Object and Summary

Patrons are awarded Match Play or Lucky Buck/Lucky Chip coupons via advertisements in magazines, websites, mailing advertisements, location placement (e.g. come into the bar and receive a Match Play or Lucky Buck coupon), during pre-determined and posted times (e.g. come in between 7am-9am and receive a Match Play or Lucky Buck/Lucky Chip coupon), first time players, etc. After a player receives a coupon, he/she shall write their name or player rewards card number (GEGA-002831) on the back for identification and record keeping. Players who receive a Lucky Buck/Lucky Chip coupon will be eligible to win the specific amount printed on the chip without placing a wager.

Match Play Coupon

The Casino will offer Match Play coupons having a face value from \$5 to \$50 per coupon. The amount will be clearly stated on the coupon. Each coupon will state the specific qualifying game(s) for which the coupon may be used. When playing the Match Play coupon, the player must place a wager next to the Match Play coupon, in the betting circle, which is equal to the amount of the Match Play coupon. The player will pay the posted collection (if applicable) for a single hand of play. The collection fee will be based solely on the player's wager and does not include the Match Play coupon's value as part of the collection. A player's winning hand will be paid his/her wager as well as the listed amount on the Match Play coupon by the player-dealer. The player-dealer will then have a floor person sign the coupon verifying that it has been won. Winning coupons are taken to the cage by the floor person, logged, and exchanged for the value listed on the coupon(s). That amount is then returned to the player-dealer. If a player loses, the money part of the wager is collected by the player-dealer, and the coupon is voided and collected by the house dealer. If the player pushes (receives no action), the coupon may be played again until the player wins or loses a hand.

Match Play Promotion

EXAMPLE: *A person receives a Match Play coupon with a value of \$5 that specifically states it may be used to place a wager on the Pai Gow Poker table. The person would place the coupon on the gaming table; place a bet that matches the amount on the coupon, and pay the posted collection (if applicable) for a single hand of play. If the player wins the hand, he/she will receive \$10 just as if they had placed a \$10 bet and the player-dealer will collect the coupon.*

Lucky Buck/Lucky Chip

The Casino will offer Lucky Buck/Lucky Chips having a face value from \$5 to \$50 per chip. The Lucky Buck/Lucky Chip are used in live games exactly like regular chips, the difference being that they cannot be exchanged for cash.

The Lucky Chips shall initially be in the form of a Lucky Buck coupon which shall be offered to all patrons that wish to come into the Casino and use them to play. Patrons may be awarded Lucky Buck coupons via advertisements in magazines, websites, mailing advertisements, location placement (for example come into the bar and receive a Lucky Buck coupon), during pre-determined and posted times (for example come in between 7am-9am and receive a Lucky Buck coupon), first time players, etc. When a patron receives a Lucky Buck coupon he/she shall take the coupon to the cage for verification, logging, and redemption of the Lucky Chip(s) to be used in a live game. Each coupon shall state the specific qualifying game(s) that the Lucky Chip(s) may be used on.

Lucky Chips shall be used as the player's bet and placed on the betting circle. The player will pay the posted collection (if applicable) for a single hand of play. Lucky Chips shall not be taken into the dealer's tray, nor shall they be paid from the dealer's tray. The Lucky Chip will be collected by the person in the player-dealer position who will then have a floor person verify that the chip has been played. The Lucky Chip is taken to the cage by a floor person, logged, and exchanged for the value listed on the chip and the amount designated on the Lucky Chip is paid to the player-dealer. If the player loses the hand, the Lucky Chip is forfeited and will be collected by the casino dealer and dropped in the drop box for accounting purposes. If the player pushes (receives no action), the chip(s) may be played again until the player wins or loses a hand.

EXAMPLE: *A person receives a Lucky Buck coupon for \$10 that specifically states it can be used to place a wager on the No Bust Blackjack table. The player would take the coupon to the cage. Cage personnel would log the redemption code of the coupon and exchange the coupon for a promotional Lucky Chip. The player would then place the Lucky Chip on the gaming table, pay the posted collection (if applicable), and the hand would be played.*

Application for Gaming Activity Review: Section III: Question & Answer

1. Name of Proposed Gaming Activity:

Player Rebates

2. Name each controlled game that is associated with this gaming activity:

Texas Hold'em, Omaha Hi-Lo, Lowball, Pineapple Hi-Lo, Pai Gow Poker, Pure 21.5 Blackjack, Three Card Poker and Three Card Hold'em. The games being offered in this promotion will be pre-designated and posted well in advance of the promotion beginning.

3. Describe any Jackpot or any other type of prize awarded:

A cash amount (paid in casino chips) will be awarded to a pre-determined number of players who play a pre-determined and specific number of hours (not to exceed 3 hours) in a controlled game.

TPR may also offer merchandise to include, but not limited to electronics, gift cards, merchandise, clothing, tournament entries, and tickets to attractions.

The maximum value of any gift or cash will be \$1000.00 total for any one day period of play. The amount of hours that are required to be played along with how many chips will be given to each player per hour will be pre-determined and clearly posted.

Players must collect their cash or merchandise prize at the time they are awarded, and before the next qualifying period begins. Players are not allowed to carry-over or accumulate hours from one qualifying period to another. As an example – Between 4A and 9A, players earn \$10 per hour of playing time in one hour increments. Between 12P and 5P, players earn \$20 per hour of playing time in one hour increments. The players who earned their hours between 4A and 9A would have to collect their prize for those hours before 12P, when the next qualifying period begins. Un-claimed hours will be forfeited at the start of the next qualifying period or close of business for that day, whichever occurs first.

4. If a cash prize is involved, is the amount progressive or a fixed amount?

Fixed amount

5. Explain if the gaming activity is House funded or player funded:

House funded.

6. Describe any special fee collection involved in this gaming activity, for example, a Jackpot collection fee.

There will be no additional fees collected.

7. Describe how the Jackpot will be seeded and how prizes will be awarded.

There is no jackpot. All cash or merchandise is awarded based upon the hours that a player plays.

The minimum number of hours required to receive the bonus will be a minimum of one (1) and a maximum of three (3). No prize award will be based on a percentage or the amount of monies wagered by a particular player within this promotion.

Example: TPR posts beforehand that between the hours of 4a and 10a, any player who plays during that time period for a minimum of 2 hours will receive a bonus of \$20/hour. A player then arrives at 5a, signs up for a poker game and is directed to a table by the Floor Supervisor on duty. The Floor Supervisor then records the beginning time that the player sits down by recording the time in a tracking log. The player in this example plays until 7a and is then prepared to leave. The Floor Supervisor informs him that he is awarded \$40 due to his play and pays the player in chips or cash, at his request.

A player may participate in this promotion as often as they desire. Prizes will be awarded as detailed under question #3 (see above).

8. Explain any prize distribution including prizes given to the winner, loser, or any other player or patron.

There are no winners or losers in this promotion as it is not a promotion of chance. All patrons who meet the posted criteria are eligible for the bonus chips.

9. Explain any re-seeding of the fund once the prize is won.

N/A

10. Explain any minimum or maximum number of players required to be dealt into the game for the table to be eligible for the gaming and activity prize.

No Minimum

11. Explain if the house is retaining any administrative or any other type of fee operating the game activity.

No additional fees

12. Describe any opportunity(s) for the person to play for the prize without placing any live wagers or paying any table fees.

Since there is no "chance" element, the provision for No Purchase Necessary does not apply.

13. Provide copies of any published/proposed promotion or advertisement literature.

Advertisements will be created after approval of the promotion. All advertisements shall state the following information:

The time required to be played to earn the prize. The number of participants that the promotion is limited to. The dates(s) and time(s) the promotion shall be offered. The games eligible for the promotion. The prize earned for meeting the requirements of the promotion. Any other applicable restrictions. ***Player Rebates Promotion is for promotional use only. Participants of the promotion are not employees (prop players) or representatives of the Turlock Poker Room.***

- 14. Identify any entity or person other than those licensed as the house involved in the gaming activity.**

N/A

- 15. Describe the type of table and equipment utilized for the gaming activity.**

No additional equipment is needed beyond what is required to run each previously approved game.

3. Describe any Jackpot or any other type of prize awarded:

Players will be able to redeem their points at a rate of \$1.00 per 100 points earned. All points that a player redeems shall be paid out as cash. At the request of a patron, points may be cashed out to purchase food comps/discounts, tournament entries/discounts, special event entry fees, merchandise, gift shop items, or may be used to purchase gaming chips at which point a Turlock Poker Room employee will reduce the player's reward card account by the amount necessary to purchase the requested item.

4. If a cash prize is involved, is the amount progressive or a fixed amount?

Fixed based on points earned.

5. Explain if the gaming activity is House funded or player funded:

House funded.

6. Describe any special fee collection involved in this gaming activity, for example, a Jackpot collection fee.

No additional fees.

7. Describe how the Jackpot will be seeded and how prizes will be awarded.

The proposed Player Rewards Card is a loyalty rewards program open to any Turlock Poker Room patron free-of-charge. The program will reward seated and playing cardholders with points based on hours of play at a given table.

Any patron of the Turlock Poker Room can sign up for a player rewards card at no cost.

Card Description

The player rewards card will include the following information on the front of the card:

- The Turlock Poker Room's Logo.

The player rewards card will include the following information on the back of the card:

- A photo of the player, which will be taken on the date the card is signed up for and created.
- The patrons name.
- The number of the card which is unique to that patron and to the Click Point Software.
- Descriptive language regarding the card and its restrictions.
- A 'Responsible Gambling' message, including the phone number and website for help.
- A barcode unique to the patron's card in the Click Point Software system.

All player information and hours will be logged, tracked, and stored safely in the Click Point Software system. Only management has access to sensitive areas of the system, which includes a history of members' gaming activity within the casino, point redemption history & other data available for analysis. The permission levels for Turlock Poker Room staff are controlled by a Licensee. All staff members with a user name and password (which include cashiers, floor persons & customer service associates) are given minimum access to the Rewards System simply to allow them to perform their duties associated with the Rewards System which can include signing up new members, redeeming points for members & checking membership status. All player information will be maintained in a secure database accessed only by management personnel. The database will be backed up daily. Access to the database will be tracked.

All point structures for a particular promotion will be pre-determined and posted throughout the gaming floor and on all literature. Points can be earned by the amount of time played and can be combined from both live and tournament play, as well as when a player transitions from tournament play to live play. The range of points will be from one hundred (100) to three hundred (300) points per each hour of live play. When a patron enters a tournament, they will be awarded an amount of points, which shall not be based on the amount of time played in the tournament, ranging from twenty-five (25) to two hundred and fifty (250). When a player transitions from tournament play to live play, that player will receive between one hundred (100) to five hundred (500) points for the first hour of play after exiting a tournament and transitioning to live play. This is restricted to only one (1) bonus per day. The bonus points that are awarded for transitioning from tournament play to live play are not a fixed amount. The bonus earn rate is as follows: a multiplier set by the licensee, multiplied by the base rate of earning for that game and time of day equals the amount of points awarded. (i.e. If bonus multiplier is 2 and standard rate of earning is 100 points per hour, then the member would be awarded 200 points for the first hour of play after transitioning from tournament play.) However, the amount awarded shall never be less than one hundred (100) points or more than five hundred (500) points.

- Turlock Poker Room may offer bonus earn rates on play during off-peak hours or in specific games, between the range provided above.
- The earn rates and schedules will be open to all patrons of Turlock Poker Room.
- The earn rates will not differentiate based on the table limit of any game.
- All hours that are tracked shall be made available when a player requests to see their status. Players may request to verify how many points they have earned. Upon request, a floorperson will immediately notify that player of how many points they have earned. Players can also ask to see how many points they've accrued by asking

- an employee to scan their card. The player will then be shown a record of the points they've earned up to the exact time. A printable record of the points earned will also be made available to customers.
- Points are non-transferrable, and are for use by the patron who earned them only.
 - A player wishing to redeem points can ask an employee to redeem their points for food comps/discounts, tournament entries/discounts, special event entry fees, merchandise, gift shop items, or may be used to purchase gaming chips according to the cash equivalent, at which point a Turlock Poker Room employee will reduce the player's reward card account by the amount necessary to purchase the requested item. The employee will check the cardholder versus the picture on the card and scan the Rewards Card to determine if the player's rewards card holds enough of a balance to be red-deem for the requested item. If so, the employee shall issue the requested item and the corresponding points will be automatically deducted from the player's unused points.
 - Any points not redeemed in a six-month period from the date that the points were scanned and recorded into the system will be purged from the system.
 - Only the licensee will have the access and the ability to add points manually. The only instance where points would need to be added manually would be in the case of user or system error (i.e. accidentally deducting too many points during a coupon issuance) or to restore a member's account. In all other instances, no points will be manually entered into the system to award points to a player and will only be tracked an added based on the scans.

The card will work as follows:

Any patron can request a Rewards Card at no charge. A designated Turlock Poker Room employee will then input the patron's name, address information and take a head shot photo. A Turlock Poker Room employee will then issue a card. The card will be non-transferable.

A player will present their card when they are seated at an eligible game to establish a start time of play. Their card will then be scanned, which will enter them into the system. An employee will visit each table in the poker room on the hour, approximately 15 minutes after each hour, and ask players with rewards cards present their cards. The employee will input the type of table and scan each player card using a handheld, wireless scanner. A player will only earn points based on the time that they were scanned in upon sitting at a table and for each hourly scan that they are scanned. Furthermore, a player's rewards card will only be scanned when they are seated at an eligible game and during each hourly scan, not upon the exit of the player prior to each hourly scan.

For example: If a player sits down at a table at 5:30, they will be scanned into the system. The hourly scan occurs at the beginning of each hour. The player will then get their card scanned at 6:00, which will log 30 minutes of time on their rewards card. If the player plays until 6:30, they will not get credit for the additional 30 minutes, as the next scan is not until 7:00. If the player plays until 7:15, they would get credit when the 7:00 scan occurs, in which case the player would have accrued 90 minutes of time on their rewards card (5:30 to 7:00).

- 8. Explain any prize distribution including prizes given to the winner, loser, or any other player or patron.**

(See Above)

- 9. Explain any re-seeding of the fund once the prize is won.**

- 11. Explain if the house is retaining any administrative or any other type of fee operating the game activity.**

None at present.

- 14. Identify any entity or person other than those licensed as the house involved in the gaming activity.**

Gaming Activities Offered During Tournament Play

The “Drawing for Prizes” Ticket (GEGA-003545):

- **Rules of Play:** The Drawing for Prizes Ticket Promotion involves a random drawing where a bin or other randomizer will be used. During pre-determined times and intervals of the promotion, Casino staff will announce the commencement of the drawing and collect player tickets from each player seated at the eligible tournament game. Player tickets will be collected over the course of the promotion and stored for the duration or collected at pre-determined times. Those tickets will then be placed in the drawing bin and will be rotated. Once the tickets are thoroughly mixed, a casino employee will randomly draw one ticket from the bin. The player who has their ticket drawn will be awarded the posted prize. If a ticket is drawn and the winner of the drawing is not present, the ticket will be placed back in the drawing bin and another will be drawn. This process will occur until a winner is selected and present to claim their prize. Once the drawing is complete, all tickets that are used will not be destroyed and not be returned.
- **Prize:** The Drawing for Prizes Ticket Promotion features a fixed prize element. The player who has their ticket randomly selected will receive a prize ranging in value from \$50 to \$50,000 in the form of casino chips, merchandise, future tournament entries and special event tickets. A player may also win a chance to spin a prize wheel with 108 pre-designated spots with different prize amounts posted in each spot. In all instances, prize amounts will be pre-determined and posted before being offered.
- **Funding:** The prize is funded by the Casino. No amount shall be deducted from the Tournament prize pool in order to fund this gaming activity.

No Purchase Necessary

All persons wishing to participate on a No Purchase Necessary (NPN) basis will be accommodated by asking a Casino Floor Manager for a NPN table to be set up. This will be accomplished within a reasonable period of time and the participant will be dealt hands as if it is in a live game. All opportunities to win the promotion will be provided to a person participating at an NPN table in the same procedure and manner as that of a live game. No cash, collection, or Casino gaming chips will be used at the NPN table. The Casino dealer or floor manager will play the hands of the unoccupied seats to simulate a full game.

Turlock Sports Ticket Giveaway Procedure

- **All seated players in an active game qualify for the promotion. Players must be in an active game at the beginning of the sporting event. They must also be in an active game at the same time as the winner of each qualifying period is determined. A player can take a break from playing in a game, but if their square is determined to be a winner while they are on break, they forfeit their prize for that qualifying period.**
- **A board containing 100 squares is used to track participants of the promotion.**
- **Starting one hour and thirty minutes before the start of a pre-determined sporting event (baseball, football, basketball, etc.), names of players who wish to participate are randomly placed on a 100 square board (10 squares by 10 squares) on a “first come first served” basis. Spaces will be selected by the players.**
- **After the board is full, or at the beginning of the sporting event, Ten (10) cards, Ace (counted as one) through 10 (counted as zero) are shuffled. The cards are turned over and the corresponding number is placed on the board starting at the bottom and going to the top. The same procedure is followed and the numbers are filled on the top of the board from left to right. The board will be clearly marked indicating which row represents the home team and which row represents the visitor team.**
- **The score of the game at the end of each quarter, inning, or pre-designated point of the game dictates which box is the winner. Only the last number of each score is used. (A score of 7 to 14 would be on the board as 7 to 4)**
- **Each winner will receive a cash or merchandise prize valued in a range from \$10 to \$5,000.**
- **The player must be present to win.**
- **The winner has three (3) minutes to claim their prize.**
- **Unclaimed prize money rolls over to the next qualifying period.**
- **In the event the game is tied and is extended beyond its normal ending point, the promotion will continue to award winners at designated periods of the game.**
- **Employees of the Turlock Poker Room and Third Party Provider of Proposition Player Services are not eligible for this promotion, whether on-duty or off-duty.**
- **This promotion is open to No Purchase Necessary participants. NPN players must adhere to the same rules as any other player.**

- **The winner must have valid identification to receive prize money. The casino cage determines what valid identification is. (passport, driver's license or military I.D.). No exceptions.**
