackpot prize amount will be paid as follows:
 1. If more than one player's hand qualifies for a progressive prize, the prize will be split equally among those that qualified for a payout.
 2. If one player's hand and the player/dealer's hand both qualify for a progressive prize, the player that bet on their own hand will receive 50% of the jackpot prize and the remaining 50% will be split equally among those player's that bet on the player/dealer's hand.

All fixed prizes will be paid first and all progressive prizes will be paid after all fixed prizes have been paid.

Funding:

1. All monies collected and paid out shall be tracked electronically and on a hand written log (for Progressive Prizes) that shall be maintained by the gambling enterprise, for examination by regulatory and law enforcement personnel. A sample log is attached.
2. The Casino will initially seed the jackpot at a minimum of \$1,000, there is no maximum. Once there are sufficient monies in the Pai Gow Poker Progressive jackpot fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. After the progressive jackpot is hit, it will be re-seeded by the reserve fund at a minimum of \$1,000, there is no maximum. At any time, should the amount accumulated in a reserve fund reach \$100,000, then the G3 system will automatically generate an additional reserve fund. The amount of the jackpot fee (\$0.05) designated for the reserve fund, will now be sent to the succeeding reserve fund, until it also reaches \$100,000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.

Pai Gow Poker G3 Progressive Jackpot

3. Each \$1.00 jackpot fee paid by a player will be broken down as follows
 - a. \$0.80 will be immediately posted on the meter.
 - b. \$0.05 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.
 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Eligibility & Irregularities:

1. Only players seated at the table are eligible to win. Back-line bettors are not eligible for the Pai Gow G3 Progressive Jackpot.
2. A minimum of two players, a player and a player-dealer, must be dealt into the game in order for the table to qualify for the Pai Gow Poker G3 Progressive Jackpot.
3. A player is eligible for a Pai Gow Poker G3 Progressive Jackpot prize payout regardless of whether their hand wins, loses, or ties with the player-dealer's for the controlled game of Fortune Pai Gow Poker or EZ Pai Gow.
4. A Third Party Provider of Proposition Player Services (TPPPS) is not eligible to place a jackpot collection fee and become eligible for the Pai Gow Poker G3 Progressive Jackpot gaming activity when in either the player-dealer or player capacity.
5. All procedures, times, and prize amounts shall be displayed prominently via any form of advertising that The Tavern at Stones Gambling Hall wishes to utilize, including but not limited to printed flyers, digital display, the Casino's website, etc.
6. If the house dealer enters the wrong information, authorized personnel must resolve the situation using the Game Server features (see Figure 6 in Appendix 1).
7. If the house dealer makes a mistake while dealing the cards, he should declare the hand a misdeal, and re-deal the cards. Caution: the dealer must not press STOP. Each player's optional jackpot fee will remain the same during the re-dealt hand.

Rules of Play

The Spin the Wheel Promotion is a bonus prize promotion that awards players, who are dealt into a card game, with the chance to spin a large wheel decorated with between 6-50 sections with posted prizes, when they earn the opportunity to spin the wheel. The cash or prize that the wheel's arrow points to is immediately awarded to the participant. Players will earn the chance to spin the wheel in two ways:

High Card Selection

All tables in the Tavern at Stones Gambling Hall shall have a corresponding ping pong ball that will represent that table number. A designated Tavern at Stones Gambling Hall floor person shall determine which game tables have four or more players at a poker table and two or more players at a California game table. He or she shall place those table numbers into a drawing drum. A designated floor person shall then draw a ball for the winning table. The designated shift manager shall then bring a standard deck of cards to the winning table. Each card will be of a different rank, the highest possible card shall be an ace and the lowest a 2. The cards will be scrambled face-down on the table, and each seated player will draw one card. The player who draws the highest ranking card shall then take their turn at spinning the wheel. In the event that two or more players draw a card that is equal in value, then the suit ranking will determine

Spin the Wheel

the player that spins the wheel. Spades shall be the highest ranking suit, followed by hearts, diamonds, and clubs.

Qualifying Hands

A player who has one of the qualifying hands listed below shall earn the right to spin the wheel and earn one of the prizes listed on the wheel. In all poker games, both player's hole cards must play. All qualifying hands within a chart must be offered concurrently. The Casino may only offer one chart during a promotional period.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand and/or the dealer hand for the progressive jackpot. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter. The credits will be deducted from the player's bankroll meter depending on the hand(s) the player chooses. If the player chooses both the player and the dealer hand, then two credits will be deducted from the bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be accessed and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be

Three Card Poker G3 Progressive Jackpot

done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.

- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to the game of Three Card Poker played in California Card rooms. The base game of Three Card Poker that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 progressive jackpot.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1) on their own hand and/or the dealer hand. To limit the fee to \$1, DEQ will program the software so that the fee amount can only be \$1 for each hand (possible total fee of \$2) by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the jackpot game by pressing the "Player" and/or "Dealer" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 2 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 4 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game. After all players and the dealer have been dealt their three card hands, the house dealer also sets aside two cards face down. These two cards are community cards which are used by all participating players in combination with their respective three cards to complete their five card hands which will be used to resolve the G3 progressive jackpot wager. These two community cards are turned over before the house dealer starts resolving the wagers.
6. 5 Card Hand Bonus G3 Progressive Jackpot Pay Table (used for both the Player's and Dealer's hands):

Royal Flush	100% of Posted Prize
Straight Flush	10% of Posted Prize

Straight	\$25

Associated Breakdown of \$1.00 Collection Fee

Prizes:

1. Fixed Prizes:

- a. All fixed prizes won on either the player or dealer hand will be paid directly to the winning players.
- b. If the dealer hand qualifies for a fixed prize, each player that has placed a jackpot fee on the dealer hand will be awarded the full amount of the fixed prize. All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive jackpot amount will be instantly updated to reflect the change.
- c. All fixed payouts will be paid by a Casino employee. Once the proper verification has been done (in accordance with the casino's internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prizes:

- a. A Royal Flush pays 100% of the progressive jackpot amount shown on the progressive meter.
- b. A Straight Flush pays 10% of the progressive jackpot amount shown on the progressive meter.
- c. If the dealer hand qualifies for a progressive prize, the amount of the progressive jackpot prize will be divided among all players who placed a fee for the dealer's hand.
- d. If a player's hand qualifies for a progressive prize, the full amount of the progressive jackpot prize, according to the pay table, will be paid to the player that qualified.
- e. In the event that more than one progressive prize hits during the same round, the jackpot prize amount will be paid as follows:
 - i. If more than one player's hand qualifies for a progressive prize, the prize will be split equally among those that qualified for a payout.
 - ii. If one player's hand and the dealer's hand both qualify for a progressive prize, the player that bet on their own hand will receive 50% of jackpot prize and the remaining 50% will be split equally among those player's that bet on the dealer hand.
- f. Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.
- g. In the case of multiple linked tables (i.e. using the same pay table), winners are paid in the order in which the wins occur.
- h. At the end of the hand, the house dealer presses "STOP." This unlocks the G3 Progressive Jackpot Tracking Bet Managers so the next hand may begin.

Three Card Poker G3 Progressive Jackpot

All fixed prizes at a table will be paid first and all progressive prizes will be paid after all fixed prizes have been paid.

Funding:

1. All monies collected and paid out shall be tracked electronically and on a hand written log (for Progressive Prizes) that shall be maintained by the gambling enterprise, for examination by regulatory and law enforcement personnel. A sample log is attached.
2. The Casino will initially seed the jackpot at a minimum of \$1,000. Once there are sufficient monies in the Three Card Poker Progressive jackpot fund, the initial seed will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. After the progressive jackpot is hit, it will be re-seeded by the reserve fund at a minimum of \$1,000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.
3. Each \$1.00 jackpot fee paid by a player will be broken down as follows
 - a. \$0.80 will be immediately posted on the meter.
 - b. \$0.05 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.
 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Eligibility & Irregularities:

The prize shall be awarded to a player(s) and/or player-dealer when they have made, and such has been recorded by Casino personnel, the pre-determined and designated qualifying hands as listed above.

1. Only players seated at the table are eligible to win. Back-line bettors are not eligible to place a jackpot collection fee nor receive the prize amount for a qualifying hand.
2. A minimum of two players, a player and a player-dealer, must be dealt into the game in order for the table to qualify for the Three Card Poker G3 Progressive Jackpot gaming activity.

- Once all players place their bets and/or jackpot fee, the house dealer will press “Coin In” on the keypad. The sensors will then light up, indicating participation in the progressive jackpot. The house dealer will then remove all jackpot fees from the table. The jackpot fees are dropped in a separate and locked jackpot collection box affixed to the gaming table.
- The house dealer then follows standard approved procedures for dealing the base game.

Prize

Progressive Prize

- When a player is dealt an ace, king, queen of spades, the player is awarded 100% of the progressive jackpot shown on the progressive meter. When a player is dealt an ace, king, queen of either hearts, diamonds or clubs they are paid 10% of the posted progressive jackpot shown on the progressive meter.
- All other hands are paid from the reserve fund. They do not get deducted from the amount shown on the meter.
- In the event more than one progressive meter pay or any other qualifying hand hits during the same round, all winning players will be paid the posted progressive prize.
- When more than one progressive prize payout hits, one progressive prize payout will be paid from the meter and the others will be paid from the reserve fund. The Casino will cover any shortfalls and be reimbursed once the reserve account has sufficient funds.
- All progressive prize payouts will be paid by a Casino representative. Once the proper paperwork has been filled out, the Casino representative will pay the winner(s) in live casino chips. The progressive prize payouts will not be made from the house dealer's tray.

Fixed Prize

- When a player is dealt a straight flush, they are paid a fixed prize amount according to the payout table above.
- All fixed prize payouts will be paid by a Casino representative. Once the proper paperwork has been filled out, the Casino representative will pay the winner(s) in live casino chips. The payouts will not be made from the house dealer's tray. All fixed prize payouts will be deducted from the amount in the reserve fund.

Envy Bonus

- A player paying the \$1 jackpot fee qualifies to win an envy payout. If another player at the table hits a hand associated with an envy pay, all other players who paid the \$1 jackpot fee will win the envy pay. The player hitting the hand received the normal prize pay only, but does NOT receive the envy pay.
- If a player's hand triggers an envy payout, the house dealer will leave the hand face-up on the layout; otherwise, the house dealer will lock up the cards. The house dealer will then move on to the next player.
- All Envy Bonus payouts will be paid by a Casino representative at the end of the round. Once the proper paperwork has been filled out, the Casino representative will pay the winner(s) in live casino chips. The payouts will not be made from the house dealer's tray. All Envy Bonus payouts will be deducted from the amount in the reserve fund.

Prize Payout Structure

Players who achieve an ace, king and queen of spades will be awarded 100% of the posted progressive jackpot prize. Players who achieve an ace, king and queen of either hearts, clubs or diamonds will awarded 10% of the posted progressive jackpot prize. Players who achieve a Straight Flush will be awarded \$100 fixed jackpot prize. If a player achieves a Royal Flush progressive prize, all other players who paid the jackpot fee will be awarded \$100 Envy Bonus.

The Casino has the option of running the progressive and fixed jackpots by multipliers of 1-10 times. The multiplier must be added to both the fixed and progressive jackpots. Days and times for the multiplier will be clearly defined and advertised in literature and casino signage. The Casino would use money from the Three Card Poker Progressive Jackpot reserve fund only to increase the jackpot for certain periods of time.

EXAMPLE: For the next two hours a 5 times multiplier is added to the fixed and progressive jackpots, if one or both of the jackpots is won during the 5 times multiplier timeframe, the jackpot payout will be 5 times the advertised prize amount.

If there is a shortfall in the reserve fund when the multiplier is applied, the Casino will cover the shortfall. When there is sufficient money in the reserve fund, the multiplier shortfall the Casino covered will be reimbursed to the Casino. Furthermore, the Casino may not add additional monies to the progressive meter. When the multiplier option is added to the progressive prize meter, the monies will come from the Three Card Poker Progressive Jackpot reserve fund only.

Funding

The Three Card Poker Progressive Jackpot is a player funded progressive jackpot. The jackpot features both fixed and progressive prizes. There is a \$1 jackpot fee required to be eligible for the prize. The jackpot fee must be placed along with a base game wager in order to participate in the jackpot.

Each \$1 jackpot fee paid by a player will be broken down as follows:

- \$0.31 will be immediately posted on the meter.
- \$0.69 will be tracked in a reserve fund. The reserve fund will be utilized to payout all fixed prize amounts; and reseed the metered progressive jackpot prize between \$1,000-\$50,000.

The Casino will initially seed the jackpot at a range of \$1,000-\$50,000. There is no cap to the Three Card Poker Progressive Jackpot. Once there are sufficient monies in the Three Card Poker Progressive Jackpot reserve fund, the initial seed will be reimbursed to the Casino.

After the progressive jackpot is hit, the progressive jackpot will be re-seeded by the reserve fund at an amount ranging between a minimum of \$1,000-\$50,000. In addition, the reserve fund will be used to pay out all fixed prize amounts. In the event the reserve fund is depleted, the Casino will make up any shortfall.

Once there are sufficient monies in the reserve fund, the re-seed amount will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. All increases and decreases to the Three Card Poker Progressive Jackpot fund shall be documented in the accounting records.

Controlled Game

The Ultimate Texas Hold'em G3 Progressive Jackpot gaming activity shall be attached to all limits and versions of the currently approved games offered at The Tavern at Stones Gambling Hall, as listed below.

- Ultimate Texas Hold'em (GEGA-003777)

All controlled game rules shall be played as previously approved by the Bureau.

Summary & Background

This Prepaid Players' Jackpot Game Aide System replaces the existing "Hockey Puck" Progressive Jackpot Meter System that has been installed as a Game Aide to Caribbean Stud Poker, and in use since 2004. The primary differences between the proposed Prepaid Players' Jackpot Game Aide System and the existing "Hockey Puck" Progressive Jackpot Meter System are as follows:

- With the Hockey Puck System, players need to pay the jackpot fee using a chip with a \$1.00 value every time they choose to wager on the progressive jackpot. The wagers are collected and deposited into the jackpot drop box on the left of the dealer, separate from the house collection.
- With the Prepaid Players' Jackpot Game Aide System, a player that wishes to be eligible for the jackpot will provide the house dealer with chips or cash not to exceed \$100.00. This prepaid money will be credited to the individual meter in front of that player's seated position. Each player will choose the player hand and/or the dealer hand for the progressive jackpot. A \$1.00 jackpot fee is equal to one credit on the player's bankroll meter. The credits will be deducted from the player's bankroll meter depending on the hand(s) the player chooses. If the player chooses both the player and the dealer hand, then two credits will be deducted from the bankroll meter.
- The G3 features an XML file that contains various options that can be activated or not. The XML file can only be access and modified by DEQ. This XML file is mandatory for the G3 to run, and cannot be modified manually as it is encrypted using a very secure algorithm. The mystery prize options, like the Lucky Dealer, Lucky Player, and Magic

Ultimate Texas Hold'em G3 Progressive Jackpot

Card prizes, can be deactivated by an entry in our encrypted XML file. This can only be done by DEQ, and will be part of all software setups for the card rooms. No other prizes will be awarded to any player with the exception of pay chart set forth below.

- Additionally, the Prepaid Players' Jackpot Game Aide System does not use any Random Number Generator (RNG) in its operation.

How Does It Play:

1. The jackpot game aide system adds a player funded progressive jackpot element to the game of Ultimate Texas Hold'em played in California Card rooms. The base game of Ultimate Texas Hold'em that this jackpot will be appended to must be approved by the Bureau to be eligible to add the G3 progressive jackpot.
2. To begin each round, players must make their regular base game wager. They may optionally place a jackpot fee of \$1.00 or one credit (1 credit = \$1) on their own hand and/or the dealer hand. To limit the fee to \$1, DEQ will program the software so that the fee amount can only be \$1 for each hand (possible total fee of \$2) by specifying it in the secure setup of the system. This can only be done by DEQ, and will be part of all software setups for the California card rooms.
3. A G3 Progressive Jackpot Tracking Bet Manager (see Figure 2 in Appendix 1) is installed on the table in front of each betting position.
 - a. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter.
 - b. Once the meter shows the credits, the player may choose when to participate in the Jackpot Game by pressing the "Player" and/or "Dealer" button on the Jackpot Tracking Bet Manager.
4. Once all players have placed their base game wager and jackpot fee, the house dealer will press "Start" on the Dealer Interface (see Figure 3 in Appendix 1). This will light up the G3 Progressive Jackpot Tracking Bet Manager, indicating participation in the progressive jackpot and will lock them until the house dealer presses the "Stop" button. The appropriate amount of money gathered will also be sent to the G3 Progressive Jackpot Tracking LCD meter sign (see Figure 5 in Appendix 1).
5. The house dealer then follows standard approved procedures for dealing the base game. To resolve the G3 Progressive Jackpot wager, the Player's Hand consists of the player's initial two cards in combination with the first three community cards (flop) and the Dealer's Hand consists of the dealer's initial two cards in combination with the first three community cards (flop).
6. 5 Card Hand Bonus G3 Progressive Jackpot Pay Table (used for both the Player's and Dealer's Hands):

Prizes:

1. Fixed Prizes:

- a. All fixed prizes won on either the player or dealer hand will be paid directly to the winning players.
- b. If the dealer hand qualifies for a fixed prize, each player that has placed a jackpot fee on the dealer hand will be awarded the full amount of the fixed prize. All fixed payouts will be deducted from the amount shown on the progressive meter. The posted progressive jackpot amount will be instantly updated to reflect the change.
- c. All fixed payouts will be paid by a casino employee. Once the proper verification has been done (in accordance with the casino's internal controls), the casino employee will pay the fixed win(s) into the player's personal bet manager.

2. Progressive Prizes:

- a. A Royal Flush pays 100% of the progressive jackpot amount shown on the progressive meter.
- b. A Straight Flush pays 10% of the progressive jackpot amount shown on the progressive meter.
- c. If the dealer hand qualifies for a progressive prize, the amount of the progressive jackpot prize will be divided among all players who placed a fee for the dealer's hand.
- d. If a player's hand qualifies for a progressive prize, the full amount of the progressive jackpot prize, according to the pay table, will be paid to the player that qualified.
- e. In the event that more than one progressive prize hits during the same round, the jackpot prize amount will be paid as follows:
 - i. If more than one player's hand qualifies for a progressive prize, the prize will be split equally among those that qualified for a payout.
 - ii. If one player's hand and the dealer's hand both qualify for a progressive prize, the player that bet on their own hand will receive 50% of jackpot prize and the remaining 50% will be split equally among those player's that bet on the dealer hand.
- f. Once the casino verifies a progressive win, the authorized personnel (i.e. supervisor or manager) shall perform the appropriate payment procedure.

Ultimate Texas Hold'em G3 Progressive Jackpot

- g. In the case of multiple linked tables (i.e. using the same pay table), winners are paid in the order in which the wins occur.
 - h. At the end of the hand, the house dealer presses "STOP." This unlocks the G3 Progressive Jackpot Tracking Bet Managers so the next hand may begin.
3. All fixed prizes at a table will be paid first and all progressive prizes will be paid after all fixed prizes have been paid.

Funding:

1. All monies collected and paid out shall be tracked electronically and on a hand written log (for Progressive Prizes) that shall be maintained by the gambling enterprise, for examination by regulatory and law enforcement personnel. A sample log is attached.
2. The Casino will initially seed the jackpot at a minimum of \$1,000, there is no maximum amount. Once there are sufficient monies in the Ultimate Texas Hold'em Progressive jackpot fund, the initial seed money will be reimbursed to the Casino from the reserve fund and shall be documented in the accounting records. After the progressive jackpot is hit, it will be re-seeded by the reserve fund at a minimum of \$1,000, there is no maximum amount. At any time, should the amount accumulated in a reserve fund reach \$100,000 then the G3 system will automatically generate an additional reserve fund. The amount of the jackpot fee (\$0.05) designated for the reserve fund, will now be sent to the succeeding reserve fund, until it also reaches \$100,000. In the event the reserve fund does not have enough to cover the seed amount, the Casino will make up any shortfall.
3. Each \$1.00 jackpot fee paid by a player will be broken down as follows
 - a. \$0.80 will be immediately posted on the meter.
 - b. \$0.05 will be tracked in a reserve fund. The reserve fund will be utilized to immediately reseed the metered progressive jackpot prize.
 - c. \$0.15 will be retained by the Casino as an administrative fee.
4. Each player has the option to pay the house dealer any amount not exceeding \$100 to have credits placed on his/her bankroll meter. All monies paid toward credits on the bankroll meter will be dropped into a separate and locked drop box specifically designated for jackpot collection fees. If a player decides to leave the table and still has money on his/her bankroll meter, the house dealer will call over a floor person and have a receipt printed out for the amount cashed out. The receipt will be kept by the casino employee for reconciliation purposes at the end of their shift. The casino employee will then reimburse the player in chips for the amount shown on that player's bankroll meter which will match the amount on the printed receipt.

Eligibility & Irregularities:

The prize shall be awarded to a player(s) and/or player-dealer when they have made, and such has been recorded by Casino personnel, the pre-determined and designated qualifying hands as listed above.
